*The Privacy of the Self*, 1996 The first collection of papers showing the development of Masud Khan's thinking over twenty five years of clinical work      **The Privacy of the Self** MASUD. KHAN, Taylor & Francis Group, 2019-07-10      **The Privacy of the Self** M. Masud R. Khan, 1974      **The Privacy of the Self** Masud Khan, 2018-03-26 The Privacy of the Self was the first collection of papers showing the development of the author's thinking over twenty five years of clinical work He was nurtured in the tradition of Anna Freud John Rickman and D W Winnicott but his contribution to psychoanalytic literature was a distinctive and personal one What emerges from this book is the natural and private crystallization of his experiences with his patients and teachers As he says in his preface Psychoanalysis is an extremely private discipline of sensibility and skill The practice of psychoanalysis multiplies this privacy into a specialized relationship between two persons who through the very nature of their exclusivity with each other change each other The first thing I wish to say about my work reported in these papers is that my patients have helped me become and personalize my potential of thought affectivity and effort into a way of life that I find deeply satisfying      Essential Papers on Character Neurosis & Treatment Ruth Lax, 1989-10 Character refers to the unique aspects of behavior which make up each individual's patterns of thought attitude and effect In this collection Ruth Lax has put together the seminal papers which both define the constance of character and its disorders and elucidate some of the persistent controversy regarding the treatment of character neurosis      Essential Papers on Literature and Psychoanalysis Emanuel Berman, 1993 In a draft attached to a letter to his friend and confidante Wilhelm Fliess May 31 1897 Freud develops an idea The mechanism of fiction is the same as that of hysterical fantasies He supports this thought with a brief analysis of the biographical sources of Goethe's Werther A few months later on October 15 1897 Freud mails Fliess a detailed account of remembered events from his childhood that Freud believed underlined the universality of Oedipus Rex and Hamlet Freud's foray into literature initiated the beginning of a new critical approach In Essential Papers on Literature and Psychoanalysis Emanuel Berman presents classic and contemporary papers written at the intersection of literature and psychoanalysis In bringing these essays together Berman traces the development of a discipline that has often been plagued by a polarization between self-confident single-minded psychoanalysts reading literature as a series of case studies and literary loyalists who cling to manifest content or to the declared intentions of the authors accepting them at face value and depriving the work of its emotional complexity Berman covers the full range of old and new perspectives and presents selections from today's mature phase This collection includes papers by Sigmund Freud Steven Marcus Patrick J Mahoney Donald Spence Otto Rank Ernest Jones Ernst Kris Phyllis Greenacre Florence Bonime and Maryanne Eckardt David Werman Ellen Handler Spitz Jacques Lacan Shoshana Felman Norman N Holland Roy Schafer Meredith Anne Skura Gail S Reed Francis Baudry Rivka R Eifermann and Bennett Simon      Rescuing Psychoanalysis from Freud and Other Essays in Re-Vision Peter L. Rudnytsky, 2018-05-08 In his latest groundbreaking book the author examines

the history of psychoanalysis from a resolutely independent perspective At once spellbinding case histories and meticulously crafted gems of scholarship Rudnytsky's essays are revisions in that each sheds fresh light on its subject but they are also avowedly revisionist in their scepticism towards all forms of psychoanalytic orthodoxy Beginning with a judicious reappraisal of Freud and ranging in scope from King Lear to contemporary neuroscience the author treats in depth the lives and work of Ferenczi Jung Stekel Winnicott Coltart and Little each of whom sought to rescue psychoanalysis by summoning it to live up to its highest ideals

Vaughan, Louis Hoffman, and Nathaniel Granger Jr. Understanding and Coping with Failure: Psychoanalytic perspectives Brent Willock, Rebecca Coleman, Curtis, Lori C. Bohm, 2014-05-16 Failure is a theme of great importance in most clinical conditions and in everyday life from birth until death. Its impact can be destabilizing even disastrous. In spite of these facts, there has been no comprehensive psychoanalytic exploration of this topic. Understanding and Coping with Failure: Psychoanalytic Perspectives fills this gap by examining failure from many perspectives. It goes a long way toward increasing understanding of the numerous issues involved and provides many valuable insights into ways of coping with these challenging experiences and several chapters discuss positive aspects of failure: what can be learned from what would otherwise simply be regrettable experiences. Brent Willock, Rebecca Coleman, Curtis, and Lori C. Bohm bring together a rich diversity of topics explored in thoughtful ways by an international group of authors from the United Kingdom, Canada, and the United States of America. Failed therapies which have been examined in the literature are but one element freshly explored in this comprehensive exploration of the topic. The book is divided into sections covering the following topics: Failing and Forgiving, Society-Wide Failure, Failure in the Family, Therapeutic Failure, Professional Failure in the Consulting Room, and on the Career Path, Integrity versus Despair, Facing Failure in the Final Phase of the Life Cycle, Metaphoric Bridges and Creativity, The Long Shadow of Childhood, Relational Trauma. Understanding and Coping with Failure will be eagerly welcomed by all those trying to increase their awareness, understanding, and capacity to work with the many ramifications of this important issue. Because of the uniqueness of this broad, detailed exploration of the complexities of the failure experience, it will be essential reading for psychoanalysts, psychotherapists, psychologists, psychiatrists, social workers, counselors, and students in these disciplines. It will also appeal to a wider audience interested in the psychoanalytic perspective. Shamanic Dimensions of Psychotherapy Robin van L ben Sels, 2019-11-13 In Shamanic Dimensions of Psychotherapy: Healing through the Symbolic Process, Robin van L ben Sels uniquely and honestly recounts her personal journey toward a shamanic understanding of psychotherapy. Exploring the disruptive breakthrough of visions and dreams that occurred during her analysis, personal life, and psychoanalytic training, van L ben Sels illustrates how the phenomenology of ancient shamanism is still alive and how it is a paradigm for the emergence and maturation of the psyche in people today. This original book delves into van L ben Sels's personal experience of the shaman, identifying such eruptions as a contemporary version of the archaic shaman's initiatory call to vocation. The book is split into two parts. It begins by outlining the shamanic personality in history, recognizing this as an individual that has been called out of a collectively sanctioned identity into a creative life and the unconscious shaman complex they consequently face, especially in psychotherapeutic relationships. Practical as well as theoretical, the second part outlines the shamanic attributes that underline psychotherapeutic relationships: silence, sound,

mask rhythm gesture movement and respiration and usefully describes how to use them as asanas for consciousness or vehicles toward psychological awareness With clinical examples and personal stories throughout this book s unique Jungian perspective addresses contemporary expressions of the shaman complex in our current world Shamanic Dimensions of Psychotherapy Healing through the Symbolic Process will be essential reading for Jungian analysts and psychotherapists in practice and in training as well as for academics and students of Jungian and post Jungian studies It will be especially helpful and illuminating to those who have experienced an involuntary plunge into the depths and who seek ways to articulate their experience
