The Privatization Process in East-Central Europe Michal Mejstrik, 2012-12-06 It is beyond any doubt that East Central European countries such as Czech Republic Hungary Poland and Slovakia has dramatically changed its shape through its radical transition from centrally planned to the market economies in last 7 years Many economists divide the process of economic transformation into areas of Stabilization Liberalization and Privatization Restructuring The traditional view is that stabilization and liberalization can be achieved rather quickly by balancing budgets balance of payments tightening money supply freeing prices and liberalizing trade but that the area of privatization is one that could be moved to the future and will require much more time Until 1991 none of the post communist nations except former East Germany which had a large decree of support from West Germany had succeeded in privatizing large numbers of enterprises even though more than two years had passed since the changes in government in these nations The privatization has been however seen as an extremely

important part of reform package together with stabilization and liberalization especially in the Czech Republic from the very beginning The Czechs originally as a part of the Czechoslovak Federal Republic embarked on an unprecedented path that should have lead not only to stabilization and liberalization but also to very rapid mass privatization of its sector of large enterprises that have dominated its economy to an extreme extent Case-by-case Privatization in the Russian Federation Harry G. Broadman,1998 Since the advent of reform in 1992 the Russian authorities have made substantial strides toward creating a market economy through privatization Recently Russian authorities have established an institutional framework for a case by case approach that ensures transparency and competition through the use of independent financial and other advisers This paper contains the principal presentations made at a World Bank workshop on the lessons of international experience in case by case privatization Privatization Decision John D. The Political Economy of Development in Kenya

Kempe Ronald Hope, Sr., 2011-12-01 Kenya is a country of geopolitical and economic importance in East Africa. It shares borders with unstable states such as Somalia and Sudan while being a hub for trade, communication, finance, and transportation across the region. Although relatively stable since its independence in 1963, the country still faces poverty, inequality, and corruption. In addition, the contested election of 2007 led to severe ethnic strife that tested its political stability, leading to a new constitution in 2010. This unique survey by a leading expert on the region provides a critical analysis of the socio-economic development in Kenya from a political economy perspective. It highlights Kenya's transition from being a centralized state to having a clear separation of powers and analyzes key issues such as economic growth, urbanization, corruption, and reform. The book identifies Kenya's key socio-development problems and offers solutions to improve both governance and economic performance, making it an essential resource to researchers, academics, and policy makers working on development issues and African politics.

The Balkans: Foreign Direct Investment and EU Accession

Aristidis Bitzenis, 2013-07-28 The fall of communism and subsequent developments have put a renewed spotlight on the potential of the Balkan economies. Bulgaria, Albania, Serbia, Montenegro, Romania, and the Former Yugoslav Republic of Macedonia are countries which have attracted low levels of investment, and poor political leadership in most of the countries has delayed much needed reforms. However, there are now signs of improvement, and this timely book fills a significant gap in the available literature. Demonstrating that these countries must engage as fully as possible with the world economy via EU accession, this book explores the implications of the specific characteristics of these countries which have made the transition process more difficult. This exciting new volume is valuable reading for students, academics, and business professionals interested in international development in the Balkans.

Copyright, Freedom of Speech, and Cultural Policy in the Russian Federation

Michiel Elst, 2004-11-01 This book traces the impact of the economic and political perestroika on the copyright law of the late USSR and the Russian Federation. The transformation of the administrative command economy into a market economy, the introduction of the rule of law, and the adoption of a natural law view on human rights, the revolution in cultural policy, all influenced both the contents and the function of copyright law for the authors, entertainment, and information industries, and the consumers. The book provides a detailed analysis of the freedom of expression and of copyright legislation in Russia, always with an eye on historic comparisons and evolutions. At the same time, it gives a synthetic overview of the main changes in constitutional, civil, and economic law in the last 15 years.

The Bulgarian Economy

Derek C Jones, Jeffrey Miller, 2019-01-22 First published in 1997, this volume examines how Bulgaria has been an early starter but a slow and often erratic mover in the path of stabilization and systemic transition. This book provides a most useful account of

the development to date and of the costs associated with Bulgarian strategy or lack of empirical analysis and theoretical reflections especially in comparison with other transition economies It will be of great interest to any scholar official or businessman involved not only with Bulgaria but more generally with post communist countries "Code of Massachusetts regulations, 2015" ,2015 Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020
