The Grandeur And Twilight Of Radical Universalism:

The Grandeur and Twilight of Radical Universalism Ágnes Heller, Ferenc Fehér, 1991-01-01 This volume provides theoretical construction to the extraordinary events that resulted in the collapse of communism worldwide The authors attribute a great deal of the problems of totalitarianism to its blind acceptance of a Marxist philosophy of practice With the failure of communist practice the collapse of the Marxist paradigm was quick to follow At its roots this volume is a critique of the idea that we can have scientific knowledge of the social and political future [Axiología de la modernidad](#) Ángel Prior, 2002 La obra de Agnes Heller puede considerarse como una reflexión sobre la axiología de la modernidad tanto por el carácter central y la persistencia del motivo axiológico en su pensamiento a lo largo de las décadas en que se ha desarrollado como porque en ella podemos encontrar una caracterización de la modernidad y de las grandes posiciones filosóficas respecto a la misma especialmente las llevadas a cabo por Marx Habermas y Kierkegaard consideradas en el presente ensayo como significativas de posibilidades de sentido abiertas en nuestro tiempo y que remitirán a los ámbitos axiológicos de la emancipación la justicia política y la moralidad **Freedom and Dissatisfaction in the Works of Agnes Heller** Lucy Jane Ward, 2016-12-27 Ward's book focuses on the work of the Hungarian philosopher Agnes Heller prominent member of the Budapest School a group of students who studied under the Marxist social theorist György Lukács For both Marx and Heller albeit in different ways dissatisfaction emerges as the inevitable result of the expansion of needs within modernity and as a catalyst for the development of anthropological wealth what Marx refers to as the human being rich in need Ward argues that dissatisfaction and the corresponding category of human wealth as both motif and method is central to grasping Heller's seemingly disparate writings While Marx postulates a radical overcoming of dissatisfaction Heller argues dissatisfaction is integral not only to the ongoing survival of modernity but also to the dynamics of both freedom and individual life In this way Heller's work remains committed to a position that both continually returns and departs is both with and against the philosophy of Marx This book will be of interest to scholars of political philosophy social theory critical theory and sociology

Agnes Heller Simon Tormey, 2001 This thorough examination of Agnes Heller's political thought covers a range of subjects from Marxian anthropology through aesthetics the philosophy of history ethical socialism postmodernism and the political forms of the modern state Simon Tormey treats Heller's work historically and thematically placing it in a postmodern 21st century context **Critiques of Everyday Life** Michael Gardiner, 2002-01-04 Recent years have witnessed a burgeoning interest in the study of everyday life within the social sciences and humanities In Critiques of Everyday Life Michael Gardiner proposes that there exists a counter tradition within everyday life theorising This counter tradition has sought not merely to describe lived experience but to transform it by elevating our understanding of the everyday to the status of a critical knowledge In his analysis Gardiner engages with the work of a number of significant theorists and approaches that have been marginalized by mainstream academe including The French tradition of everyday life theorising

from the surrealists to Henri Lefebvre and from the Situationist International to Michel de Certeau Agnes Heller and the relationship between the everyday rationality and ethics Carnival prosaics and intersubjectivity in the work of Mikhail Bakhtin Dorothy E Smith's feminist perspective on everyday life Critiques of Everyday Life demonstrates the importance of an alternative multidisciplinary everyday life paradigm and offers a myriad of new possibilities for critical social and cultural theorising and empirical research

The Devil in History Vladimir Tismaneanu, 2014-03-14 The Devil in History is a provocative analysis of the relationship between communism and fascism Reflecting the author's personal experiences within communist totalitarianism this is a book about political passions radicalism utopian ideals and their catastrophic consequences in the twentieth century's experiments in social engineering Vladimir Tismaneanu brilliantly compares communism and fascism as competing sometimes overlapping and occasionally strikingly similar systems of political totalitarianism He examines the inherent ideological appeal of these radical revolutionary political movements the visions of salvation and revolution they pursued the value and types of charisma of leaders within these political movements the place of violence within these systems and their legacies in contemporary politics The author discusses thinkers who have shaped contemporary understanding of totalitarian movements people such as Hannah Arendt Raymond Aron Isaiah Berlin Albert Camus Francois Furet Tony Judt Ian Kershaw Leszek Kolakowski Richard Pipes and Robert C Tucker As much a theoretical analysis of the practical philosophies of Marxism Leninism and Fascism as it is a political biography of particular figures this book deals with the incarnation of diabolically nihilistic principles of human subjugation and conditioning in the name of presumably pure and purifying goals Ultimately the author claims that no ideological commitment no matter how absorbing should ever prevail over the sanctity of human life He comes to the conclusion that no party movement or leader holds the right to dictate to the followers to renounce their critical faculties and to embrace a pseudo miraculous a mystically self centered delusional vision of mandatory happiness
