Great Exhibition of 1851 was the world's first international exposition of manufactured goods inventions works of art and artefacts from many cultures A showcase of British manufacturing supremacy an educational extravaganza a lesson to foreigners and a deep source of public fascination the Exhibition was closely connected with Queen Victoria's consort Prince Albert who put much effort into having it sited in Hyde Park against stiff opposition Protesters feared the disappearance of the park under tons of bricks and mortar but when the great structure was eventually chosen and built it silenced dissenters and became the most famous new building in the world The Great Exhibition G. 1851 was the outstanding public event of the Victorian era Housed in Joseph Paxton s glass and iron Crystal Palace it presented a vast array of objects technologies and works of art from around the world The first industrial exhibition of international scope contemporary commentators attributed much wider significance to it Prince Albert in particular argued that the Great Exhibition would bring nations together in a spirit of friendly rivalry following the social upheavals of the previous decade But the Great Exhibition s role and long term influence is far from clear cut did it encourage free trade or risk giving foreign competitors an advantage Did it celebrate the achievements of the workers or give more power to industrialists and factory owners Was it ungodly even blasphemous or did it promote Christianity across the British Empire

Hobhouse,2002-03-05 The Great Exhibition of 1851 and the Crystal Palace which housed it together became a British icon a symbol of free trade and a national success funded not only by taxes but by public subscription Though the Palace itself was banished to Sydenham to leave Hyde Park free for Londoners the Commission was re invented under Prince Albert to spend the profits for the advancement of British industry The Commissioners first established South Kensington with its Museums and Colleges of Art and Science the Albert Hall and the Royal College of Music and then moved into the training of scientists and artists They assisted in the expansion of the British School at Rome and for over a century 1851 Scholars have been contributing to British scientific discoveries This book celebrates 150 years of the Commission s work fired by the application of art and science to productive industry a story of some success and permanent record yet a pilgrimage not without its episodes of dissension and controversy *Great Exhibitions* Trevor May,2010-07-20 In 1851 an event was organized in
