The Great Ideas Today 1972:

Great Ideas Today, 1981 **The ^AOxford Guide to Library Research** Thomas Mann, 2015-02-27 In this fourth edition of *The Oxford Guide to Library Research* Thomas Mann spells out the range of amazing resources available in research libraries that cannot be found on the Internet. These include not only the tens of millions of books, journals, and other post-1923 printed sources that cannot be digitized because of copyright restrictions, but a rich array of subscription databases in all subject areas that are not accessible on the open Web but are freely searchable via research libraries. *The Oxford Guide to Library Research* provides scores of concrete examples drawn from the experience of a veteran reference librarian who has helped tens of thousands of researchers over three decades.

Great Ideas Today, 1961 *Romances with Schools* John I. Goodlad, 2016-07-18 John I. Goodlad has been an unflagging voice for humanistic ideals in education for more than six decades and has helped reframe the modern discourse on the role and function of schools. For Goodlad, the goal of public education is to help children become free and full participants in a democratic society by instilling them with a love of learning and a sense of civic responsibility, goals that are incompatible with our present system of schooling that teaches to standardized tests. In *Romances with Schools*, John Goodlad steps out from behind the public persona of distinguished scholar and advocate for public schooling to offer a moving personal account of a life devoted to educating the young. He deftly interweaves fascinating personal details with reflections on many of the larger issues in education that he has explored throughout his career. John's early encounters with formal schooling began just before the Great Depression in Canada with the humble North Star School. From there, we are taken through sixty-plus years in education, starting with John's first teaching job as the sole instructor of a one-room schoolhouse, through his years as an education activist, dean of the UCLA Graduate School of Education, and national voice for educational renewal. Along the way, he treats us to vivid characterizations of the men, women, and above all, children who shaped him as a person and inspired his thinking on education. *Romances with Schools* is both a poignant memoir and a persuasive argument for the need to renew public education to fit the demands of a free society.

Stephen Goodlad, John's son, has written a moving Prologue to the book that provides behind-the-scenes insight into John's life. An Epilogue by Roger Soder, a long-time colleague, places John's work of school renewal in the context of political change.

Contemporary Perspectives on Rhetoric Sonja K. Foss, Karen A. Foss, Robert Trapp, 2014-04-04 The anniversary edition marks thirty years of offering an indispensable review and analysis of thinkers who have exerted a profound influence on contemporary rhetorical theory: I. A. Richards, Ernesto Grassi, Chaim Perelman, and Lucie Olbrechts-Tyteca, Stephen Toulmin, Richard Weaver, Kenneth Burke, Jürgen Habermas, bell hooks, Jean Baudrillard, and Michel Foucault. The brief biographical sketches locate the theorists in time and place, showing how life experiences influenced perspectives on rhetorical thought. The concise explanations of complex concepts are clear, engaging, insightful, and highly accessible, serving as an excellent primer for reading the major works of these scholars. The critical

commentary is carefully chosen to highlight implications and to place the theories within a broader rhetorical context Each chapter ends with a complete bibliography of works by the theorists **Liberty, Games and Contracts** Malcolm Murray, 2016-05-06 Jan Narveson is one of the most significant contemporary defenders of the libertarian political position Unlike other libertarians who typically defend their view with reference to natural rights or an appeal to utilitarianism Narveson's main contribution has been to offer a philosophical defence of libertarianism based on a Hobbesian individualist contractarian ethic Critiques of Narveson's contractarian libertarianism fall into three categories those that reject contractarian moral theory those that reject any link between contractarianism and libertarianism and those that accuse libertarians of conflating liberty with property In this book Malcolm Murray brings together the most significant of Narveson's critics and presents their work alongside replies by Jan Narveson *Natural Law and Contemporary Public Policy* David Forte, 1998-08-01 Rooted in Western classical and medieval philosophies the natural law movement of the last few decades seeks to rediscover fundamental moral truths In this book prominent thinkers demonstrate how natural law can be used to resolve a wide range of complex social political and constitutional issues by addressing controversial subjects that include the family taxation war racial discrimination medical technology and sexuality This volume will be of value to those working in philosophy political science and legal theory as well as to policy analysts legislators and judges *Routledge Library Editions: Philosophy of Education* Various Authors, 2022-07-30 This set of 21 volumes originally published between 1955 and 1997 amalgamates several topics on the philosophy of education with a particular focus on religious education curriculum studies and critical thinking This collection of books from some of the leading scholars in the field provides a comprehensive overview of the subject and will be of particular interest to students of philosophy education and those undertaking teaching qualifications *In Praise of Education* John I. Goodlad, 1997-06-15 What is the nature and role of education in a democracy In this thought provoking and eloquent volume by the author of *A Place Called School* John Goodlad speaks to everyone faced with making critical choices for our nation's children whether it be in the election area our local schools or within the personal setting of the family [Selected Papers, Volume 5](#) Subrahmanyam Chandrasekhar, 1990-05-11 This volume 5 covers all of Chandrasekhar's contributions to the general theory of relativity and to relativity's astrophysical applications except his research on black holes and on colliding gravitational waves forthcoming in volume 6
