The Great White Space:

White Space Daniel J. Keyes, Luis L.M. Aguiar, 2021-12-15 Much attention has been paid to race in the Canadian metropolis but how are the workings of whiteness manifested in the rural urban White Space analyzes the dominance of whiteness in the Okanagan Valley of British Columbia to expose how this racial notion sustains forms of settler privilege today Contributors to this perceptive collection critique the cultural economics of whiteness and white supremacy The first half documents the historical construction of whiteness how settlers and their ancestors have sought to exalt pioneers by erasing non whites from the region s heritage while Indigenous people resist this white out The second half explores the persistence of whiteness as an organizing principle in the neoliberal deindustrialized present White Space moves beyond appraising whiteness as if it were a solid and unshakable category Instead it offers a powerful demonstration of how the concept can be re envisioned resisted and reshaped in contexts of economic change The Ascendancy John Weiskopf, 2006-11 When a beanstalk starts growing out of the rubble of the World Trade Center chaos erupts in New York City Jack Tott a twenty six year old musician believes that if he climbs the beanstalk he will somehow find the means to help save his dying sister Caitlin Bingham an archaeoastronomer suspects that the beanstalk is related to the mysterious disappearance of Pachakutec a planet she recently discovered But the lands and inhabitants in the world above the beanstalk are beyond anything Jack or Caitlin could have imagined A strange cave a huge thorn maze a dapper five foot tall mosquito a paranoid bird who is the last of his species and an ancient Incan civilization are just part of the adventure that awaits Jack and Caitlin With a lightning quick pace and basis in real events of the twenty first century The Ascendancy offers hope and a new mythology for the world at this volatile point in our history **Rethinking the Great White North** Andrew Baldwin, Laura Cameron, Audrey Kobayashi, 2011-09-21 Canadian national identity is bound to the idea of a Great White North Images of snow wilderness and emptiness seem innocent yet this path breaking volume shows they contain the seeds of contemporary racism Rethinking the Great White North moves the idea of whiteness to the centre of debates about Canadian history geography and identity Informed by critical race theory and the insight that racism is geographical as well as historical and cultural the contributors trace how notions of race whiteness and nature helped shape Canada s identity as a white country in travel writing and treaty making scientific research and park planning and within small towns cities and tourist centres These nuanced explorations of diverse historical geographies of nature not only revisit the past they offer a new vocabulary for contemporary debates on Canada s role in the North and the nature of multiculturalism **The Great White Space** Basil Copper, 1974 **Printed Salesmanship**, 1927 Questions in Dataviz Neil Richards, 2022-11-02 This book takes the reader through the process of learning and creating data visualisation following a unique journey with questions every step of the way ultimately discussing how and when to bend and break the rules to come up with creative unique and sometimes unconventional ideas Each easy to follow chapter poses one key question and provides a selection of

discussion points and relevant data visualisation examples throughout Structured in three parts Section I poses questions around some fundamental data visualisation principles while Section II introduces more advanced questions challenging perceived best practices and suggesting when rules are open to interpretation or there to be broken The questions in Section III introduce further themes leading on to specific ideas and visualisation projects in more detail Questions in Dataviz A Design Driven Process for Data Visualisation will appeal to any reader with an interest in creative or unconventional data visualisation and will be especially useful for those at a beginner or intermediate level looking for inspiration and alternative ways to deploy their data visualisation skills outside of conventional business charts
