thread echoing poet Dylan Thomas phrase the green fuse carries multiple meanings On a more apparent level the green thread is what weaves together the diverse approaches of this collection an interest in the vegetal that goes beyond single disciplines and specialist discourses and one that not only encourages but necessitates interdisciplinary and even interspecies dialogue On another level the green thread links creative and historical productions to the materiality of the vegetal a reality reflecting our symbiosis with oxygen producing beings In short The Green Thread refers to the conversations about plants that transcend strict disciplinary boundaries as well as to the possibility of dialogue with plants

Paradoxes of Green Gareth Doherty, 2017-02-07 This highly innovative book is a multidisciplinary study of green and its significance from multiple perspectives aesthetic architectural environmental political and social It is centered on the Kingdom of Bahrain the smallest and greenest of the Arab states in the Persian Gulf where green has a long and deep history appearing cooling productive and prosperous and a radical contrast to the hot hostile desert As is the case with cities around the world green is often celebrated as a counter to gray urban environments yet green has not always been good for cities To have the color green manifested in arid environments is often in direct conflict with green from an environmental point of view this paradox is at the heart of the book Given the resources required to maintain green in arid areas including cities the provision of green often bears significant environmental costs In arid environments such as Bahrain this contradiction becomes extreme and even unsustainable Based on long term ethnographic fieldwork Gareth Doherty explores the landscapes of Bahrain where green represents a plethora of implicit human values and lives in dialectical tension with other culturally and environmentally significant colors and hues The book's six chapters focus on Blue Red Date palm Green Grass Green Beige and White Implicit in his book is the argument that concepts of color and object are mutually defining and thus a discussion about green becomes a discussion about the creation of space and place
