An Anatomy Of Ghanaian Politics Naomi Chazan, 2019-02-28 The paths of African states have diverged markedly since the termination of colonial rule Nevertheless Ghana the first African state to achieve independence epitomizes both the political gyrations and the overall stagnation common to many other countries on the continent This work concentrates on the 1969-1982 period in Ghana focusing on two interrelated facets of African politics the decline of state power and authority and adjustments to political recession The author traces the dual patterns of diminution of the state and the adaptation of autonomous coping mechanisms in the separate spheres of political leadership political structures and institutions ideology and political economy The dynamic of state society interactions is then treated in terms of the rhythm of dissent conflict and disengagement Dr Chazan provides a comprehensive study of Ghanaian politics from the 1970s to the present By systematically analyzing the process of political decline and regeneration she highlights similar processes apparent elsewhere in Africa The stress on the subtleties and direction of political change has important implications for policymakers and policy analysts alike

The Quills of the Porcupine Jean Marie Allman,1993-08-01 Bearing the historic symbol of the Asante nation the porcupine the National Liberation Movement NLM stormed onto the Gold Coast s political stage in 1954 mounting one of the first and most significant campaigns to decentralize political power in decolonizing Africa Ghana formerly the Gold Coast was the first colony in sub Saharan Africa to secure political independence from Britain The struggle for full self government was led by Kwame Nkrumah the leading advocate of African nationalism and Pan African unity in the post World War II era The NLM threatened the stability of Nkrumah s preindependence government and destroyed prospects for a smooth transition to full self rule Though NLM demands for Asante autonomy mobilized thousands of members marchers and voters the NLM was unable to forestall plans for a unitary government in a new nation Under Nkrumah Ghana became independent in 1957 Marginalized politically by 1958 the NLM has at times been marginalized by scholars as well Cast into the shadows of academic inquiry where history s losers often dwell the NLM came to be characterized as a tribalist ghost of the past whose foreordained defeat was worthy of some attention but whose spectacular rise was not Today when it is far harder to dismiss decentralizing movements and alternative nationalisms as things of the past Jean Marie Allman s brilliant *The Quills of the Porcupine* recovers the history of the NLM as a popular movement whose achievements and defeats were rooted in Asante s history and in the social conflicts of the period Allman draws skillfully on her extensive interviews with NLM activists on a variety of published and archival sources in Ghana and on British colonial records many of them recently declassified to provide rich narrative detail Sophisticated in its analysis of the NLM s ideology and of the appeals of the movement to various strata within Asante society *The Quills of the Porcupine* is a pioneering case study in the social history of African politics An exciting story firmly situated within the context of the large theoretical and historical literature on class ethnicity and nationalism its significance reaches far past the borders of Asante and of Ghana

to perpetuate the conflict among the various Lebanese communities in order to keep its domination of Lebanon *Police, Military and Ethnicity* Cynthia Enloe, 2024-12-06 This collection of essays describes and analyzes the ways in which government policymakers go about designing police forces and militaries The author includes both wide ranging comparative investigations of the dimensions of the state security phenomenon and specific case studies Dr Enloe uses the sociological concept of ethnicity to demonstrate how the armed forces in several nations have capitalized on racial and ethnic diversity to foster their own goals and those of the government and power elites She examines this idea by focusing on the ethnic factors involved in the evolution of the South African military the military ethnic connection in Malaysia and the role of the armed forces in the conflict in Ulster The author illustrates convincingly that not only individual citizens desire security but that nation states themselves are engaged in the same pursuit What often passes for or is justified in the name of citizen protection is in fact done to strengthen the state itself Militaries are recruited in ethnically skewed ways and increasing numbers of police forces throughout the world have military capacities not to enhance the security of private individuals but to protect the status quo of the central government and the nation's establishment Dr Enloe covers an assortment of countries within the framework of her central argument which is practically as well as theoretically significant Each chapter can be read on its own and all deal with currently salient political conditions

Democratisation and Power-Sharing in Stormy Weather Tamirace Fakhoury Mühlbacher, 2009-11-14 Is democracy possible only in homogeneous societies Does heterogeneity preclude a stable democracy Throughout history ethnic linguistic or religious homogeneity whether by circumstance coercion or choice has seemingly been conducive to democracy In France democracy was established after the imposition of religious uniformity and the revocation of the Edict of Nantes The United States pulled in immigrants who renounced their original affiliations to forge a new identity in a newly born state Still defying assumptions democracies have emerged in heterogeneous states such as the Swiss Confederation the Successor States of the Holy Roman Empire and later those carved out of the previous colonial empires One common feature is the failure of often violent attempts to enforce homogeneity or the lack of any such attempt in the first place In the course of time these divided societies have learned to live in diversity to pacify their differences and to find a path towards peace or at least accommodation In sum they went beyond forms of separating powers to sharing power Whether defined by ethnicity language religion or even ideology communities agreed to a pact on participating in a joint government based on proportional or even equal representation It is noteworthy that political systems based on power sharing were long marginal in mainstream political science which laid an emphasis on

democratic transitions in homogeneous societies and on socio economic or cultural prerequisites that facilitate the rise of democracy

Syrian Intervention in Lebanon Naomi Joy Weinberger, 1986 This fascinating area study of a major Middle East country in turmoil examines Syria's unusual interventionist role in the Lebanese Civil War as Syria shifted allegiance from the rebels to the Lebanese incumbents

Ethnic Politics and State Power in Africa Philip Roessler, 2016-12-15 Why are some African countries trapped in vicious cycles of ethnic exclusion and civil war while others experience relative peace In this groundbreaking book Philip Roessler addresses this question Roessler models Africa's weak ethnically divided states as confronting rulers with a coup civil war trap sharing power with ethnic rivals is necessary to underwrite societal peace and prevent civil war but increases rivals capabilities to seize sovereign power in a coup d tat How rulers respond to this strategic trade off is shown to be a function of their country's ethnic geography and the distribution of threat capabilities it produces Moving between in depth case studies of Sudan and the Democratic Republic of the Congo based on years of field work and statistical analyses of powersharing coups and civil war across sub Saharan Africa the book serves as an exemplar of the benefits of mixed methods research for theory building and testing in comparative politics

Religion and Fertility Joseph Chamie, 1981-04-30 This work is a critical investigation into the relationship between religious affiliation on the one hand and fertility family size preferences and family planning behaviour on the other Dr Chamie works from a set of unique data the 1971 Fertility and Family Planning Survey in Lebanon This survey is not only a national study of Lebanese fertility but also a large scale survey 2 800 people offering the opportunity to study Arab Christian Muslim differentials Lebanon's demographic situation has far greater scientific and practical importance than might be supposed from its relatively small population From observing the important religious communities at different stages of social and economic development Dr Chamie has thus been able to analyse the interacting effects of religion and socio economic development on reproductive behaviour

Governance and Developing Countries Jamil Jreisat, 2021-07-19 Governance is not a topic that easily lends itself to neat and precise definitions Although concepts and practices of governance are profoundly under specified they are frequently associated with three dimensions how and why governments are structured what processes they employ in governing and what results they are able to accomplish in serving their societies As scholars continue to marvel over what theories and models are utilized in the design and implementation of activities and policies of governance popular views boldly affirm that better governance is the Third World's best hope to remedy their political and economic woes The articles in this book represent a wide range of scholarly

interests that extend from the abstract and conceptual to the specific and applied The articles by Baaklini Elsenhans and Hyden mainly are in the category of conceptual analysis The rest of the contributions by Mavimba and Chackerian Zimbabwe Jabbara and Jabbara Lebanon Jain India and Nelsen China deal with important national experiences

Stability and the Lebanese State in the 20th Century Tarek Abou Jaoude, 2022-08-25 Explaining state building failures in Lebanon during the 20th century this book looks at the relationship between legitimacy and stability in the country since the creation of the state in 1920 The presence of legitimacy is considered necessary to any successful state building endeavour This book argues that the Lebanese state failed to achieve any meaningful form of legitimacy from its inception in 1920 to its near collapse during the civil war However by analysing different eras of Lebanese history throughout the different presidential terms the author challenges the general understanding of stability and governance to show that the absence of legitimacy and society support actually contributed to the persistence of the Lebanese state More than this the evidence shows that Lebanese state was at its most stable when it was regarded as illegitimate The wider implicit question thus asked in the book revolves around a case where illegitimacy within the state is what ensures its stability and survival Based on primary sources including national archives and collections institutional documents personal memoirs newspapers and journals this book provides a rich survey on the development and functioning of Lebanese political institutions

Democracy in Plural Societies Arend Lijphart, 1977-01-01 While it may be difficult to achieve and maintain stable democratic governments in countries with deep religious ideological linguistic cultural or ethnic cleavages Lijphart argues that it is not at all impossible Through the analysis of political systems in six continents he demonstrates that what he calls consociational democracy can be successful in severely divided or plural societies Here once again Arend Lijphart is directing our attention to matters which will surely engage much of the attention of students of comparative politics in the next decade G Bingham Powell Jr American Political Science Review A study which can speak to such a wide audience in political science deserves a warm welcome from the profession Government and Opposition A copybook example of the comparative method of political analysis as well as indispensable reading for all who have an interest in the nature and prospects of representative democracy whether in Europe or beyond The Times Higher Education Supplement This well written work containing a wealth of information on politics of many diverse nations is highly recommended Library Journal
