## **The Politics Of Provincialism The Democratic Party In Transition 1918 1932:**

The Politics of Provincialism David Burner,1975      *Political Conflict in America* A. Ware,2011-12-19 Recently there has been a high level of conflict in American politics Massive disagreements over government policies have pitted one group of Americans against another This book explores how and why this style of politics developed and argues that fundamental disagreements between Americans have always been at the root of its politics      America's Three Regimes Morton Keller,2009-03-11 Hailed in The New York Times Book Review as the single best book written in recent years on the sweep of American political history this groundbreaking work divides our nation s history into three regimes each of which lasts many many decades allowing us to appreciate as never before the slow steady evolution of American politics government and law The three regimes which mark longer periods of continuity than traditional eras reflect are Deferential and Republican from the colonial period to the 1820s Party and Democratic from the 1830s to the 1930s and Populist and Bureaucratic from the 1930s to the present Praised by The Economist as a feast to enjoy and by Foreign Affairs as a masterful and fresh account of U S politics here is a major contribution to the history of the United States an entirely new way to look at our past our present and our future packed with provocative and original observations about American public life      **The United States in World War I** James T. Controvich,2023-05-08 With the centennial of the First World War rapidly approaching historian and bibliographer James T Controvich offers in The United States in World War I A Bibliographic Guide the most comprehensive up to date reference bibliography yet published Organized by subject this bibliography includes the full range of sources vintage publications of the time books pamphlets periodical titles theses dissertations and archival sources held by federal and state organizations as well as those in public and private hands including historical societies and museums As Controvich s bibliographic accounting makes clear there were many facets of World War I that remain virtually unknown to this day Throughout Controvich s bibliography tracks the primary sources that tell each of these stories and many others besides during this tense period in American history Each entry lists the author title place of publication publisher date of publication and page count as well as descriptive information concerning illustrations plates ports maps diagrams and plans The armed forces section carries additional information on rosters awards citations and killed and wounded in action lists The United States in World War I A Bibliographic Guide is an ideal research tool for students and scholars of World War I and American history      The New York Irish Ronald H. Bayor,Timothy Meagher,1997-09-30 As one of the country s oldest ethnic groups the Irish have played a vital part in its history New York has been both port of entry and home to the Irish for three centuries This joint project of the Irish Institute and the New York Irish History Roundtable offers a fresh perspective on an immigrant people s encounter with the famed metropolis 37 illustrations      **Discontented America** David J. Goldberg,1999-02-08 from the foreword by Stanley I Kutler      **Social Contracts Under Stress** Olivier Zunz,Leonard Schoppa,Nobuhiro Hiwatari,2002-03-14 The years following World War II saw a huge expansion of the middle classes in the

world's industrialized nations with a significant part of the working class becoming absorbed into the middle class. Although never explicitly formalized, it was as though a new social contract called for government, business, and labor to work together to ensure greater political freedom and more broadly shared economic prosperity. For the most part, they succeeded. In *Social Contracts Under Stress*, eighteen experts from seven countries examine this historic transformation and look ahead to assess how the middle class might fare in the face of slowing economic growth and increasing globalization. The first section of the book focuses on the differing experiences of Germany, Britain, France, the United States, and Japan as they became middle class societies. The British working classes, for example, were slowest to consider themselves middle class, while in Japan, by the 1960s, most workers had abandoned working class identity. The French remain more fragmented among various middle classes and resist one homogenous entity. Part II presents compelling evidence that the rise of a huge middle class was far from inclusive or free of social friction. Some contributors discuss how the social contract reinforced long-standing prejudices toward minorities and women. In the United States, Ira Katznelson writes, Southern politicians used measures that should have promoted equality, such as the GI bill, to exclude blacks from full access to opportunity. In her review of gender and family models, Chiara Saraceno finds that Mediterranean countries have mobilized the power of the state to maintain a division of labor between men and women. The final section examines what effect globalization might have on the middle class. Leonard Schoppa's careful analysis of the relevant data shows how globalization has pushed less skilled workers down and more skilled workers up out of a middle class that had, for a few decades, been home to both. Although Europe has resisted the rise of inequality more effectively than the United States or Japan, several contributors wonder how long that resistance can last. *Social Contracts Under Stress* argues convincingly that keeping the middle class open and inclusive in the face of current economic pressures will require a collective will extending across countries. This book provides an invaluable guide for assessing the issues that must be considered in such an effort.

**The Life and Death of the Solid South** Dewey W.

Grantham, 2021-10-21 Southern style politics was one of those peculiar institutions that differentiated the South from other American regions. This system, long referred to as the Solid South, embodied a distinctive regional culture and was perpetuated through an undemocratic distribution of power and a structure based on disfranchisement, malapportioned legislatures, and one-party politics. It was the mechanism that determined who would govern in the states and localities, and in national politics, it was the means through which the South's politicians defended their region's special interests and political autonomy. The history of this remarkable institution can be traced in the gradual rise, long persistence, and ultimate decline of the Democratic Party dominance in the land below the Potomac and the Ohio. This is the story that Dewey W. Grantham tells in his fresh and authoritative account of the South's modern political experience. The distillation of many years of research and reflection is both a synthesis of the extensive literature on politics in the recent South and a challenging reinterpretation of the region's political history.

**Liberalism and Its Discontents** Alan Brinkley, 2000-04-14 Considering the role of

alternate political traditions in liberalism s downfall Liberalism and its Discontents shows how historical interpretation has been a reflection of liberal assumptions      **Voices of Protest** Alan Brinkley,1983-08-12 The study of two great demagogues in American history Huey P Long a first term United States Senator from the red clay piney woods country of nothern Louisiana and Charles E Coughlin a Catholic priest from an industrial suburb near Detroit Award winning historian Alan Brinkely describes their modest origins and their parallel rise together in the early years of the Great Depression to become the two most successful leaders of national political dissidence of their era Winner of the American Book Award for History

*Guide to U.S. Elections* Deborah Kalb,2015-12-24 The CQ Press Guide to U S Elections is a comprehensive two volume reference providing information on the U S electoral process in depth analysis on specific political eras and issues and everything in between Thoroughly revised and infused with new data analysis and discussion of issues relating to elections through 2014 the Guide will include chapters on Analysis of the campaigns for presidency from the primaries through the general election Data on the candidates winners losers and election returns Details on congressional and gubernatorial contests supplemented with vast historical data Key Features include Tables boxes and figures interspersed throughout each chapter Data on campaigns election methods and results Complete lists of House and Senate leaders Links to election related websites A guide to party abbreviations      **The Best Candidate** Eugene D. Mazo,Michael R. Dimino,2020-09-17 Leading scholars examine the law governing the American presidential nomination process and offer practical ideas for reform

*The Democrats in Turmoil* Bradley C. Nahrstadt,2025-06-26 Recounting the Democratic National Conventions in 1896 1904 1912 1920 and 1924 this book details the bitter inner party struggles that almost always led to Democratic losses in the fall The Democrats couldn t win an election around the turn of the 20th century not because they couldn t find good candidates but because of the infighting and bitter nomination battles that took place prior to and during their national conventions With the exception of 1912 when Woodrow Wilson won the presidency because of the rift between Theodore Roosevelt and William Howard Taft and 1916 when Wilson barely won reelection the Democrats lost six of the eight presidential elections that took place between 1896 and 1924 In 1896 1904 1920 and 1924 that loss was directly attributable to the bruising convention fights that preceded the November general election This book tells the story of each of these contentious conventions the issues facing the country heading into the conventions and the general election the background and personalities of the men who fought for the nomination and the tumultuous rivalries among Democratic factions in the face of the Republicans relative unity      **Why is There No Socialism In the United States** Werner Sombart,2019-08-22

Why is the United States the only advanced capitalist country with no labor party This question is one of the great enduring puzzles of American political development and it lies at the heart of a fundamental debate about the nature of American society Tackling this debate head on Robin Archer puts forward a new explanation for why there is no American labor party an explanation that suggests that much of the conventional wisdom about American exceptionalism is untenable

Conventional explanations rely on comparison with Europe Archer challenges these explanations by comparing the United States with its most similar New World counterpart Australia This comparison is particularly revealing not only because the United States and Australia share many fundamental historical political and social characteristics but also because Australian unions established a labor party in the late nineteenth century just when American unions against a common backdrop of industrial defeat and depression came closest to doing something similar Archer examines each of the factors that could help explain the American outcome and his systematic comparison yields unexpected conclusions He argues that prosperity democracy liberalism and racial hostility often promoted the very changes they are said to have obstructed And he shows that it was not these characteristics that left the United States without a labor party but rather the powerful impact of repression religion and political sectarianism Revival: Why is there no Socialism in the United States? (1976) W

Sombart,2017-07-28 Why is the United States the only advanced capitalist country with no labor party This question is one of the great enduring puzzles of American political development and it lies at the heart of a fundamental debate about the nature of American society Tackling this debate head on Robin Archer puts forward a new explanation for why there is no American labor party an explanation that suggests that much of the conventional wisdom about American exceptionalism is untenable Conventional explanations rely on comparison with Europe Archer challenges these explanations by comparing the United States with its most similar New World counterpart Australia This comparison is particularly revealing not only because the United States and Australia share many fundamental historical political and social characteristics but also because Australian unions established a labor party in the late nineteenth century just when American unions against a common backdrop of industrial defeat and depression came closest to doing something similar Archer examines each of the factors that could help explain the American outcome and his systematic comparison yields unexpected conclusions He argues that prosperity democracy liberalism and racial hostility often promoted the very changes they are said to have obstructed And he shows that it was not these characteristics that left the United States without a labor party but rather the powerful impact of repression religion and political sectarianism **Encyclopedia of the Jazz Age: From the End of**

**World War I to the Great Crash** James Ciment,2015-04-08 This illustrated encyclopedia offers in depth coverage of one of the most fascinating and widely studied periods in American history Extending from the end of World War I in 1918 to the great Wall Street crash in 1929 the Jazz age was a time of frenetic energy and unprecedented historical developments ranging from the League of Nations woman suffrage Prohibition the Red Scare the Ku Klux Klan the Lindberg flight and the Scopes trial to the rise of organized crime motion pictures and celebrity culture Encyclopedia of the Jazz Age provides information on the politics economics society and culture of the era in rich detail The entries cover themes personalities institutions ideas events trends and more and special features such as sidebars and photos help bring the era vividly to life

**A Century of Votes for Women** Christina Wolbrecht,J. Kevin Corder,2020-01-30 Examines how and why American

women voted since the Nineteenth Amendment was ratified in 1920      The Diplomatic Education of Franklin D. Roosevelt, 1882-1933 G. Cross, 2012-06-06 The importance of Franklin D Roosevelt s thinking on international relations is self evident The truly enormous volume of historical writing on his views regarding U S foreign policy as president is testament to the momentous period during which he held office Yet no consensus has emerged on what these views were was he an internationalist or nationalist passive or active towards world affairs predominantly an idealist or realist in his philosophy and even whether he was an egregious political opportunist This work offers an original intervention into this controversial debate by carefully examining the neglected development of FDR s views in the years before he became president Using long neglected or misread sources from FDR s early life and career the work provides a timely clarification of a period that has until now been ignored misunderstood or covered only in passing by historians      **Asymmetric Politics** Matt Grossmann, David A. Hopkins, 2016-08-10 The Republican Party is the vehicle of an ideological movement whereas the Democratic Party is a coalition of social groups with concrete policy concerns Democrats prefer a more moderate party leadership that makes compromises whereas Republicans favor a more conservative party leadership that sticks to principles Each party finds popular support for its approach because the American public simultaneously favors liberal positions on specific policy issues and conservative views on the broader role of government      *Jumpin' Jim Crow* Jane Dailey, Glenda Elizabeth Gilmore, Bryant Simon, 2000-10-29 A collection of essays discussing politics in the south from the Civil War to the 1960s civil rights movement Focuses on specific people places and laws of the era

## Unveiling the Power of Verbal Beauty: An Psychological Sojourn through **The Politics Of Provincialism The Democratic Party In Transition 1918 1932**

In some sort of inundated with screens and the cacophony of fast transmission, the profound energy and emotional resonance of verbal art usually diminish into obscurity, eclipsed by the regular assault of noise and distractions. However, situated within the lyrical pages of **The Politics Of Provincialism The Democratic Party In Transition 1918 1932**, a captivating work of literary beauty that impulses with organic feelings, lies an unique trip waiting to be embarked upon. Written by a virtuoso wordsmith, this mesmerizing opus manuals visitors on an emotional odyssey, gently revealing the latent potential and profound impact stuck within the complex web of language. Within the heart-wrenching expanse with this evocative evaluation, we can embark upon an introspective exploration of the book is key styles, dissect its charming writing style, and immerse ourselves in the indelible effect it leaves upon the depths of readers souls.
