The Politics of Social Protest J. Craig Jenkins, *Civil Organizations and Protest Movements in Israel* E.

Marteu, 2009-05-25 This volume brings together cutting edge research on Israeli citizens and organizations mobilized around the Israeli Palestinian conflict These pioneering perspectives provide a wealth of information on state society relations in Israel the boundaries of civil mobilization and on the prospects for Israeli democracy **Through the Lens of Israel** Joel S.

Migdal, 2012-02-01 Through the Lens of Israel illuminates Israeli history through the use of the author's unique state in society approach and at the same time refines develops and expands that approach The book provides a window for the formation of Israeli state and society during the twentieth century while using the Israeli experience to ask how social scientists can better investigate and understand other societies as well Three central themes of Israeli history are at the core of the analysis state formation society formation and the mutually constitutive roles of state and society By analyzing how Israel's state and society continually reconstruct one another Migdal addresses larger questions with resonance far beyond Israel How do particular societies and states end up with their distinctive character How are the rules that shape everyday behavior determined Who gains from these rules and who loses And how and when do these rules and patterns of privilege change

The Politics of Regime Structure Reform in Democracies Gideon Rahat, 2009-01-08 Analyzes initiatives aimed at reforming the electoral and government systems of Israel in comparison to other established democracies

Gender and the Israeli-Palestinian Conflict Simona Sharoni, 1995-03-01 Simona Sharoni's innovative approach to the conflict in the Middle East stresses the relationship between gender and politics by illuminating the daily experiences of women in Israel and in the occupied West Bank and Gaza Strip Among the issues explored are the connections between the violence of the conflict and the escalation of violence against women the link between militarism and sexism and the role of nationalism in building individual and collective identities Sharoni also shows the impact of Intifada the Palestinian uprising in December 1987 on the Palestinian and Israeli women's movements While women's coalitions such as these are critical subjects in and of themselves the actions of marginalized women are rarely if ever given serious treatment in the study of international relations With this book Sharoni creates an aperture for the emergence of new perspectives and alternative methods in the development of a new vision in global politics and gender equality The interdisciplinary scope of the book will make it valuable to scholars of political science women's studies conflict resolution and Middle East studies Human

Rights in Global Perspective Jon P. Mitchell, Richard A. Wilson, 2003-09-02 In the West we frequently pay lip service to universal notions of human rights But do we ever consider how these work in local contexts and across diverse cultural and ethical structures Do human rights agendas address the problems many people face or are they more often the imposition of Western values onto largely non Western communities Human Rights in a Global Perspective develops a social critique of

rights agendas It provides an understanding of how rights discussions and institutions can construct certain types of subjects such as victims and perpetrators and certain types of act such as common crimes and crimes against humanity Using examples from the United States Europe India and South Africa the authors restore the social dimension to rights processes and suggest some ethical alternatives to current practice A History of Israel Howard M. Sachar, 2013-07-31 First published in 1976 Howard M Sachar s A History of Israel From the Rise of Zionism to Our Time was regarded one of the most valuable works available detailing the history of this still relatively young country Decades later readers can again be immersed in this monumental work The second edition of this volume covers topics such as the first of the Aliyahs in the 1880s the rise of Jewish nationalism the beginning of the political Zionist movement and later how the movement changed after Theodor Herzl the Balfour Declaration the factors that led to the Arab Jewish confrontation Palestine and its role both during the Second World War and after the war of independence and the many wars that followed it over the next few decades and the development of the Israeli republic and the many challenges it faced both domestic and foreign and still faces today This is a truly enriching and exhaustive history of a nation that holds claim to one of the most complicated and controversial histories in the world **Political Leadership, Nascent Statehood and Democracy** Ulrika Möller, Isabell Schierenbeck, 2014-06-05 Do political leaders determine whether a polity will receive a democratic future or not Research and advocates of democracy agree on the significance of political elites for democratization yet there is a need for a more specific understanding of their role This book develops a theory of political leadership at the point of nascent statehood to explain the emergence of resilient democracies It employs four diverse case studies to examine the role of leadership and democratic consolidation In doing so the book identifies certain capacities of political leaders at the critical moment of nascent statehood as decisive to the future democratic quality of their state This book will be of interest to students and scholars of international relations democratization studies state building leadership nationalism Middle Eastern studies and South Asian studies **Trial and Error** Yagil Levy, 2012-02-01 Trial and Error offers a unique exploration of the link between Israel s military policies and its ethno class relations of power that has theoretical implications elsewhere The book denounces the commonly accepted view that Israel s military policies were crafted merely as a direct and inevitable response to neighboring Arab states hostility Instead Yagil Levy shows that Israel s security interests were also determined by the social interests of a rising middle class comprised of Jews of European descent Because of the protracted state of war this class achieved dominant status over other groups As a result a strong link was created between increasing inegalitarianism in Israeli society and missed opportunities to adopt more moderate foreign policies at crucial crossroads up to the 1980s Paradoxically however as war benefits elevated the consumerist lifestyle of the middle class the burden of war became less appealing to it Levy argues that this and other social constraints along with limitations imposed by the international system played a focal role in channeling Israel s policies toward the 1990s peace process **Land of Paradoxes** Yael

Yishai,2012-02-01 This book examines the structure of Israeli interest groups their strategies their effectiveness and their relations with state organizations and political parties It addresses such important questions as the following What are the links between political parties and interest groups What are the attitudes of senior state officials toward interest groups Why do interest groups influence public policy and to what extent Are some groups more influential than others Is Israel moving toward a post materialist era Land of Paradoxes reflects the realities of contemporary Israeli politics Using a framework of universal interest group configurations the book shows how Israel deviates from these patterns and places it in a historical and comparative perspective The Power of Planning Oren Yiftachel,Jo Little,David Hedgcock,Ian Alexander,2012-12-06

The book addresses critically the question What is the societal impact of urban and regional planning It begins with a theoretical discussion and then analyses through a series of case studies the intentions contents struggles and consequences of urban and regional planning It shows that plans and policies often defy the commonly perceived role of advancing equality justice development and amenity by causing social problems marginalisation and inequalities The book looks at planning from a critical distance without a priori belief in its necessity or usefulness The 12 chapters written by renowned international scholars demonstrate the multiplicity of social and political struggles over the contested terrain of spatial policies The book focuses on four key areas where the impact of planning is explored the community power gender relations ethnic tensions and social polarisation while comparing three societies Australia Israel and England Audience This volume is mainly intended for faculty and students of academia but also for urban professionals and policy makers The book is relevant to fields such as urban and regional planning geography political science urban studies urban sociology urban anthropology ethnic and gender relations **The Middle East In Global Perspective** Judith Kipper,Harold Saunders,2019-06-19 Well

where conventional political institutions such as parties or interest groups are underdeveloped organized collective protest becomes a legitimate and moderately effective strategy for conducting state society dialogue The authors offer an original and rich description of protest movements in Poland after the fall of communism as a basis for developing and testing their ideas They highlight the organized and moderate character of the protests and argue that the protests were not intended to reverse the change of 1989 but to protest specific policies of the government This book contributes to the literature on democratic consolidation on the institutionalization of state society relationship and on protest and social movements It will be of interest to political scientists sociologists historians and policy advisors Grzegorz Ekiert is Professor of Government Harvard University Jan Kubik is Associate Professor of Political Science Rutgers University [The ^AOxford Handbook of Israeli Politics and Society](#) Reuven Y.
