Lyons,David Lowery,Ruth Hoogland DeHoog,2019-07-23 The Politics of Dissatisfaction Citizens Services and Urban Institutions is destined to be a classic in public administration and public policy it makes major theoretical and empirical contributions to the literature in both fields It is a rigorous empirical attempt to assess the public choice view of citizenship and local government The research upon which this book is based was founded on conversations between two of its authors W E Lyons and David Lowery during the early 1980s **The Politics of Safety** Shannon King,2024-01-16 For much of the twentieth and twenty first centuries public officials in cities like New York Chicago and Baltimore have criminalized uprisings as portending Black thugs throwing rocks at police and plundering private property to undermine complaints of police violence Liberal mayors like Fiorello H La Guardia have often been the deftest practitioners of this strategy As the Depression and wartime conditions spurred youth crime white New Yorkers anxieties about crime the movement of Black people into white neighborhoods and headlines featuring Black hoodlums emblazoned all over the white media drove their support for the expansion of police patrols in the city especially in Harlem and Bedford Stuyvesant Though Blacks also called for police protection and for La Guardia to provide equitable municipal resources they primarily received more punishment This set the stage for the Harlem uprising of 1943 Shannon King uncovers how Black activism for safety was a struggle against police brutality and crime highlighting how the police withholding protection operated as a form of police violence and an abridgement of their civil rights By decentering familiar narratives of riots King places Black activism against harm at the center of the Black freedom struggle revealing how Black neighborhoods became occupied territories in La Guardia s New York *The Flour War* Cynthia Bouton,2010-11 In the spring of 1775 a series of food riots shook the villages and countryside around Paris For decades France had been free of famine but the fall grain harvest had been meager and the government of the newly crowned King Louis XVI had issued an untimely edict allowing the free commerce of grain within the kingdom Prices skyrocketed causing riots to break out in April first in the market town of Beaumont sur Oise then sweeping through the Paris Basin for the next three weeks Known as the

Flour War or the *guerre des farines* these riots are the subject of Cynthia Bouton's fascinating study *Building upon French* historian George Rud's pioneering work Bouton identifies communities of participants and victims in the Flour War analyzing them according to class occupation gender and location As typically happened crowds of common people *menu peuple* confronted those who controlled the grain bakers merchants millers cultivators and local authorities Bouton asks why women of the *menu peuple* were heavily represented in the riots often assuming crucial roles as instigators and leaders In most instances the people did not steal the provisions but forced those they cornered to sell at a price the rioters deemed just Bouton examines this phenomenon known as *taxation populaire* and considers the growing sophistication of purpose of rioters by placing the Flour War within the larger context of food riots in early modern Europe

The Deadly Ethnic Riot Donald L. Horowitz, 2023-11-15 Donald L. Horowitz's comprehensive consideration of the structure and dynamics of ethnic violence is the first full scale comparative study of what the author terms the deadly ethnic riot an intense sudden lethal attack by civilian members of one ethnic group on civilian members of another ethnic group Serious frequent and destabilizing these events result in large numbers of casualties Horowitz examines approximately 150 such riots in about fifty countries mainly in Asia Africa and the former Soviet Union as well as fifty control cases With its deep and thorough scholarship incisive analysis and profound insights *The Deadly Ethnic Riot* will become the definitive work on its subject Furious and sadistic the riot is nevertheless directed against a precisely specified class of targets and conducted with considerable circumspection Horowitz scrutinizes target choices participants and organization the timing and supporting conditions for the violence the nature of the events that precede the riot the prevalence of atrocities during the violence the location and diffusion of riots and the aims and effects of riot behavior He finds that the deadly ethnic riot is a highly patterned but emotional event that tends to occur during times of political uncertainty He also discusses the crucial role of rumor in triggering riots the surprisingly limited role of deliberate organization and the striking lack of remorse exhibited by participants Horowitz writes clearly and eloquently without compromising the complexity of his subject With impressive analytical skill he takes up the important challenge of explaining phenomena that are at once passionate and calculative Donald L. Horowitz's comprehensive consideration of the structure and dynamics of ethnic violence is the first full scale comparative study of what
