Liberation Theologies Ronald G. Musto, 2020-11-25 First Published in 1991 The following is a comprehensive scholarly bibliography of published materials on the varieties of liberation theology mostly in book form available in English It is intended as an introductory survey to this vast and quickly expanding field for the teacher and student of contemporary theology of biblical hermeneutics and to the interrelationship of politics and religion around the world It will also serve as a comprehensive bibliography *Christian Justice and Public Policy* Duncan B. Forrester, 1997-08-28 Disagreements about justice are not simply academic matters They create problems for practice and for policy making In a morally fragmented society in which nobody knows what justice is issues such as wages policy punishment and poverty become particularly difficult to handle People striving to act justly are often uncertain how this might be done Secular theories such as those of Rawls Hayek Habermas and modern feminist theorists examined here give some guidance for problems of justice that arise on the ground but have serious limitations This book argues that Christian theology although it can no longer claim to provide a comprehensive theory of justice can provide insights into justice theological fragments which give illumination challenge some aspects of the conventional wisdom and contribute to the building of just communities in which people may flourish in mutuality and hope *Gustavo Gutierrez* Robert McAfee Brown, 2013-03-01 Here is a definitive introduction to liberation theology through the life and work of its most significant proponent Gustavo Gutierrez Robert McAfee Brown draws extensively on Gutierrez's own writings some never published in English and on personal conversations with him Brown clearly and compellingly presents the basics of liberation theology and the differences between North American and Latin American theologies The form of Gustavo Gutierrez is that of a drama Brown's initial program notes introduce and

situate the author the actors the critics He sets the stage with a history of church and state in Latin America and introduces its definitive figures themes and milestones A collective biography of Gutierrez s spiritual predecessors is followed by a biography of Gutierrez himself which takes critical account of his works Then we are ready dramatically and theologically to move to the first act that of commitment to the poor The second act in two scenes explores first liberation theology s method of critical reflection on praxis and also its content nothing less than the Word of God Brown delves next into the controversies and criticisms Gutierrez faces especially the challenges from authorities in Rome Finally in act three readers discover that in this particular drama they too are on stage and must take part by reflecting on what this drama really means for them On

Schall, 2020-10-27 The Politics of Heaven and Hell makes an invaluable contribution to the understanding of classical medieval and modern political philosophy while explaining the profound problem with modernity Christianity freed men from the overwhelming burden of ever thinking that their salvation will ultimately come from the political order writes Fr James Schall S J Modernity on the other hand is a perversion of Christianity which tries to achieve man's salvation in this world It does this by politicizing everything which results in the absolute state The distance from the City of God to the Leviathan is not at all far once the City of God is relocated on earth The best defense against this tyranny is the adequate description of the highest things of what is beyond politics Both reason and revelation are needed for this work and they are eloquently and ably set forth in this book The Two Churches Michael L. Arias,2023-03-20 The late antique and the early medieval periods witnessed the flourishing of bishops in the West as the

main articulators of social life This influential position exposed them to several threats both political and religious Researchers have generally addressed violence rebellions or conflicts to study the dynamics related to secular powers during these periods They haven't paid similar attention however to those analogous contexts that had bishops as protagonists This book proposes an approach to bishops as threatened subjects in the late antique and early medieval West In particular the volume pursues three main goals Firstly it aims to identify the different types of threats that bishops had to deal with Then it sets out to frame these situations of adversity in their own contexts Finally it will address the episcopal strategies deployed to deal with such contexts of adversity In sum we aim to underline the impact that these contexts had as a dynamiting factor of episcopal action Thus the episcopal threats may become a useful approach to study the bishops relationships with other agents of power the motivations behind their actions and last but not least for understanding the episcopal rising power
