Beeby, 2012-01-26 The Populist Movement was the largest mass movement for political and economic change in the history of the American South until the Civil Rights Movement of the 1950s and 1960s The Populist Movement in this book is defined as the Farmers Alliance and the People's Party as well as the Agricultural Wheel and Knights of Labor in the 1880s and 1890s The Populists threatened the political hegemony of the white racist southern Democratic Party during populism's high point in the mid 1890s and the populists threw the New South into a state of turmoil Populism in the South Revisited New Interpretations and New Departures brings together nine of the best new works on the populist movement in the South that grapple with several larger themes such as the nature of political insurgency the relationship between African Americans and whites electoral reform new economic policies and producerism and the relationship between rural and urban areas in case studies that center on several states and at the local level Each essay offers both new research and new interpretations into the causes course and consequences of the populist insurgency One essay analyzes how notions of debt informed the Populist insurgency in North Carolina the one state where the Populists achieved statewide power while another analyzes the Populists failed attempts in Grant Parish Louisiana to align with African Americans and Republicans to topple the incumbent Democrats Other topics covered include populist grassroots organizing with African Americans to stop disfranchisement in North Carolina the Knights of Labor and the relationship with populism in Georgia organizing urban populism in Dallas Texas Tom Watson's relationship with Midwest Populism the centrality of African Americans in populism a comparative analysis of Populism across the Deep South and how the rhetoric and ideology of populism impacted socialism and the Garvey movement in the early twentieth century Together these studies offer new insights into the nature of southern populism and the legacy of the People's Party in the South **Billionaire at the**

*The Louisiana Populist Movement, 1881-1900* Donna A. Barnes, 2011-05-18 The Populist movement of the late nineteenth century represents one of the largest third party challenges in American history Throughout the South widespread drops in crop prices led to agrarian revolt which contributed to the movement's popularity Yet in the largely rural state of Louisiana despite the political group's focus on empowering distressed farmers this challenge proved far less successful In Donna A Barnes's *The Louisiana Populist Movement* the question of ineffectuality makes an intriguing political case study of the Pelican State and Populism Emerging in the 1890s as the political wing of the Southern Farmers Alliance the Populists or People's Party garnered the support of millions of rural southerners But the affiliated Louisiana party struggled to spread beyond a limited number of parishes in the northern and central part of the state According to Barnes the movement's relatively poor mobilization record provides an excellent opportunity to explore factors that impede social growth Most scholars she contends often focus on the emergence and rise of successful political organizations and overlook the valuable observations to be found within less successful movements such as Louisiana Populism In her evaluation Barnes points to racial division as the factor that undermined the Populist cause in Louisiana The Democratic Party saw the agenda of the Populist movement as a threat to white supremacy and thus when paired with the 1898 state constitution that disfranchised poor rural whites and most blacks predestined the People's Party to poor public reception Based on an array of archival research Barnes's study offers the definitive source for the history of the Louisiana Populist Movement as well as a multidimensional theoretical analysis of the factors behind the movement's failure
