MacDonald,2014-11-05 These two volumes of The New Testament and Greek Literature are the magnum opus of biblical scholar Dennis R MacDonald outlining the profound connections between the New Testament and classical Greek poetry MacDonald argues that the Gospel writers borrowed from established literary sources to create stories about Jesus that readers of the day would find convincing In The Gospels and Homer MacDonald leads readers through Homer s Iliad and Odyssey highlighting models that the authors of the Gospel of Mark and Luke Acts may have imitated for their portrayals of Jesus and his earliest followers such as Paul The book applies mimesis criticism to show the popularity of the targets being imitated the distinctiveness in the Gospels and evidence that ancient readers recognized these similarities Using side by side comparisons the book provides English translations of Byzantine poetry that shows how Christian writers used lines from Homer to retell the life of Jesus The potential imitations include adventures and shipwrecks savages living in cages meals for thousands transfigurations visits from the dead blind seers and more MacDonald makes a compelling case that the Gospel writers successfully imitated the epics to provide their readers with heroes and an authoritative foundation for Christianity

Does the New Testament Imitate Homer? Dennis R. MacDonald, 2008-10-01

In this provocative challenge to prevailing views of New Testament sources Dennis R MacDonald argues that the origins of passages in the book of Acts are to be found not in early Christian legends but in the epics of Homer MacDonald focuses on four passages in the book of Acts examines their potential parallels in the Iliad and concludes that the author of Acts composed them using famous scenes in Homer's work as a model Tracing the influence of passages from the Iliad on subsequent ancient literature MacDonald shows how the story generated a vibrant mimetic literary tradition long before Luke composed the Acts Luke could have expected educated readers to recognize his transformation of these tales and to see that the Christian God and heroes were superior to Homeric gods and heroes Building upon and extending the analytic methods of his earlier book *The Homeric Epics and the Gospel of Mark* MacDonald opens an original and promising appreciation not only of Acts but also of the composition of early Christian narrative in general

The Flower of Suffering Nuria Scapin, 2020-04-06

Greek tragedy occupies a prominent place in the development of early Greek thought However even within the partial renaissance of debates about tragedy's roots in the popular thought of archaic Greece its potential connection to the early philosophical tradition remains with few exceptions at the periphery of current interest This book aims to show that our understanding of Aeschylus' Oresteia is enhanced by seeing that the trilogy's treatment of Zeus and Justice Dik shares certain concepts assumptions categories of thought and forms of expression with the surviving fragments and doxography of certain Presocratic thinkers especially Anaximander Xenophanes Heraclitus and Parmenides By examining several aspects of the tragic trilogy in relation to Presocratic debates about theology and cosmic justice it shows how such scrutiny may affect our understanding of the theological tension and metaphysical assumptions underpinning the Oresteia's dramatic narrative Ultimately it argues that Aeschylus bestows on the experience of human suffering as it is given in the contradictory multiplicity of the world the status of a profound form of knowledge a meeting point between the human and divine spheres

Virgil, Aeneid 5 Lee M. Fratantuono, R. Alden Smith, 2015-07-28

Virgil's Aeneid 5 has long been among the more neglected sections of the poet's epic of Augustan Rome Book 5 opens the second movement of the poem the middle section of the Aeneid that sees the Trojans poised between the old world of Phrygia and the new destiny in Italy The present volume fills a significant gap in Virgilian

studies by offering the first full scale commentary in any language on this key book in the explication of the poet's grand consideration of the meaning of Trojan versus Roman identity. A new critical text based on first hand examination of the manuscripts is accompanied by a prose translation and detailed commentary. The notes provide in depth analysis of literary historical and lexical matters. The introduction situates Book 5 both in the context of the epic and the larger tradition of heroic poetry.

Prophecy and Politics in the Early Carolingian World Andrew Sorber, 2024-04-16

Prophetic and apocalyptic rhetoric play critical roles in the development and articulation of political authority in the reigns of Charlemagne d. 814 and Louis the Pious d. 840. The rhetorical authority derived from claims of receiving revelation interpreting divine communication speaking for God and foreseeing calamities became a competitive medium through which individuals legitimized political behaviour debated their long and short term aspirations and struggled for political supremacy. Ranging from claims of revelations dreams and visions to the adoption of rhetorical voices based on biblical prophets to the interpretation of signs and portents prophetic rhetoric enjoyed extensive experimentation and varied application throughout early medieval political discourse. *Prophecy and Politics in the Early Carolingian World* argues that claims of divine revelation resistant to any attempts to monopolize them provided a powerful means of speaking with authority for all participants in Frankish political discourse. This authority proved instrumental in the articulation and dismantling of effective Carolingian royal authority from 768 to 840. The volume introduces and reinterprets early Carolingian political discourse and intellectual activity as well as the centrality of apocalypticism in the Carolingian period by emphasizing prophecy or revelation and authority rather than prediction and calamity. Early Carolingian political discourse was a dialogue that took place across royal proclamations legal statements historical texts visions scriptural commentaries and manifestations of the natural world and in this dialogue the ability to interpret God's will was as powerful as it was problematic.
