Flesh and Fish Blood S. Shankar, 2012-07-02 In Flesh and Fish Blood Subramanian Shankar breaks new ground in postcolonial studies by exploring the rich potential of vernacular literary expressions Shankar pushes beyond the postcolonial Anglophone canon and works with Indian literature and film in English Tamil and Hindi to present one of the first extended explorations of representations of caste including a critical consideration of Tamil Dalit so called untouchable literature Shankar shows how these vernacular materials are often unexpectedly politically progressive and feminist and provides insight on these oft overlooked but nonetheless sophisticated South Asian cultural spaces With its calls for renewed attention to translation issues and comparative methods in uncovering disregarded aspects of postcolonial societies and provocative remarks on humanism and cosmopolitanism Flesh and Fish Blood opens up new horizons of theoretical possibility for postcolonial studies and cultural analysis

Expanding Suburbia Roger Webster, 2001-01-01 During the last few decades suburbia has grown enormously and become a phenomenon attracting the attention of scholars as well as practitioners by whom it is seen as an increasingly significant and complex area of modern life The essays in this volume

consider a range of representations of suburban life from the late nineteenth century to the present day including fiction film and popular music drawn from America and Australia as well as Britain They explore and challenge traditional views of suburbia so that rather than a location of conformity and stereotypicality it can be viewed as a site of social conflict division and ambiguity as well as a source of significant creativity across a range of cultural texts The volume takes a thematic approach considering the rise of suburbia imagined and real suburbias alternative suburbias all of the essays have a strong historical dimension and the overall approach is characterized by interdisciplinarity **British Anthologies** Edward Arber,1899 *American Jewish Year Book* 1998 David Singer,1998 The Library owns the volumes of the American Jewish Yearbook from 1899 current **Little Press Books in Print** ,1997 **Encyclopedia of Lesbian Histories and Cultures** Bonnie Zimmerman,2013-08-21 A rich heritage that needs to be documented Beginning in 1869 when the study of homosexuality can be said to have begun with the establishment of sexology this encyclopedia offers accounts of the most important international developments in an area that now occupies a critical place in many fields of academic endeavours It covers a long history and a dynamic and ever changing present while opening up the academic profession to new scholarship and new ways of thinking A groundbreaking new approach While gays and lesbians have shared many aspects of life their histories and cultures developed in profoundly different ways To reflect this crucial fact the encyclopedia has been prepared in two separate volumes assuring that both histories receive full unbiased attention and that a broad range of human experience is covered Written for and by a wide range of people Intended as a reference for students and scholars in all fields as well as for the general public the encyclopedia is written in user friendly language At the same time it maintains a high level of scholarship that incorporates both passion and objectivity It is written by some of the most famous names in the field as well as new scholars whose research continues to advance gender studies into the future Poetry Review Stephen Phillips,Galloway Kyle,1925 **British Anthologies** ,1901 *Transpacific Articulations* Chih-ming Wang,2013-06-30 In 1854 Yung Wing who graduated with a bachelor s degree from Yale University returned to a poverty stricken China where domestic revolt and foreign invasion were shaking the Chinese empire Inspired by the U S and its liberal education Yung believed that having more Chinese students educated there was the only way to bring reform to China Since then generations of students from China and other Asian countries have embarked on this transpacific voyage in search of modernity What forces have shaped Asian student migration to the U S What impact do foreign students have on the formation of Asian America How do we grasp the meaning of this transpacific subject in and out of Asian American history and culture *Transpacific Articulations* explores these questions in the crossings of Asian culture and American history Beginning with the story of Yung Wing the book is organized chronologically to show the transpacific character of Asian student migration The author examines Chinese students writings in English and Chinese maintaining that so called overseas student literature represents both an imaginary passage to modernity and a transnational culture where meanings of Asian

America are rearticulated through Chinese He also demonstrates that Chinese student political activities in the U S in the late 1960s and 1970s namely the Baodiao movement that protested Japan s takeover of the Diaoyutai Islands and the Taiwan independence movement have important but less examined intersections with Asian America In addition the work offers a reflection on the development of Asian American studies in Asia to suggest the continuing significance of knowledge and movement in the formation of Asian America Transpacific Articulations provides a doubly engaged perspective formed in the nexus of Asian and American histories by taking the foreign student figure seriously It will not only speak to scholars of Asian American studies Asian studies and transnational cultural studies but also to general readers who are interested in issues of modernity diaspora identity and cultural politics in China and Taiwan
