The Path to Perspective Neil David Martin, 2009. The Path to Perspective is nothing short of a manifesto for business in the new millennium, a classic account of why challenging assumptions is the starting point for successful companies in the 21st Century. In his first book, Neil David Martin offers fresh and innovative thinking on the struggle to maximise performance in today's challenging business environment. Experience is what you get when you don't get what you want. Fix the roof while the sun shines. Short statements make us think. Reality is often very different from how we might first perceive it. Neil's new book explains exactly why perspective is so important to business. Sharpen your thinking tools with *The Path to Perspective*. Richard Grace, Serial Entrepreneur and former Senior Manager at Xerox. Together with a compelling vision of what our organisations could be, *The Path to Perspective* outlines a convincing case for people-first, values-driven, free-thinking business, which begins with rethinking your company's practices and priorities. It is packed with over 40 powerful concepts and a step-by-step plan to help you translate the ideas in this book into meaningful practices for your business. The author also offers us several important and eye-opening insights, including: Why most companies still struggle to differentiate to attract and retain employees and customers to maximise productivity and to innovate successfully. Why focusing on profit as the ultimate goal of your business is actually NOT the best way of maximising profits. Why a focus on behaviours is NOT enough to bring about a shift in attitudes within your business. **The Masterful Coaching Fieldbook** Robert Hargrove, 2007-03-12. Robert Hargrove shares his secrets as a masterful coach with leaders of all levels. Coaching is about realizing an impossible dream and winning at the great game of business, not just about changing attitudes and behaviors. This book describes: How to find the best talent on earth. How to create an impossible future and WIN in your business. How to create a winning game plan. How business can be the ultimate self-development and growth experience.
