## **The Power Of Land:**

The Power in the Land Fred Harrison, 2021-02 Fred Harrison's thesis is that land speculation is the major cause of depressions. He shows how the land market functions as a junction box which regulates the power flowing between Labour and Capital. And how land speculation periodically throws the switches on the productive power of men and machines causing economic stagnation. This theory was acknowledged by philosophers such as Adam Smith and Karl Marx and social reformers ranging from Winston Churchill to Leo Tolstoy but it has been forgotten by today's economists and policy makers. The hypothesis is tested against the historical facts and the recent booms and slumps and is found to offer a powerful explanation for postwar trends in unemployment and the distribution of income. A Practical Treatise on the Power to Sell Land for the Non-payment of Taxes Robert S. Blackwell, 1869 *Practical Treatise on the Power to Sell Land for the Non-Payment of Taxes* Robert S. Blackwell, 2023-11-18 Reprint of the original first published in 1875 *A Practical Treatise on the Power to Sell Land for the Non-payment of Taxes, Embracing the Decisions of the Federal Courts, and of the Supreme Judicial Tribunals of the Several States and Territories* Marshall Davis Ewell, Robert S. Blackwell, 2024-03-08 Reprint of the original first published in 1875 *A Practical Treatise on the Power to Sell Land for the Non-payment of Taxes Assessed Thereon, Embracing the Decisions of the Federal Courts, and of the Supreme Judicial Tribunals of the Several States* Robert S. Blackwell, 1855 *The Power of the Buddhas* sem Versmeersch, 2020-03-17 Buddhism in medieval Korea is characterized as State Protection Buddhism, a religion whose primary purpose was to rally support supernatural and popular for and legitimate the state. In this view, the state used Buddhism to engender compliance with its goals. A closer look, however, reveals that Buddhism was a canvas on which people projected many religious and secular concerns and desires. This study is an attempt to specify Buddhism's place in Koryo and to ascertain to what extent and in what areas Buddhism functioned as a state religion. Was state support the main reason for Buddhism's dominance in Koryo? How actively did the state seek to promote religious ideals? What was the strength of Buddhism as an institution and the nature of its relationship to the state? What role did Confucianism, the other state ideology, play in Koryo? This study argues that Buddhism provided most of the symbols and rituals and some of the beliefs that constructed an aura of legitimacy but that there was no single ideological system underlying the Koryo dynasty's legitimating strategies. *The Power Broker* Robert A. Caro, 2024-09-16 PULITZER PRIZE WINNER A modern American classic, this huge and galvanizing biography of Robert Moses reveals not only the saga of one man's incredible accumulation of power but the story of his shaping and misshaping of twentieth-century New York. One of the Modern Library's hundred greatest books of the twentieth century, Robert Caro's monumental book makes public what few outsiders knew: that Robert Moses was the single most powerful man of his time in the City and in the State of New York. And in telling the Moses story, Caro both opens up to an unprecedented degree the way in which politics really happens, the way things really get done in America's City Halls and Statehouses, and brings to light a bonanza of vital information about

such national figures as Alfred E Smith and Franklin D Roosevelt and the genesis of their blood feud about Fiorello La Guardia John V Lindsay and Nelson Rockefeller But The Power Broker is first and foremost a brilliant multidimensional portrait of a man an extraordinary man who denied power within the normal framework of the democratic process stepped outside that framework to grasp power sufficient to shape a great city and to hold sway over the very texture of millions of lives We see how Moses began the handsome intellectual young heir to the world of Our Crowd an idealist How rebuffed by the entrenched political establishment he fought for the power to accomplish his ideals How he first created a miraculous flowering of parks and parkways playlands and beaches and then ultimately brought down on the city the smog choked aridity of our urban landscape the endless miles of never sufficient highway the hopeless sprawl of Long Island the massive failures of public housing and countless other barriers to humane living How inevitably the accumulation of power became an end in itself Moses built an empire and lived like an emperor He was held in fear his dossiers could disgorge the dark secret of anyone who opposed him He was he claimed above politics above deals and through decade after decade the newspapers and the public believed Meanwhile he was developing his public authorities into a fourth branch of government known as Triborough a government whose records were closed to the public whose policies and plans were decided not by voters or elected officials but solely by Moses an immense economic force directing pressure on labor unions on banks on all the city s political and economic institutions and on the press and on the Church He doled out millions of dollars worth of legal fees insurance commissions lucrative contracts on the basis of who could best pay him back in the only coin he coveted power He dominated the politics and politicians of his time without ever having been elected to any office He was in essence above our democratic system Robert Moses held power in the state for 44 years through the governorships of Smith Roosevelt Lehman Dewey Harriman and Rockefeller and in the city for 34 years through the mayoralties of La Guardia O Dwyer Impellitteri Wagner and Lindsay He personally conceived and carried through public works costing 27 billion dollars he was undoubtedly America s greatest builder This is how he built and dominated New York before finally he was stripped of his reputation by the press and his power by Nelson Rockefeller But his work and his will had been done

**The Power of Everyday Politics** Benedict J. Tria Kerkvliet, 2018-07-05 Ordinary people's everyday political behavior can have a huge impact on national policy that is the central conclusion of this book on Vietnam In telling the story of collectivized agriculture in that country Benedict J Tria Kerkvliet uncovers a history of local resistance to national policy and gives a voice to the villagers who effected change Not through open opposition but through their everyday political behavior villagers individually and in small unorganized groups undermined collective farming and frustrated authorities efforts to correct the problems The Power of Everyday Politics is an authoritative account based on extensive research in Vietnam's National Archives and in the Red River Delta countryside of the formation of collective farms in northern Vietnam in the late 1950s their enlargement during wartime in the 1960s and 1970s and their collapse in the 1980s As Kerkvliet shows the Vietnamese government eventually terminated the system but not for ideological reasons Rather collectivization had become hopelessly compromised and was ultimately destroyed largely by the activities of villagers Decollectivization began locally among villagers themselves national policy merely followed The power of everyday politics is not unique to Vietnam Kerkvliet asserts He advances a theory explaining how everyday activities that do not conform to the behavior required by authorities may carry considerable political weight

*The Power of Scale: A Global History Approach* John Bodley, 2015-06-01 Throughout history the natural human inclination to accumulate social power has led to growth and scale increases that benefit the few at the expense of the many John Bodley looks at global history through the lens of power and scale theory and draws on history economics anthropology and sociology to demonstrate how individuals have been the agents of social change not social classes Filled with tables and data to support his argument this book considers how increases in scale necessarily lead to an increasingly small elite gaining disproportionate power making democratic control more difficult to achieve and maintain
