Education Pack "all different - all equal" 2021 Rui Gomes, Anca-Ruxandra Pandeia, Patricia Brander, Laure de Witte, Gavan Titley, 2021-11-22 It is easy to say I have no prejudices I m not racist so it has nothing to do with me I didn t invite those refugees It is hard to say I may not be to blame for what happened in the past but I want to take responsibility for making sure it doesn t continue in the future The Education Pack all different all equal was originally produced in 1995 as an educational resource for the European youth campaign against racism antisemitism xenophobia and intolerance Soon after its publication it became a reference work for those involved in intercultural education and training with young people across Europe and beyond Translated into many languages it remains today one of the most successful and most sought after publications of the Council of Europe The usefulness of the pack stems from the variety and creativity of the methodologies proposed More than twenty years after the all different all equal campaign the role plays simulation exercises case studies and cooperative group work that it proposes remain an inspiration to many youth workers trainers teachers and other people actively involved in intercultural education European societies continue to suffer

from a growth of racist hostility and intolerance towards minorities and foreigners the necessity for intercultural youth work remains undiminished and the relevance of this pack remains unquestionable Little bit has been changed in this new edition of the pack apart from an updating of references Most changes are visible and usable only in the online version which offers relevant links with other resources for human rights education which continue the legacy of the campaign equality in dignity and rights respect for broader appreciation of diversity

*The Myth of American Democracy* Trenton Fervor, 2013-04-10 In his current work Trenton Fervor author of *The Last Individual The Ascendancy of the Sociomaniacal Mindset* delivers a critical exposition of democracy and its defects *The Myth of American Democracy* is an unapologetic critique of the American political system and an attempt to dismantle the mystique perpetuated to sanctify and sanction it Fervor entreats the reader to reexamine the notion of democracy and its attendant processes absent the sophistic demagoguery and to more closely consider the actual nature of the institution and the establishment behemoth which inhabits and advances it The reader is encouraged to confront the myth and deception which pervade the contemporary conception of democracy and to accept the reality that the democratic emperor is naked Democracy today is in truth fundamentally absurd its premise is that an ideologically coherent consistent and efficient social policy program can be constructed by formulating each aspect of the overall program through a process of majoritarian amalgamation of contradictory incongruent and confrontational views *The Myth of American Democracy* is an important rebuke of conventional democratic orthodoxy which will challenge readers to reevaluate their sympathies for the system This book is recommended reading for everyone who has wrestled with the troubling suspicion that there is something inherently dubious and defective about the democratic system

**Counting the Days to Armageddon** Robert Crompton, 1996 *Counting the Days to Armageddon* is work of vital importance for all concerned with

the Jehovah's Witness movement. It provides a thorough examination of their eschatological development treating Watch Tower theology objectively but sympathetically. Crompton also speculates about the future direction of Jehovah's Witness teaching. The book begins with a brief consideration of the biblical foundations of doctrines of the last days particularly the books of Daniel and Revelation. There follows an outline summary of some of the main aspects of the history of this doctrine within the Protestant mainstream during the late eighteenth and early nineteenth centuries and an outline of the Adventist teaching of William Miller 1782-1849 in the U.S.A. During the time following the failure of Miller's expectations of the end of the world his ideas were developed by Charles Taze Russell 1852-1916 prime mover of the Watch Tower movement. *Counting the Days to Armageddon* explores the way in which Russell amended Miller's ideas and also the distinctive way in which he handled the Dispensational categorisation of history of John Nelson Darby 1800-1882 to create an extension of historicist speculation on the application of prophecy to the modern world. The response of the Watch Tower movement to the failure of Russell's expectations in 1914 is explored and the new body of doctrine which has replaced Russell's is examined. The ways in which these doctrines have been modified in the past suggest ways in which future doctrine may develop especially in response to the protracted delay of Armageddon. What is envisaged in the light of the history of Watch Tower doctrine is no dramatic collapse of the movement but rather an increasing emphasis upon other less vulnerable areas of doctrine together with a greater turnover of membership which may in due course undermine the movement's stability.

Cease, 1929     New Roots in America's Sacred Ground Khyati Y. Joshi, 2006 In this compelling look at second generation Indian Americans Khyati Y. Joshi draws on case studies and interviews with forty one second generation Indian Americans analyzing their experiences involving religion, race and ethnicity from elementary school to adulthood. As she maps the crossroads they encounter as they navigate between their homes and the wider American milieu Joshi shows how their identities have developed differently from their parents and their non-Indian peers and how religion often exerted a dramatic effect. The experiences of Joshi's research participants reveal how race and religion interact, intersect and affect each other in a society where Christianity and whiteness are the norm. Joshi shows how religion is racialized for Indian Americans and offers important insights in the wake of 9/11 and the backlash against Americans who look Middle Eastern and South Asian. Through her candid insights into the internal conflicts contemporary Indian Americans face and the religious and racial discrimination they encounter Joshi

provides a timely window into the ways that race religion and ethnicity interact in day to day life *Vital Issues* ,1991

*Education Pack "All different - All equal" 4th edition* Rui Gomes, Anca-Ruxandra Pandea, Patricia Brander, Laure de Witte, Gavan Titley, 2024-10-01 An invaluable education pack proposing resources and activities for education and action with young people against racism and discrimination It is easy to say I have no prejudices or I m not racist so it has nothing to do with me It is much harder to say I may not be to blame for what happened in the past but I want to take responsibility for making sure it doesn t continue in the future Many young people in Europe and beyond defied the pandemic and took to the streets in 2020 to express their sorrow and their anger in the aftermath of George Floyd s death in Minneapolis at the hands of a white policeman This also served as a wake up call to the daily systemic and sometimes structural forms of racial discrimination which are visible across Europe expressed in hate speech or outright physical violence and which target people on the basis of their characteristics or identity including age colour of skin disability ethnicity gender legal status nationality origin race religion and belief sex and sexual orientation Youth leaders and human rights activists turned to the Council of Europe the guardian of human rights in Europe for responses support and in particular what the youth sector could propose A consultation with youth workers and specialists in human rights education concluded that part of the response has to be educational The rise of populist nationalist and xenophobic ideas and discourse must also be countered through democratic citizenship and human rights education including anti racism education and intercultural learning Education remains an important antidote to racism and prejudice This manual was originally produced in 1995 for the European youth campaign against racism antisemitism xenophobia and intolerance It has been updated and extended to reflect the kaleidoscope of racial discrimination in Europe today and the mutations of racist discourses and ideologies It contains basic information and hands on non formal education methodologies for supporting young people in learning about and addressing prejudice and its impact on people and societies **The World's Work** ,1910
