Institutio Christianae religionis is John Calvin's seminal work on Protestant systematic theology Highly influential in the
Western world and still widely read by theological students today it was published in Latin in 1536 at the same time as the
English King Henry VIII's Dissolution of the Monasteries and in his native French in 1541 with the definitive editions
appearing in 1559 Latin and in 1560 French The book was written as an introductory textbook on the Protestant faith for
those with some previous knowledge of theology and covered a broad range of theological topics from the doctrines of
church and sacraments to justification by faith alone and Christian liberty It vigorously attacked the teachings of those Calvin
considered unorthodox particularly Roman Catholicism to which Calvin says he had been strongly devoted before his
conversion to Protestantism The Institutes is a highly regarded secondary reference for the system of doctrine adopted by the
Reformed churches usually called Calvinism from wikipedia.com **Institutes of the Christian Religion** Jean Calvin, 1989

Here in a convenient one volume edition is John Calvin s magnum opus Written as an introduction to the Christian life the Institutes remains the best articulation of Reformation principles and is a marvelous introduction to biblical Christianity
