The Powers Of Speech The Politics Of Culture In The Gdr:

The Powers of Speech David Bathrick, 1995-01-01 In this definitive study David Bathrick examines East German culture both before and after the fall of the Berlin Wall in November 1989 Bathrick argues that dissident East German writers were unique among East European literary intellectuals in that they attempted to open up alternative spaces for public speech from within the framework of Marxism and state socialism According to Bathrick the fact that some of them had been censored hunted questioned and ridiculed does not belie the fact that they were also and sometimes even simultaneously privileged nurtured courted and coddled It was precisely their function on both sides of the power divide as official and nonofficial voices within the whole which defined a particular kind of intellectual in the GDR Bathrick applies his insights into this particular kind of intellectual to a wide range of topics He compares oppositional culture in East Germany to radical cultures elsewhere examines the complex political and cultural relations of East and West Germany traces the anguished history of the East German avant garde and describes the troubled effort to develop a revolutionary theatrical tradition in East Germany The book also includes nuanced insights into the collapse of the East German political order in the late 1980s and more recent revelations about the collaboration of allegedly oppositional writers with the Stasi state police In his treatment of these and other issues Bathrick enters hotly contested territory Yet he brings clarity and scrupulous fairness to these issues that are still very much alive in Germany and elsewhere today

German Writers and the Politics of Culture Paul Cooke, Andrew Plowman, 2003-12-09 Before the fall of the Berlin Wall many East German writers were praised in the Western world as dissident voices of truth bravely struggling with the draconian constraints of living under the GDR's communist regime However since unification Germany has been rocked by scandals showing the level to which the Stasi the East German Secret Police controlled these same writers This is the first study in English to systematically explore how the writers have responded to the challenge of dealing with the Stasi from the 1950s to the present day

The Politics of Culture in Turkey, Greece & Cyprus Leonidas Karakatsanis, Nikolaos Papadogiannis, 2017-03-27 Performing a political identity usually involves more than just casting a vote For Left wingers in Turkey Greece and Cyprus countries that emerged as the only non socialist constituents of South eastern Europe after WWII political preference meant immersion to distinct ways of life to cultures in times of dictatorship or persecution the desire to find alternative ways to express themselves gave content to these cultures In times of political normality it was the echoes of such memories of precarity and loss that took the lead This book explores the intersection between the politics and cultures of the Left since the sixties in Turkey Greece and Cyprus With the use of 12 case studies the contributors expose the moments in which the Left has been claimed and performed not only through political manifestos and traditional political boundaries but also through corporeal acts discursive practices and affective encounters These are all transformed into distinct modalities of everyday life and conduct which are commemorated narrated or sung versed painted or captured in photographic images and on reels of tape By

focusing on culture and performance this book highlights the complex link between nationalism and internationalism in left wing cultures and illuminates the entanglements between the ways in which left wingers experienced transitions from dictatorship to democracy and vice versa As the first book to analyse cultures and performances of the Left in the three countries The Politics of Culture in Turkey Greece and Cyprus causes a rethinking of the boundaries of political practice and fosters new understandings of the formation of diverse expressions of the Left As such it will be a valuable resource for students and scholars of cultural and social anthropology modern European history and political science The Politics of Magic Qinna Shen,2015-06-15 Shen s study will be significant reading for teachers and students of folklore studies and for scholars of German Eastern European cultural film media and gender studies *Socialist Laments* Martha Sprigge,2021-01-01 How do individuals communities and societies use music as a form of mourning This book demonstrates how music became a crucial outlet for processing loss in communist East Germany where the ruling Socialist Unity Party tightly regulated expressions of loss **Communism's Public Sphere** Kyrill Kunakhovich,2023-01-15 Communism s Public Sphere explores the political role of cultural spaces in the Eastern Bloc Under communist regimes that banned free speech political discussions shifted to spaces of art theaters galleries concert halls and youth clubs Kyrill Kunakhovich shows how these venues turned into sites of dialogue and contestation While officials used them to spread the communist message artists and audiences often flouted state policy and championed alternative visions Cultural spaces therefore came to function as a public sphere or a rare outlet for discussing public affairs Focusing on Krak w in Poland and Leipzig in East Germany Communism s Public Sphere sheds new light on state society interactions in the Eastern Bloc In place of the familiar trope of domination and resistance it highlights unexpected symbioses like state sponsored rock and roll socialist consumerism and sanctioned dissent By examining nearly five decades of communist rule from the Red Army s arrival in Poland in 1944 to German reunification in 1990 Kunakhovich argues that cultural spaces played a pivotal mediating role They helped reform and stabilize East European communism but also gave cover to the protest movements that ultimately brought it down **Popular Dissent, Human Agency and Global Politics** Roland Bleiker,2000-03-02 Popular dissent such as street demonstrations and civil disobedience has become increasingly transnational in nature and scope As a result a local act of resistance can acquire almost immediately a much larger cross territorial dimension This book draws upon a broad and innovative range of sources to scrutinise this central but often neglected aspect of global politics Through case studies that span from Renaissance perceptions of human agency to the collapse of the Berlin Wall the author examines how the theory and practice of popular dissent has emerged and evolved during the modern period Dissent he argues is more than just transnational It has become an important transversal phenomenon an array of diverse political practices which not only cross national boundaries but also challenge the spatial logic through which these boundaries frame international relations **Rückblicke auf die Literatur der DDR** ,2016-08-09 Obwohl die DDR nunmehr ein abgeschlossenes Kapitel in

der deutschen Geschichte geworden ist halt die Auseinandersetzung um das was von ihr bleibt auch im Abstand von mehr als zehn Jahren an Selbst nach dem deutsch deutschen Literaturstreit unmittelbar nach der Wende der seinerseits schon Ruckblicken und Bilanzierungen ausgesetzt wurde bleibt der Stellenwert der Literatur in und aus der DDR ein umstrittenes Terrain Ungeachtet dessen dass es Einhelligkeit in literarischen Fragen ohnehin nicht geben kann sind die Urteile zur Literatur der DDR natürlich auch von den Erfahrungen und Erlebnissen mit der DDR geprägt In diesem Band haben wir uns für eine Sicht von aussen und von innen gleichermaßen interessiert

Writing in Red Thomas W. Goldstein, 2017 In the German Democratic Republic words and ideas mattered both for legitimizing and criticizing the regime No wonder then that the ruling SED party created a Writers Union to mold what writers publicly wrote and said Its chief task was ideological creating a socialist and antifascist culture But it was also supposed to advance its members professional interests and enable them to act as public intellectuals with a say in the direction of socialism Many writers demanded that it pursue this second function as well which brought it into conflict with the SED This book explores how the union became a site for the contestation of writers roles in GDR society with consequences well beyond the literary community Union leaders pressured by the SED or the secret police usually acquiesced in enforcing regime demands but by the 1980s many authors had adapted to the rules of the game exploiting their union membership to insulate themselves from reprisal for their carefully worded critiques and in so doing beginning to break down limitations on public speech The book explores how and why in the 1970s the Writers Union helped normalize relations between writers and state yet over the course of the 1980s inadvertently aided the expansion of permissible speech ultimately helping destabilize the East German system Thomas W Goldstein is Assistant Professor of History at the University of Central Missouri

The Media of Testimony S. Jones, 2014-08-06 The Media of Testimony explores testimony relating to the Stasi in different cultural forms autobiographical writing memorial museums and documentary film Combining theoretical models from diverse disciplines it presents a new approach to the study of testimony memory and mediation

Popular Cinemas in East Central Europe Dorota Ostrowska, Francesco Pitassio, Zsuzsanna Varga, 2017-06-30 The continued interest in the social and cultural life of the former Warsaw pact countries looking at but also beyond their socialist pasts encompasses a desire to know more about their national cinemas Yet despite the increasing consumption of films from these countries via DVD VOD platforms and other alternative channels there is a lack of comprehensive information on this key aspect of visual culture This important book rectifies the glaring gap and provides both a history and a contemporary account of East Central European cinema in the pre WW2 socialist and post socialist periods Demonstrating how at different historical moments popular cinema fulfilled various roles for example in the capacity of nation building and adapted to the changing markets of a morphing political landscape chapters bring together experts in the field for the definitive analysis of mainstream cinema in the region Celebrating the unique contribution of films from Hungary the Czech Republic Czechoslovakia and Poland from the award winning *Cosy Dens* to cult favourite *Lemonade*

Joe and from 1960s Polish Westerns to Hollywood influenced Hungarian movies the book addresses the major themes of popular cinema By looking closely at genre stardom cinema exhibition production strategies and the relationship between the popular and the national it charts the remarkable evolution and transformation of popular cinema over time The continued interest in the social and cultural life of the former Warsaw pact countries looking at but also beyond their socialist pasts encompasses a desire to know more about their national cinemas Yet despite the increasing consumption of films from these countries via DVD VOD platforms and other alternative channels there is a lack of comprehensive information on this key aspect of visual culture This important book rectifies the glaring gap and provides both a history and a contemporary account of East Central European cinema in the pre WW2 socialist and post socialist periods Demonstrating how at different historical moments popular cinema fulfilled various roles for example in the capacity of nation building and adapted to the changing markets of a morphing political landscape chapters bring together experts in the field for the definitive analysis of mainstream cinema in the region Celebrating the unique contribution of films from Hungary the Czech Republic Czechoslovakia and Poland from the award winning *Cosy Dens* to cult favourite *Lemonade Joe* and from 1960s Polish Westerns to Hollywood influenced Hungarian movies the book addresses the major themes of popular cinema By looking closely at genre stardom cinema exhibition production strategies and the relationship between the popular and the national it charts the remarkable evolution and transformation of popular cinema over time

Twentieth-Century Music and Politics Pauline Fairclough, 2016-02-17 When considering the role music played in the major totalitarian regimes of the century it is music's usefulness as propaganda that leaps first to mind But as a number of the chapters in this volume demonstrate there is a complex relationship both between art music and politicised mass culture and between entertainment and propaganda Nationality self other power and ideology are the dominant themes of this book whilst key topics include music in totalitarian regimes music as propaganda music and national identity migr communities and composers music's role in shaping identities of self and other and music as both resistance to and instrument of oppression Taking the contributions together it becomes clear that shared experiences such as war dictatorship colonialism exile and emigration produced different yet clearly inter related musical consequences

Post-Imperial Brecht Loren Kruger, 2004-08-19 Post Imperial Brecht challenges prevailing views of Brecht's theatre and politics Kruger focuses much of her analysis in regions where Brecht has had special resonance including East Germany and South Africa where Brechtian philosophy has been vigorously employed in the anti apartheid movement Kruger also analyses political interpretations of Brecht in light of other key dramatists including Heiner Müller and Athol Fugard The book also examines Brechtian influence on writers and philosophers such as Adorno Benjamin and Barthes

The Antifascist Classroom B. Blessing, 2006-11-13 This study explores the history of the New School that developed in the postwar period and its role in communicating antifascism to young people in the Soviet zone Blessing traces how the decisions about how to educate young people after the National Socialist dictatorship

became part of a broader discussion about the future of the German nation **Screening Art** Seán Allan,2019-02-18 With internationalist aspirations and wide ranging historical perspectives East German films about artists and their work became hotly contested spaces in which filmmakers could look beyond the GDR and debate the impact of contemporary cultural policy on the reception of their pre war cultural heritage Spanning newsreels documentaries and feature films Screening Art is the first full length investigation into a genre that has been largely overlooked in studies of DEFA the state owned Eastern German film studio As it shows artist films played an essential role in the development of new paradigms of socialist art in postwar Europe Building Socialism Curtis Swope,2017-11-16 Building Socialism reveals how East German writers engagement with the rapidly changing built environment from the mid 1950s to the early 1970s constitutes an untold story about the emergence of literary experimentation in the post War period It breaks new ground by exploring the centrality of architecture to a mid century modernist literature in dialogue with multiple literary and left wing theoretical traditions and in tune with international assessments of modernist architecture and urban planning Design and construction were a central part of politics and everyday life in East Germany during this time as buildings old and new were asked to bear heavy ideological and social burdens In their novels stories and plays Heiner Müller Christa Wolf Günter Kunert Volker Braun Günter de Bruyn and Brigitte Reimann responded to enormous new factory complexes experimental new towns the demolition of Berlin's tenements and the propagation of a pared down modernist aesthetic in interior design Writers representation of the design construction and use of architecture formed part of a turn to modernist literary devices including montage metaphor and shifting narrative perspectives East Germany's literary architecture also represents a sophisticated theoretical reflection on the intractable problems of East Germany's socialist modernity including the alliance between state socialism and technological modernization competing commitments to working class self organization and the power of specialist planners and designers and the attempt to create an alternative to fascism **State, Society and Memories of the Uprising of 17 June 1953 in the GDR** R. Millington,2014-10-14 Condemned as a fascist putsch in the East and praised as a people's uprising in the West the uprising of 17 June 1953 shook East Germany Drawing on interviews and archive research this book examines East German citizens memories of the unrest and reflects on the nature of state power in the GDR **Divided Village: The Cold War in the German Borderlands** Jason B. Johnson,2017-05-18 In 1983 then US Vice President George H W Bush delivered a speech in London He had just been in West Berlin and spoke about his first visit to the Berlin Wall Bush then went on to describe another German wall he saw after Berlin if anything that wall was an even greater obscenity than its eponym to the north The story of that wall is a fascinating and valuable slice of the history of post war Europe That wall had gone up nearly two hundred miles southwest of Berlin at the edge of divided Germany in the tiny remote farming village of Mdlareuth For nearly half the twentieth century the Iron Curtain divided Mdlareuth in two In this little valley surrounded by forests and fields the villagers of Mdlareuth found themselves on the literal front line of the Cold War The

East German state gradually militarized the border through the community while eastern villagers exhibited a range of responses to cope with their changing circumstances reflective of the variable nature of the Cold War border through Germany along the Iron Curtain the size and isolation of the divided place influenced the local character of the division

"Landscape Imagery, Politics, and Identity in a Divided Germany, 1968-1989" Catherine Wilkins, 2017-07-05 Landscape Imagery Politics and Identity in a Divided Germany 1968-1989 explores the communicative relationship between German landscape painting and the viewing public that developed in the wake of the student revolutions of the late 1960s The book demonstrates that contrary to some historical thinking more similarities than differences characterized the sociopolitical concerns of East and West Germans during the late Cold War Era and that it was these shared issues that were reflected in the revival of the Romantic painting genre Catherine Wilkins focuses on recovering the agency of the individual artist and in revising historiography with sensitivity to narration from below Interdisciplinary in nature art historians can benefit from the study's analysis of images and artists not widely known outside of Germany Additionally the consolidation of statistics and data regarding German postwar cultural policy are relevant for political and cultural historians The author contributes to the ongoing multidisciplinary debates regarding Histoire Crois in arguing that a clear dichotomy between East Germany and West Germany did not exist but rather that the residents of both nations shared a concern over some of the same issues of the period and memory studies by using images as primary historical sources able to be employed in the recovery of potentially subversive memory and identity Issues related to gender relations environmentalism and spiritual belief are addressed by Wilkins with appeal for scholars working with those particular themes Poststructuralist and literary theorists as well can find arguments supporting an alternative means of writing history through artworks and private memories

Envisioning Socialism Heather Gumbert, 2018-05-09 The first examination in English of East German television during the early Cold War
