Van Stan II, Jack Simmons, 2024-02-22 This book examines the intricate web linking water science and society using diverse philosophical lenses Highlighting the tensions within the threads of this web we spotlight major conceptual tightropes that water researchers tread daily To effectively navigate these delicate threads a healthy tension in the encompassing web is necessary Drawing inspiration from Freud's examination of tensions in Society and Its Discontents we illuminate the tension filled paradoxes inherent to water science emphasizing the challenges in keeping these paradoxical threads taut enough to ensure a navigable and sustainable bond with society Central to our narrative is the escalating societal urge to quantify and manage water something interwoven throughout every environmental layer including the fabric of our being An excessive focus on management may alienate

users from their water realities jeopardizing the vital threads that sustainability tether water science and society. Consequently this book explores compelling and inescapable tensions that resist tidy universal resolution such as the language of water science including its mathematical reductions i.e. models the effect of water's commodification on its science hydrology's intersection with colonialism and other concerns that reveal distortions in our hydrology. We aim to aid water professionals in recognizing and fine tuning the paradoxes intrinsic to their work. To underscore the interwoven complexity of contemporary hydrology *Hydrology and Its Discontents* guides readers into the tempestuous depths of water research all the while urging a recalibration of perspectives and motivations. **Neoliberal Turkey and its Discontents** Fikret Adaman, Bengi Akbulut, Murat Arsel, 2017-05-30 The neoliberal economic policy of President Recep Tayyip Erdogan's AKP Party which has delivered extraordinary growth in Turkish GDP over the last decade has been one of the foundations of the party's popular appeal. Here a group of experts on Turkish political economy show how these policies have also had a detrimental impact on the environment sustainability and the long term health of the Turkish economy. Taking the two main sectors of growth during the past decade energy and construction as its primary focus the book engages broadly with the political economy of inequality and sustainability in contemporary Turkey. Ultimately the authors argue that environmental conflicts in Turkey are not merely about the environment but intersect with contemporary politics of religion ethnicity gender and class within the context of top down modernising economic development. *Neoliberal Turkey and its Discontents* marks an important contribution to debates around the economic growth of Turkey and the future of the AKP's long term economic plan. **Divine Discontent** Jonathon S. Kahn, 2011-08-12 Jonathon Kahn offers a fresh and controversial reading of W. E. B. Du Bois showing how Du Bois consciously marshals religious rhetoric concepts typologies narratives virtues and moods in order to challenge the traditional Christian worldview. *Luso-Tropicalism and Its Discontents* Warwick Anderson, Ricardo Roque, Ricardo Ventura Santos, 2019-04-22 Modern perceptions of race across much of the Global South are indebted to the Brazilian social scientist Gilberto Freyre who in works such as *The Masters and the Slaves* claimed that Portuguese colonialism produced exceptionally benign and tolerant race relations. This volume radically reinterprets Freyre's Luso-tropicalist arguments and critically engages with the historical complexity of racial concepts and practices in the Portuguese speaking world. Encompassing Brazil as well as Portuguese speaking societies in Africa Asia and even Portugal itself it places an interdisciplinary group of scholars in conversation to challenge the conventional understanding of twentieth century racialization proffering new insights into such controversial topics as human plasticity racial amalgamation and the tropes and proxies of whiteness. **Subprime Health** Nadine Ehlers, Leslie R. Hinkson, 2017-07-15 From race based pharmaceutical prescriptions and marketing to race targeted medical hot spotting and the Affordable Care Act to stem cell trial recruitment discourse *Subprime Health* is a timely examination of race based medicine as it intersects with the concept of debt. The contributors to this volume propose that race based medicine is inextricable from debt in two key senses. They

first demonstrate how the financial costs related to race based medicine disproportionately burden minorities as well as how monetary debt and race are conditioned by broader relations of power Second the contributors investigate how race based medicine is related to the concept of indebtedness and is often positioned as a way to pay back the debt that the medical establishment and society at large owes for the past and present neglect and abuses of many communities of color By approaching the subject of race based medicine from an interdisciplinary perspective critical race studies science and technology studies public health sociology geography and law this volume moves the discussion beyond narrow and familiar debates over racial genomics and suggests fruitful new directions for future research Contributors Ruha Benjamin Princeton U Catherine Bliss U of California San Francisco Khiara M Bridges Boston U Shiloh Krupar Georgetown U Jenna M Loyd U of Wisconsin Milwaukee Anne Pollock Georgia Tech

The Oxford Handbook of African American Language Sonja Lanehart, 2015-05-04 The goal of *The Oxford Handbook of African American Language* is to provide readers with a wide range of analyses of both traditional and contemporary work on language use in African American communities in a broad collective The Handbook offers a survey of language and its uses in African American communities from a wide range of contexts organized into seven sections Origins and Historical Perspectives Lects and Variation Structure and Description Child Language Acquisition and Development Education Language in Society and Language and Identity It is a handbook of research on African American Language AAL and as such provides a variety of scholarly perspectives that may not align with each other as is indicative of most scholarly research The chapters in this book interact with one another as contributors frequently refer the reader to further elaboration on and references to related issues and connect their own research to related topics in other chapters within their own sections and the handbook more generally to create dialogue about AAL thus affirming the need for collaborative thinking about the issues in AAL research Though the Handbook does not and cannot include every area of research it is meant to provide suggestions for future work on lesser studied areas e g variation heterogeneity in regional social and ethnic communities by highlighting a need for collaborative perspectives and innovative thinking while reasserting the need for better research and communication in areas thought to be resolved

Cinema of Discontent Tomoyuki Sasaki, 2022-12-01 From the mid 1950s to the mid 1970s Japan experienced an unprecedented level of economic growth transforming itself from a war devastated country to a global economic power Our image of postwar Japan has been shaped by this event and we tend to see its history as a story of great national success *Cinema of Discontent* challenges this view and details the tensions generated by massive and intense capitalist development through analyses of popular cinema produced during the era of high speed growth The films discussed in this book directed by Kawashima Y z Masumura Yasuz Inoue Akira Ezaki Mio and Kumashiro Tatsumi attracted broad audiences yet remain understudied *Cinema of Discontent* contextualizes these films in relation to the politics economy intellectual discourse and cultural texts of the time By doing so it demonstrates how these films address problems immanent to Japan s postwar capitalism including uneven

development increasing corporate control over individuals precarious and contingent work and militarized peace and prosperity
