The Practice Of Moral Judgment:

The Practice of Moral Judgment Barbara Herman,1993 Barbara Herman argues for a radical shift in the way we perceive Kant's ethics She convincingly reinterprets the key texts at once allowing Kant to mean what he says while showing that what Kant says makes good moral sense She urges us to abandon the tradition that describes Kantian ethics as a deontology a moral system of rules of duty She finds the central idea of Kantian ethics not in duty but in practical rationality as a norm of unconditioned goodness This book both clarifies Kant's own theory and adds programmatic vitality to modern moral philosophy

The Practice of Moral Judgment Barbara Herman,1996 Barbara Herman argues for a radical shift in the way we perceive Kant's ethics She convincingly reinterprets the key texts at once allowing Kant to mean what he says while showing that what Kant says makes good moral sense This book both clarifies Kant's own theory and adds programmatic vitality to modern moral philosophy

Moral Literacy Barbara Herman,1993 **Kant's Ethical Thought** Allen W. Wood,1999-08-28 A major new study of Kant's ethics

Kantian Commitments Barbara Herman,2022-02-24 Kantian Commitments comprises ten essays that represent a series of efforts to rethink many of the fundamentals of Kant's ethics and to draw out some implications for moral theory and practice In Part One Herman revisits and revises central pieces of Kant's moral framework offering a new understanding of the formulas of the categorical imperative revisiting the idea of exceptions to duties and sharpening the contrast between the value commitments of Kantian theory and other deontologies especially recent contractualisms The working hypothesis is to take seriously the idea that the formulas of the categorical imperative frame an account of moral reasoning with standards of validity and soundness which enable moral judgment to explicate the connection between our rational natures and our duties Part Two takes on some less central but important topics which are informed by the arguments of Part One the rationale for Kant's moralized view of history the implications of a Kantian view of morality for social pluralism the fit of Kant's conception of moral psychology with affect centered theories of human development the motivation behind Kant's argument for indirect duties to animals and the place of the idea of the highest good in a morally good life Throughout Herman aims to explore core Kantian commitments through a program of inquiry that peels away layers of assumption often brought to Kant's texts Removing these obstacles clarifies the ambition and scale of Kantian theory

Kantian Moral Theory And The Destruction Of The Self Sandra Jane Fairbanks,2019-03-01 This book explains Kantian morality against an interrelated set of criticisms that constitute the most influential contemporary critique of Kantian morality It demonstrates that a theory which emphasizes the guidance of impartial moral principles does not threaten a person's feelings of attachment

Moral Judgments as Educated Intuitions Hanno Sauer,2022-11-01 An argument that moral reasoning plays a crucial role in moral judgment through episodes of rational reflection that have established patterns for automatic judgment foundation Rationalists about the psychology of moral judgment argue that moral cognition has a rational foundation Recent challenges to this account based on findings in the empirical psychology of

moral judgment contend that moral thinking has no rational basis In this book Hanno Sauer argues that moral reasoning does play a role in moral judgment but not as is commonly supposed because conscious reasoning produces moral judgments directly Moral reasoning figures in the acquisition formation maintenance and reflective correction of moral intuitions Sauer proposes that when we make moral judgments we draw on a stable repertoire of intuitions about what is morally acceptable which we have acquired over the course of our moral education episodes of rational reflection that have established patterns for automatic judgment foundation Moral judgments are educated and rationally amenable moral intuitions Sauer engages extensively with the empirical evidence on the psychology of moral judgment and argues that it can be shown empirically that reasoning plays a crucial role in moral judgment He offers detailed counterarguments to the anti rationalist challenge the claim that reason and reasoning play no significant part in morality and moral judgment and the emotionist challenge the argument for the emotional basis of moral judgment Finally he uses Joshua Greene s Dual Process model of moral cognition to test the empirical viability and normative persuasiveness of his account of educated intuitions Sauer shows that moral judgments can be automatic emotional intuitive and rational at the same time

Jennifer K. Uleman, 2010-01-21 Immanuel Kant s moral philosophy is one of the most distinctive achievements of the European Enlightenment At its heart lies what Kant called the strange thing the free rational human will This introduction explores the basis of Kant s anti naturalist secular humanist vision of the human good Moving from a sketch of the Kantian will with all its component parts and attributes to Kant s canonical arguments for his categorical imperative this introduction shows why Kant thought his moral law the best summary expression of both his own philosophical work on morality and his readers

A Nietzschean Metaethics David Emmanuel Rowe, 2019-10-17 This book develops a novel interpretation of the late nineteenth century German philosopher Friedrich Nietzsche as holding a distinct and original metaethical position a theory about our practice of ethics David Emmanuel Rowe characterizes it as a human centered metaethics A central achievement of A Nietzschean Metaethics is to bring Nietzsche into a conversation with the analytic metaethical tradition To do so Rowe interprets Nietzsche's use of such concepts as the notorious will to power his ideal agent the superman or *bermensch* nihilism the eternal recurrence Perspectivism and Being and Becoming The result is a view of Nietzsche as a radical moral error theorist which is to say he defends the view that all statements that appeal to some value for their truth are false This theory is radical because Nietzsche argues that insofar as language requires certain concepts for its truth it is in error in virtue of an appeal to some value Rowe also offers a view where the increase in one's power is a standard by which one can make sense of Nietzsche's so called re evaluation of all values By means of this resolution Nietzsche criticizes some contemporary themes in metaethics such as particular views about moral motivation reasons moral error theory and agency

Awakening Warrior Timothy L. Challans, 2010-03-10 2007 CHOICE Outstanding Academic Title Awakening Warrior argues for a revolution in the ethics of warfare for the American War Machine those political and military institutions that engage the world with physical force Timothy L. Challans focuses on the systemic institutional level of morality rather than bemoaning the moral shortcomings of individuals He asks What are the limits of individual moral agency What kind of responsibility do individuals have when considering institutional moral error How is it that neutral or benign moral actions performed by individuals can have such catastrophic morally negative effects from a systemic perspective Drawing upon and extending the ethical theories of Kant Dewey and Rawls Challans makes the case for an original set of moral principles to guide ethical action on the battlefield Challans's call for reformation combined with a demand for a new set of moral principles to govern the ethical behavior on the battlefield is certain to garner the attention and ire of many readers and military leaders Parameters This is an important book that needs to be read and taken seriously If it is it could be as revolutionary as its subtitle suggests CHOICE

The Moral Judgment Of The Child Jean Piaget, 2013-11-05 First Published in 1999 Readers will find in this book no direct analysis of child morality as it is practised in home and school life or in children's societies It is the moral judgment that we propose to investigate not moral behaviour or sentiments With this aim in view a large number of children from the Geneva and Neuchatel schools were questioned and held conversations with them similar to those we had had before on their conception of the world and of causality The present volume contains the

results of these conversations Educational Leadership and Moral Literacy Patrick M. Jenlink, 2014-03-18 What makes a moral person moral Who decides what morality means What makes leadership practice moral In today's schools what stands as moral leadership These are questions that reflect the complexity integral to the calculus of human morality especially in a world that is defined daily by its variant meanings of morality its acts of immorality The school as an educational setting is or should be a decidedly moral center of the society it is the natural intersect between the family and the multi dimensional nature of public life Educational Leadership and Moral Literacy addresses these questions situating the reader in a conversation that examines the meaning and nature of moral leadership through the lens of moral literacy and the dispositional aims of moral leadership in educational settings The contributing authors extend an argument that the work of leader educators and practitioners alike must continuously be re articulated around the dispositional aims aligned with a moral democratic education Educators must be concerned with developing the moral intellectual and aesthetic dimensions of the educational leader as a moral person **The Role of Moral Reasoning on Socioscientific Issues and Discourse in Science Education** Dana L. Zeidler, 2007-04-29 This is the first book to address moral reasoning and socioscientific discourse It provides a theoretical framework to reconsider what a functional view of scientific literacy entails by examining how nature of science issues classroom discourse issues cultural issues and science technology society environment case based issues contribute to habits of mind about socioscientific content The text covers philosophical psychological and pedagogical considerations underpinning moral reasoning as well as the status of socioscientific issues in science education

The Practice of Leadership Jay A. Conger, Ronald E. Riggio, 2012-06-29 This book includes contributions from top scholars who outline the best leadership practices for the benefit of the practicing leader Each chapter focuses on a specific area of leadership practice and ends with a set of take away best practices in each area an executive summary in reverse that will serve as a quick reference for those who might want to peruse chapters but still extract the best practices as well as a summary for those who thoroughly read each chapter Jay Alden Conger and Ronald Riggio have brought together a galaxy of sophisticated yet practical experts on leadership stressing both the complexity and indispensability of both transactional and transforming leadership with the blessing of the pioneering student of leadership Bernie Bass James MacGregor Burns professor emeritus Willams College and Pulitzer Prize winner Kant Paul Guyer, 2014-03-05 In this updated edition of his outstanding introduction to Kant Paul Guyer uses Kant's central conception of autonomy as the key to his thought Beginning with a helpful overview of Kant's life and times Guyer introduces Kant's metaphysics and epistemology carefully explaining his arguments about the nature of space time and experience in his most influential but difficult work The Critique of Pure Reason He offers an explanation and critique of Kant's famous theory of transcendental idealism and shows how much of Kant's philosophy is independent of this controversial doctrine He then examines Kant's moral philosophy his celebrated categorical imperative and his theories of duty freedom of will and political rights This section of the work has been

substantially revised to clarify the relation between Kant's conceptions of internal and external freedom. In his treatments of Kant's aesthetics and teleology, Guyer focuses on their relation to human freedom and happiness. Finally, he considers Kant's view that the development of human autonomy is the only goal that we can conceive for both natural and human history. Including a chronology, glossary, chapter summaries, and up-to-date further reading, Kant's second edition is an ideal introduction to this demanding yet pivotal figure in the history of philosophy and essential reading for all students of philosophy.

Reason Over Passion Evan Simpson, 2006-01-01 Reason is not passion's slave. Rather, the author argues, reason appraises the cultural appropriateness of passion, thus directing our attitudinal behaviour. He refutes those theories of value which correspond philosophically to societies described by Jean-Jacques Rousseau: societies of honour without virtue, reason without wisdom, pleasure without happiness. His argument, which takes into account traditional philosophic positions, is divided into five parts: Attitudes, Evaluation, Characterization, Culture, Morality.

The Idea of Freedom Dai Heide, Evan Tiffany, 2023-05-01 Kant describes the concept of freedom as the keystone of the whole structure of a system of pure reason, even of speculative reason. Kant's theory of freedom thus plays a foundational and unifying role in all aspects of his philosophy and is thus of significant interest to historians of Kant's philosophy. Kant's theory of freedom has also played a significant role in contemporary debates in metaphysics, normative ethics, and metaethics. This volume brings historians of Kant's philosophy into conversation with contemporary metaphysicians and ethicists, with the aim of representing the current state of scholarship on Kant's and Kantian accounts of freedom while at the same time opening new avenues of exploration. The Idea of Freedom includes papers by leading scholars on a range of historical and contemporary topics centrally related to the Kantian theory of freedom, including transcendental idealism, determinism, Kant's normative ethical theory, Kant's conception of cognition, Kant's theory of beauty, Kant's conception of logic, and many others.
