## **The Preacher As Jacob A New Paradigm For Preaching:**

**The Preacher as Jacob** Kenneth L. Gible, 1985      **The "I" of the Sermon** Richard L. Thulin, 2004-11-22 The issues are clear If one preaches Christ how does one avoid preaching oneself How do you avoid the fall into Narcissus pond What allows one's humility to show How much does one dare reveal about oneself Thulin handles these questions with sensitivity and skill using his own and others sermons for examples and critique He carefully and incisively describes four types of personal story available to preachers the features and functions of each and the degree of the preacher's self disclosure allowed by each Most of his book deals with the personal story as self portrayal that type being the most comprehensive form of first person narrative An appendix includes three sermons one each by Edmund Steimle Martin Luther King Jr and John Vannorsdall often used to disclose the intent of Thulin's I in this book      **Preaching from Camelot to Covenant** William K. McElvaney, 1989      Elenchus of Biblica, 1988      The New Interpreter's® Handbook of Preaching, 2010-11-01 The New Interpreter's Handbook of Preaching is a major reference tool for preaching with articles on every facet of Christian sermon preparation and delivery This resource is both scholarly and practical It focuses on the most distinctive feature and greatest strength of homiletics as a discipline It is rooted in interdisciplinary scholarship and it develops theory geared to practice Its theory arises out of the study of both excellent preaching past and present and actual sermon preparation and composition When theory and practice critique each other it is possible to produce guidelines that assist greater excellence and economy in preaching the gospel Excellence in standards is an area in which homiletics needs to grow and this project will be both a means to encourage and develop it A guiding question throughout will be Will it preach The answers will be offered in the sense that here is something that works well rather than here is something to try Preachers will turn to this resource with the expectation that they will find scholarly treatment of topics brief bibliographies of relevant key books and articles along with practical methodological suggestions for preachers to employ The contributors are homileticians preachers and writers in various disciplines who are committed to the pulpit through practice      **Teaching the Reformation** Amy Nelson Burnett, 2006-10-12 Though the Reformation was sparked by the actions of Martin Luther it was not a decisive break from the Church in Rome but rather a gradual process of religious and social change As the men responsible for religious instruction and moral oversight at the village level parish pastors played a key role in the implementation of the Reformation and the gradual development of a Protestant religious culture but their ministry has seldom been examined in the light of how they were prepared for the pastorate Teaching the Reformation examines the four generations of Reformed pastors who served the church of Basel in the century after the Reformation focusing on the evolution of pastoral training and Reformed theology the theory and practice of preaching and the performance of pastoral care in both urban and rural parishes It looks at how these pastors were educated and what they learned examining not only the study of theology but also the general education in languages rhetoric and dialectic that future pastors received at the city's Latin school and in the arts faculty of the

university It points to significant changes over time in the content of that education which in turn separated Basels pastors into distinct generations The study also looks more specifically at preaching in Basel demonstrating how the evolution of dialectic and rhetoric instruction and particularly the spread of Ramism led to changes in both exegetical method and homiletics These developments combined with the gradual elaboration of Reformed theology resulted in a distinctive style of Reformed Orthodox preaching in Basel The development of pastoral education also had a direct impact on how Basels clergy carried out their other duties catechization administering the sacraments counseling the dying and consoling the bereaved and overseeing the moral conduct of their parishioners The growing professionalization of the clergy the result of more intensive education and more stringent supervision contributed to the gradual implantation of a Reformed religious culture in Basel

**The Post-Reformation** John Spurr, 2014-06-11 The 17th century was a dynamic period characterized by huge political and social changes including the Civil War the execution of Charles I the Commonwealth and the Restoration The Britain of 1714 was recognizably more modern than it was in 1603 At the heart of these changes was religion and the search for an acceptable religious settlement which stimulated the Pilgrim Fathers to leave to settle America the Popish plot and the Glorious Revolution in which James II was kicked off the throne This book looks at both the private aspects of human beliefs and practices and also institutional religion investigating the growing competition between rival versions of Christianity and the growing expectation that individuals should be allowed to worship as they saw fit

*Preaching Christology in the Roman Near East* Philip Michael Forness, 2018-10-18 Preaching formed one of the primary regular avenues of communication between ecclesiastical elites and a wide range of society Clergy used homilies to spread knowledge of complex theological debates prevalent in late antique Christian discourse Some sermons even offer glimpses into the locations in which communities gathered to hear orators preach Although homilies survive in greater number than most other types of literature most do not specify the setting of their initial delivery dating and authorship *Preaching Christology in the Roman Near East* addresses how we can best contextualize sermons devoid of such information The first chapter develops a methodology for approaching homilies that draws on a broader understanding of audience as both the physical audience and the readership of sermons The remaining chapters offer a case study on the renowned Syriac preacher Jacob of Serugh c 451-521 whose metrical homilies form one of the largest sermon collections in any language from late antiquity His letters connect him to a previously little known Christological debate over the language of the miracles and sufferings of Christ through his correspondence with a monastery a Roman military officer and a Christian community in South Arabia He uses this language in homilies on the Council of Chalcedon on Christian doctrine and on biblical exegesis An analysis of these sermons demonstrates that he communicated miaphysite Christology to both elite reading communities as well as ordinary audiences Philip Michael Forness provides a new methodology for working with late antique sermons and discloses the range of society that received complex theological teachings through preaching

Gible, 1992 *English Puritanism* John Spurr, 1998-08-26 The Puritans of seventeenth century England have been blamed for everything from the English civil war to the rise of capitalism But who were the Puritans of Stuart England Were they apostles of liberty who fled

Stark, 2022-10-10 The Old Testament is transformed from problem to ally when preachers attend to power at work in ancient and modern contexts by mirroring Second Isaiah's proclamation listening to contemporary servant Israel and learning from African American preaching in context of domination This book analyses the impact of domination on Old Testament proclamation and thus leads to several unique contributions Firstly it reads Second Isaiah as a homiletic model for proclaiming older pre-exilic texts in response to exilic domination Secondly it treats the Old Testament as a rich resource for confronting racism and anti-Semitism though teaching and it introduces contemporary Christian Jewish dialogue in Germany as a model for the Church Lastly it highlights preaching traditions within the African American Church as instructive for formulating an effective Old Testament preaching strategy *Jacob & Esau* Malachi Haim Hacohen, 2019-01-10 *Jacob and Esau* is a profound new account of two millennia of Jewish European history that for the first time integrates the cosmopolitan narrative of the Jewish diaspora with that of traditional Jews and Jewish culture Malachi Haim Hacohen uses the biblical story of the rival twins Jacob and Esau and its subsequent retelling by Christians and Jews throughout the ages as a lens through which to illuminate changing Jewish Christian relations and the opening and closing of opportunities for Jewish life in Europe *Jacob and Esau* tells a new history of a people accustomed for over two and a half millennia to forming relationships real and imagined with successive empires but eagerly adapting in modernity to the nation state and experimenting with both assimilation and Jewish nationalism In rewriting this history via Jacob and Esau the book charts two divergent but intersecting Jewish histories that together represent the plurality of Jewish European cultures *Preaching in Judaism and Christianity* Alexander Deeg, Walter Homolka, Heinz-Günther Schöttler, 2008 Main description It is a widespread idea that the roots of the Christian sermon can be found in the Jewish Derasha But the story of the interrelation of the two homiletical traditions Jewish and Christian from New Testament times to the present day is still untold This book offers the papers of the first international conference

Bamberg Germany 6th to 8th March 2007 which brought together Jewish and Christian scholars to discuss Jewish and Christian homiletics in their historical development and relationship and to sketch out common homiletical projects
