What Is the Present? Michael North, 2025-06-17 A provocative new look at concepts of the present their connection to ideas about time and their effect on literature art and culture The problem of the present what it is and what it means is one that has vexed generations of thinkers and artists Because modernity places so much value on the present many critics argue that people today spend far too much time in the here and now but how can we tell without first knowing what the here and now actually is What Is the Present takes a provocative new look at this moment in time that remains a mystery even though it is always with us Michael North tackles puzzles that have preoccupied philosophy neuroscience psychology history and aesthetic theory and examines the complex role of the present in painting fiction and film He engages with a range of thinkers from Aristotle and Augustine to William James and Henri Bergson He draws illuminating examples from artists such as Fra Angelico and Richard McGuire filmmakers like D W Griffith and Christopher Nolan and novelists such as Elizabeth Bowen and Willa Cather North offers a critical analysis of previous models of the present from the experiential present to the historical period we call the contemporary He argues that the present is not a cosmological or experiential fact but a metaphor a figurative relationship with the whole of time Presenting an entirely new conception of the temporal mystery Georg Lukacs called the unexplained instant What Is the Present explores how the arts have traditionally represented the present and also how artists have offered radical alternatives to that tradition *An Universal History, from the Earliest Account of Time to the Present*, 1740 *The Present State of the Republick of Letters. ...*, 1730 **The Present State of Turkey; Or a Description of the Political, Civil, and Religious, Constitution, Government, and Laws of the Ottoman Empire; (etc.)** 2. far as it is relative to the colonies, and the African trade Thomas Carney, Robert Vaughan, 2023-07-10 Considerations on the Present Peace as Far as It is Relative to the Colonies and the African Trade is a compelling anthology that captures the variegated responses to imperialism's complex entanglements. The collection fuses an array of literary styles ranging from poignant essays to incisive critiques, all unified by a rigorous examination of colonial dynamics and trade implications. A remarkable mosaic of narratives, it foregrounds pressing discussions on the ethics of power, trade, and cultural identity while provocatively questioning the costs of economic diplomacy. Among its pieces, an eloquent argument weaves together the tensions between peace and commerce alongside a searing exploration of colonial reciprocity. Thomas Carney and Robert Vaughan, the editors, have curated a thought-provoking ensemble that consists of authors deeply embedded in the socio-political landscapes they describe. The contributors hail from diverse backgrounds, embodying rich historical narratives and intersecting cultural insights that align with the Enlightenment's broader intellectual currents. By engaging with the thematic intersections of colonial policy and moral responsibility, these writings present a nuanced understanding of global influence and ethical trade practices. This anthology is essential for readers seeking thorough insights into colonial and trade relationships set against a historical backdrop. The kaleidoscopic range of perspectives offered creates a formidable dialogue that challenges prevailing assumptions, making it an invaluable resource for those interested in the multifaceted narratives of empire and commerce. Readers are encouraged to engage deeply with the collection to enhance their comprehension of past and present global dynamics, gaining educational richness and a broader worldview through these expertly curated narratives. *The History of Dunfermline, from the Earliest Records, Down to the Present Time, Including Historical Notices and Present State of the Parishes of Inverkeithing, Dalgety, Aberdour, Beath, Torryburn, Carnock, & Saline* A. Psychoanalysis and the Postmodern Impulse Barnaby B. Barratt,2015-11-06 According

to the author psychoanalytic theory and practice which discloses the interminable falsity of the human subject's belief in the mastery of its own mental life is in part responsible for the coming of the postmodern era. In this title originally published in 1993 Barratt examines the role of psychoanalysis in what he sees as the crisis of modernism, shows why the modernist position, what he calls the modern episteme, is failing, and proposes that psychoanalysis should redefine itself as a postmodern method. In Barratt's innovative account of psychoanalysis, which focuses on the significance of the free associative process, Freud's discovery of the repressed unconscious leads to a claim that is basic to postmodern ideas: that all thinking and speaking, the production and reproduction of psychic reality, is inherently dynamic, polysemous, and contradictory. He argues that subsequent attempts to normalize and systematize psychoanalysis are reactionary and antipsychoanalytic efforts to salvage the modern episteme that psychoanalysis itself calls into question.
