The Present And Future Of Religion:

The Present and Future of Religion Cyril Edwin Mitchinson Joad,1930 **The Future of Religion and the Religion of the Future** Theodore John Rivers,2011-11-25 In *The Future of Religion and the Religion of the Future* Theodore John Rivers explores the changing relationship between technology and religion Rivers draws upon his expertise in the fields of medieval and religious history to discuss how the promotion of Christianity and monasticism in the Middle Ages began a process that has lent religious undertones to the way in which we interact with modern technology Rivers ultimately suggests that the growing presence of technology makes it a likely candidate for the next religious form competing with all the major religions in place today **The Future of Religion** Michael R. Ott,2007 This book contains the work of international scholars who address the contemporary globalizing antagonism between religion and secularity in the theoretical and practical pursuit for this antagonism s reconciliation in a more just humane and peaceful future society and world **The Religion of the Future** Roberto Mangabeira Unger,2016-10-25 A new philosophy of religion for a secular world How can we live in such a way that we die only once How can we organize a society that gives us a better chance to be fully alive How can we reinvent religion so that it liberates us instead of consoling us These questions stand at the center of Roberto Mangabeira Unger s *The Religion of the Future* an argument for both spiritual and political revolution It proposes the content of a religion that can survive without faith in a transcendent God or in life after death According to this religion the religion of the future human beings can be more human by becoming more godlike not just later in another life or another time but right now on Earth and in their own lives They can become more godlike without denying the irreparable flaws in the human condition our mortality groundlessness and insatiability *Past, Present, and Future* James Edson White,1909 *The Nation and the Athenaeum* ,1929 **The Past, Present and Future of the Negro** Ali Soliman,1926 **Pluralism: The Future of Religion** Kenneth Rose,2013-03-28 Theology of religions has defaulted in the last two decades to an epicyclic inclusivism which seeks to undermine pluralism with claims that it is covertly triumphalistic and that it mirrors the logic of exclusivism With the exception of pioneers in the field such as John Hick and Paul Knitter most major figures in this theological field have retreated from pluralism and promote versions of particularism and inclusivism Pluralism *The Future of Religion* argues for an apophatic pluralism that is motivated by the insight that it is impossible to secure universal assent for changeable bodies of religious teachings This insight implies the non finality and consequent depicularization of all religious teachings and their inclusivistic defenses These conclusions point us inevitably toward pluralism and lead us out of the inclusivistic impasse of contemporary theology in religions *The Present Future* Reggie McNeal,2009-03-23 In this provocative book author consultant and church leadership developer Reggie McNeal debunks these and other old assumptions and provides an overall strategy to help church leaders move forward in an entirely different and much more effective way In *The Present Future* McNeal identifies the six most important realities that church leaders must address

including recapturing the spirit of Christianity and replacing church growth with a wider vision of kingdom growth developing disciples instead of church members fostering the rise of a new apostolic leadership focusing on spiritual formation rather than church programs and shifting from prediction and planning to preparation for the challenges of an uncertain world McNeal contends that by changing the questions church leaders ask themselves about their congregations and their plans they can frame the core issues and approach the future with new eyes new purpose and new ideas **The Religion of the Future** Eduard von Hartmann,1886 Journal of the ... The Non-religion of the Future: A Sociological Study Jean-Marie Guyau,2015-01-09 Example in this ebook I Sociality the basis of religion Its definition I We shall meet in the course of this work many different definitions that have at one time or another been given to religion Some were assigned from the point of view of physics others from that of metaphysics others from that of morals almost none from that of sociology And yet upon closer scrutiny the notion of a social bond between man and the powers superior to him but resembling him is precisely the point in which all religious conceptions are at one Man becomes truly religious in our judgment only when above the human society in which he lives he superimposes in his scheme of the world another society more powerful and more cultured a universal and so to speak a cosmic society The sphere of sociality which is one of the characteristics of humanity must be enlarged till it reaches to the stars Sociality is the firm foundation of the religious sentiment and a religious being might be defined as a being disposed to be sociable not only with all living creatures with whom experience makes him acquainted but also with the creatures of thought with whom he peoples the world That religion consists essentially in the establishment of a bond at first mythical and subsequently mystic in the first instance between man and the forces of the universe then between man and the universe itself and ultimately between man and the elements of the universe is distinctly the outcome of every study of religion but what we wish especially here to consider is the precise way in which this bond has been conceived Well it may appear more clearly at the close of this inquiry the religious bond has been conceived ex analogia societatis human the relations amicable and inimical of men to each other were employed first for the explanation of physical phenomena and natural forces then for the metaphysical explanation of the world of its creation conservation and government in short sociological laws were universalized and the state of war or peace which existed among men families tribes and nations was conceived as existing also among the volitions which were fancied to exist beneath or beyond the forces of nature A mythic or mystic sociology conceived as containing the secret of all things lies at the basis of all religions Religion is not simply the expression of an anthropomorphism animals and fantastic beings of various sorts have played no inconsiderable r le in different cults it is an imaginative extension a universalization of all the good or evil relations which exist among conscious beings of war and peace friendship and enmity obedience and rebellion protection and authority submission fear respect devotion love religion is a universal sociomorphism Social relations with animals with the dead intellectual and social relations with good and evil genii with the forces of nature

are nothing more nor less than various forms of this universal sociology in which religion has sought to find the reason of things of physical phenomena such as thunder storm sickness death as well as of metaphysical relations the origin and destiny of things and of moral relations virtue vice law and sanction To be continue in this ebook *Journal of the ... Convention of the Diocese of New York* Episcopal Church. Diocese of New York,1914 *Unity* ,1925 Is Vedanta The Future Religion?
