The Primary Language Of Poetry In The 1640s

C. A. Patrides, Raymond B. Waddington

The Primary Language Of Poetry In The 1640s:

The Primary Language of Poetry in the 1640's Josephine Miles, 1948 Examining 20 poets and their poetry of the 1640s with relation to the prose of that period etc New Critical Nostalgia Christopher Rovee, 2024-01-02 New Critical Nostalgia weighs the future of literary study by reassessing its past It tracks today's impassioned debates about method back to the discipline's early professional era when an unprecedented makeover of American higher education with far-reaching social consequences resulted in what we might call our first crisis of academic life Rovee probes literary study's nostalgic attachments to this past by recasting an essential episode in the historiography of English the vigorous rejection of romanticism by American New Critics in the new light of the American university's tectonic growth In the process he demonstrates literary study's profound investment in romanticism and reveals the romantic lyric's special affect nostalgia as having been part of English's professional identity all along New Critical Nostalgia meticulously shows what is lost in reducing mid-century American criticism and the intense quirky and unpredictable writings of central figures such as Cleanth Brooks Josephine Miles and W K Wimsatt to a glib monolith of New Critical anti-romanticism In Rovee's historically rich account grounded in analysis of critical texts and enlivened by archival study readers discover John Crowe Ransom's and William Wordsworth's shared existential nostalgia witness the demolition of the immature Percy Shelley in the revolutionary textbook *Understanding Poetry* explore the classroom give and take prompted by the close reading of John Keats consider the strange ambivalence toward Lord Byron on the part of formalist critics and romantic scholars alike and encounter the strikingly contemporary quantitative studies by one of the mid-century's preeminent poetry scholars Josephine Miles These complex and enthralling engagements with the romantic lyric introduce the reader to a dynamic intellectual milieu in which professionals with varying methodological commitments from New Critics to computationalists working in radically different academic locales from Nashville and New Haven to Baton Rouge and Berkeley wrangled over what it means to read with nothing less than the future of the discipline at stake American and British Poetry Harriet Semmes Alexander, 1984

showing how students helped write foundational works of literary criticism and how English classes at community colleges and HBCUs pioneered the reading methods and expanded canons that came only belatedly to the Ivy League It reminds us that research and teaching which institutions often imagine as separate have always been intertwined in practice In a contemporary moment of humanities defunding the casualization of teaching and the privatization of pedagogy The Teaching Archive offers a more accurate view of the work we have done in the past and must continue to do in the future
