The Prince A Revised Translation Backgrounds Interpretations Marginalia

Robert Keith Sawyer, Danah Henriksen

The Prince A Revised Translation Backgrounds Interpretations Marginalia:

The Prince Robert Martin Adams,1992 *The Prince* Niccolò Machiavelli,1992 *Deep Republicanism* Donald C. Hodges,2008-01-01 *Deep Republicanism* Prelude to Professionalism reveals a subversive republicanism in Machiavelli's political theories that is at odds with the demoliberalism often perceived as his primary political agenda It also establishes the importance of this republican agenda in understanding the major revolutions of the modern world *The Poetics of Fear* Chris Erickson,2010-05-05 *The Poetics of Fear* looks at how fear is used for political purposes focusing on the binary logic of this is the way things are and there is nothing else you can do about it a logic that underlies the realist tradition in international relations theory The Shield of Achilles from Homer's Iliad is used as metaphorical analysis to look at what the politics of fear is how it works and how it can be resisted It aims to provide a human response to human security matters The work first shows how the Shield works to paralyze its audience How can it be resisted One response is to offer a warning about the hazards of bearing the Shield After looking at thinkers such as Plato Baudrillard and Nietzsche the work concludes with an examination of ekphrasis as a critical tool With a unique and fresh perspective *The Poetics of Fear* will be relevant to those interested in security studies and critical theoretical approaches to political science *Isabella d'Este and Francesco Gonzaga* Sarah D.P. Cockram,2016-05-13 In the first book systematically to give evidence of conjugal co rule at an Italian Renaissance court and the first full length scholarly study of Isabella d'Este and Francesco Gonzaga Sarah Cockram shows their relationship in an entirely new light The book draws on and presents a large amount of unpublished archival material including almost unprecedented surviving correspondence between and around these Renaissance princely rulers Using these sources Cockram shows Isabella and Francesco's strategic teamwork in action illuminating tactics of collaboration and dissimulation She also reveals behind the scenes diplomatic activity court procedures sexual politics and seduction gift giving and network building rivalries intrigues and assassinations Several epistolary themes emerge insights into the couple's communication practices and double dealing their use of intermediaries and attention to security matters This book's analysis of Isabella's co rule with her husband supported by other members of the Gonzaga dynasty sees her sometimes in the role of subordinate partner sometimes guiding the couple's actions It shows how despite appearances at times the couple shared common diplomatic policy as well as human material and cultural resources joint administration and the exercise of authority and justice Thus emerges a three dimensional picture of the mechanisms of power and power sharing in the age of Machiavelli **Kantian Business Ethics** Denis Gordon Arnold,Jared D. Harris,2012-01-01 In this original collection of essays a group of distinguished scholars critically examine the ethical dimensions of business using the Kantian themed business ethics of Norman E Bowie as a jumping off point the authors engage Bowie's influential body of scholarship as well as contemporary themes in business including topics such as the normative foundations of capitalism the applicability of Kantian ethics virtue ethics and pragmatism in normative business ethics meaningful work managerial ethics the ethics of

high leverage finance capitalism business ethics and corporate social responsibility and responsibility for the natural environment the contributors to this volume include both scholars sympathetic to Bowie's Kantian business ethics and scholars critical of that perspective As one of the foundational figures in the establishment and legitimization of the study of business ethics as a field of scholarship Bowie casts a long shadow over the field Over the last thirty years he has applied a distinctive Kantian approach to the analysis of problems in business ethics and his work has had a substantial impact on a wide range of theory and scholarship in the field Bowie argues in his work that economic value is not the only value that should inform managers executives and policy makers when making both business policy decisions and everyday management decisions He utilizes a Kantian framework to support the position that additional values such as human dignity and rational consistency should inform business practice and influence managerial decision making He also shows that business practices that include these additional values are consistent with sound management theory and that such businesses can be financially successful This volume of scholarly essays will be of considerable interest to students and scholars working in business ethics corporate social responsibility and organization studies

Italian Literature Before 1900 in English Translation Robin Healey, 2011-01-01 Italian Literature before 1900 in English Translation provides the most complete record possible of texts from the early periods that have been translated into English and published between 1929 and 2008 It lists works from all genres and subjects and includes translations wherever they have appeared across the globe In this annotated bibliography Robin Healey covers over 5 200 distinct editions of pre 1900 Italian writings Most entries are accompanied by useful notes providing information on authors works translators and how the translations were received Among the works by over 1 500 authors represented in this volume are hundreds of editions by Italy's most translated authors Dante Alighieri Niccolò Machiavelli and Giovanni Boccaccio and other hundreds which represent the author's only English translation A significant number of entries describe works originally published in Latin Together with Healey's Twentieth Century Italian Literature in English Translation this volume makes comprehensive information on translations accessible for schools libraries and those interested in comparative literature

Law after Modernity Sionaidh Douglas-Scott, 2013-04-30 How can we characterise law and legal theory in the twenty first century Law After Modernity argues that we live in an age after Modernity and that legal theory must take account of this fact The book presents a dynamic analysis of law which focusses on the richness and pluralism of law on its historical embeddedness its cultural contingencies as well as acknowledging contemporary law's global and transnational dimensions However Law After Modernity also warns that the complexity fragmentation pluralism and globalisation of contemporary law may all too easily perpetuate injustice In this respect the book departs from many postmodern and pluralist accounts of law Indeed it asserts that the quest for justice becomes a crucial issue for law in the era of legal pluralism and it investigates how it may be achieved The approach is fresh contextual and interdisciplinary and unusually for a legal theory work is illustrated

throughout with works of art and visual representations which serve to re enforce the messages of the book **Seeking Real Truths: Multidisciplinary Perspectives on Machiavelli** Patricia Vilches, Gerald Seaman, 2007-07-30 The thought and influence of Machiavelli have had a significant impact on a variety of academic disciplines including political science and government history literature language theatre and philosophy Rather than inscribe Machiavelli within the boundaries of a single academic approach tradition or discourse this volume assembles multidisciplinary perspectives on his writings on government on his creative works and on his legacy The result is intended to appeal at once to generalists seeking baseline knowledge of Machiavelli and to specialists who are interested in critical views of Machiavelli that use a broad lens and that approach their subject from different angles Contributors include Susan Ashley Salvatore Bizzarro Julia Bondanella JoAnn Cavallo Salvatore Di Maria Marie Gaille Nikodimov Eugene Garver Joseph Khoury William Klein Sante Matteo Gerry Milligan RoseAnna Mueller John Roe Gerald Seaman Charles Tarlton Patricia Vilches and Mary Walsh **Ethics** Dietrich Bonhoeffer, 2009 Called by Karl Barth the brilliant Ethics of Dietrich Bonhoeffer this book is finally being recognized as Bonhoeffer's magnum opus and one of the most important works of Christian ethics of the last century Presented here in a new translation and a striking new arrangement it is based on intensive study of the original manuscripts and includes copious historical notes and commentary Written in the midst of the conspiracy to overthrow the Hitler regime it is nonetheless chiefly concerned with ethics for the postwar time of reconstruction and peace Focused on Christ the God who became human and the vision of a world reconciled with God the Ethics shuns abstraction seeks the will of God in concrete historical reality and calls the church to be a transforming community in the world with a new responsibility in public life

Fortune and the Dao Jason P. Blahuta, 2015-04-16 Times of prolonged conflict spur great minds to seek a lasting peace Thus was the case of Warring States China which saw the rise of the Hundred Schools of Thought including the Daojing and the Han Feizi and Renaissance Italy which produced Niccol Machiavelli Witnessing their respective societies fall prey to internal corruption and external aggression all three thinkers sought ways to produce a strong stable state that would allow both the leader and the populace to endure Fortune and the Dao A Comparative Study of Machiavelli the Daojing and the Han Feizi demonstrates where the shortcomings of each theory lie with emphasis on the similarities among Machiavelli Laozi and Han Feizi Jason P Blahuta ultimately argues that if Machiavelli's philosophy the most comprehensive of the three theories were supplemented by aspects of the Daojing the revision would potentially overcome the deficiencies of the original *The Rhetoric of Exemplarity in Early Modern England* Michael Ulliot, 2022-03-03 In this study Michael Ulliot makes two new arguments about the rhetoric of exemplarity in late Elizabethan and Jacobean culture first that exemplarity is a recursive cycle driven by rhetoricians words and readers actions and second that positive moral examples are not replicable but rather aspirational models of readers posthumous biographies For example Alexander the Great envied Achilles less for his exemplary life than for Homer's account of it Ulliot defines the three types of decorum on which

exemplary rhetoric and imitation rely and charts their operations through Philip Sidney's poetics Edmund Spenser's poetry and the dedications sermons elegies biographies and other occasional texts about Robert Devereux second earl of Essex and Henry Prince of Wales Ulliot expands the definition of occasional texts to include those that criticize their circumstances to demand better ones and historicizes moral exemplarity in the contexts of sixteenth century Protestant memory and humanist pedagogy *The Rhetoric of Exemplarity in Early Modern England* concludes that all exemplary subjects suffer from the problem of metonymy the objection that their chosen excerpts misrepresent their missing parts This problem also besets historicist literary criticism ever subject to corrections from the archive so this study concedes that its own rhetorical methods are exemplary

A Treatise on Northern Ireland, Volume I Brendan O'Leary, 2019-04-04 This first volume in *A Treatise on Northern Ireland* illuminates how British colonialism shaped the formation and political cultures of what became Northern Ireland and the Irish Free State Contrasting colonial and sectarianized accounts of modern Irish history Brendan O'Leary shows that a judicious meld of these perspectives provides a properly political account of direct and indirect rule and of administrative and settler colonialism The British state incorporated Ulster and Ireland into a deeply unequal Union after four reconquests over two centuries had successively defeated the Ulster Gaels the Catholic Confederates the Jacobites and the United Irishmen and their respective European allies Founded as a union of Protestants in Great Britain and Ireland rather than of the British and the Irish nations the colonial and sectarian Union was infamously punctured in the catastrophe of the Great Famine The subsequent mobilization of Irish nationalists and Ulster unionists and two republican insurrections amid the cataclysm and aftermath of World War I brought the now partly democratized Union to an unexpected end aside from a shrunken rump of British authority baptized as Northern Ireland Home rule would be granted to those who had claimed not to want it after having been refused to those who had ardently sought it The failure of possible federal reconstructions of the Union and the fateful partition of the island are explained and systematically compared with other British colonial partitions Northern Ireland was invented in accordance with British interests to resolve the hereditary animosities between the descendants of Irish natives and British settlers in Ireland In the long run the invention proved unfit for purpose Indispensable for explaining contemporary institutions and mentalities this volume clears the path for the intelligent reader determined to understand contemporary Northern Ireland

Ovid in French Helena Taylor, Fiona Cox, 2023 This collection of essays examines the ways Ovid's diverse oeuvre has been translated rewritten adapted and responded to by a range of French and Francophone women from the Renaissance to the present It aims to reveal lesser known voices in Ovidian reception studies and to offer a wider historical perspective on the complex question of Ovid and gender Ranging from Renaissance poetry to contemporary creative criticism it charts an understudied strand of reception studies emphasizing how a longer view allows us to explore and challenge the notion of a female tradition of Ovidian reception The range of genres analysed here poetry verse and prose translation theatre epistolary fiction autofiction

autobiography film creative critique and novels also reflect the diversity of the Ovidian texts in reception from the *Heroides* to the *Metamorphoses* from the *Amores* to the *Ars Amatoria* from the *Tristia* to the *Fasti* The study brings an array of critical approaches to bear on well known authors such as George Sand Julia Kristeva and Marguerite Yourcenar as well as less known figures from contemporary writer Linda L to the early modern Catherine and Madeline Des Roches exploring exile identity queerness displacement voice expectations of modesty the poetics of translation and the problems posed by Ovid's eroticized violence to name just some of the volume's rich themes The epilogue by translator and novelist Marie Cosnay points towards new eco critical and creative directions in Ovidian scholarship and reception Students and scholars of French Studies Classics Comparative Literature and Translation Studies will find much to interest them in this diverse collection of essays

Kant and the Scottish Enlightenment Elizabeth Robinson, Chris W. Surprenant, 2017-06-26 Most academic philosophers and intellectual historians are familiar with the major historical figures and intellectual movements coming out of Scotland in the 18th Century These scholars are also familiar with the works of Immanuel Kant and his influence on Western thought But with the exception of discussion examining David Hume's influence on Kant's epistemology metaphysics and moral theory little attention has been paid to the influence of the Scottish Enlightenment thinkers on Kant's philosophy This volume aims to fill this perceived gap in the literature and provide a starting point for future discussions looking at the influence of Hume Thomas Reid Adam Smith and other Scottish Enlightenment thinkers on Kant's philosophy

Explaining Creativity Robert Keith Sawyer, Danah Henriksen, 2024 Genius Invention Talent And of course creativity These words describe the highest levels of human performance When we're engaged in the act of being creative we feel we are performing at the peak of our abilities Creative works give us insight and enrich our lives Creativity is part of what makes us human Our nearest relatives chimpanzees and other primates are often quite intelligent but never reach these high levels of performance
