called Han at the pinnacle of modernization and civilization and most other groups as Oprimitive O In post socialist China popular conceptions of self person and nation intersect with political and scholarly concerns with identity sometimes contradicting them and sometimes reinforcing them In Portraits of OPrimitives O Susan D Blum explores how Han in the city of Kunming in southwest China regard ethnic minorities and by extension themselves She sketches Oportraits O or cognitive prototypes of ethnic groups in a variety of contexts explaining the perceived visibility of each group which almost never correlates with size of population Ideas of OHannessO can be understood in part through Han desire to identify unique characteristics in ethnic minorities and also through Han celebration of the differences that distance minorities The book considers questions of identity alterity and self in the context of a complex nation state employing methods from linguistic anthropology and psychological anthropology as well as other forms of cultural analysis Providing nuanced views of relationships among political scholarly and popular models of identity this book will be an invaluable guide for those working in China studies anthropology and ethnic studies

**Tepoztlán and the Transformation of the Mexican State** JoAnn Martin, 2022-09-13 During the 1980s and 90s Mexico weathered an economic crisis witnessed electoral upheaval and saw the dismantling of state subsidies to farmers and the privatization of nationally owned industries This book considers how popular movements found fresh footing in this new political economic landscape as villagers in Tepoztl n fought to keep communal lands out of the hands of outsiders the state and increasingly global capitalists Examining social movement politics from the margins rather than the center JoAnn Martin revisits the famous Redfield Lewis debate on Tepoztl n to argue that the gossip seen by Oscar Lewis as undermining community coherence is really a form of political practice During more than fifteen years of research she observed the metamorphosis of a movement founded as a revolutionary popular struggle into what she terms a politics of loose connections in which temporary alliances flexible identities and shifting rhetoric are adapted to the demands of the moment Martin examines contemporary land struggles with an emphasis on the Comit para la Defensa de Tierra and its attempts to weave together strands of an invented tradition contemporary agrarian reform law and revolutionary ideology She shows how Tepoztecan politics borrows discourses from the Mexican state she then tells how this process shaped local politics in the midst of the contested 1988 national presidential election when local actors elaborated a discourse of democracy as a technique for disciplining gossip and in 1991 when Tepozteicans began to draw on the support of international environmental NGOs Throughout her analysis Martin explores how Tepoztecan politics unfolds in the climate of mistrust first nurtured by the role of the state in local politics and later by the demands of working with U S and Western European environmentalists Martin shows that the politics of loose connections is above all else a style of political participation that has proved adaptive in the contemporary political landscape and that understandings of politics have been dogged by a conception of connections that may well be obsolete in the contemporary world Her study is a balanced re evaluation of Tepoztl n that reveals how politics succeeds through loose connections a strategy that may be instructive for

others seeking to survive in either local or global coalitions
