The Principle of Hope, Volume 1 Ernst Bloch, 1995-05-26 The Principle of Hope is one of the great works of the human spirit It is a critical history of the utopian vision and a profound exploration of the possible reality of utopia Even as the world has rejected the doctrine on which Bloch sought to base his utopia his work still challenges us to think more insightfully about our own visions of a better world The Principle of Hope is published in three volumes Volume 1 lays the foundations of the philosophy of process and introduces the idea of the Not Yet Conscious the anticipatory element that Bloch sees as central to human thought It also contains a remarkable account of the aesthetic interpretations of utopian wishful images in fairy tales popular fiction travel theater dance and the cinema Volume 2 presents the outlines of a better world It examines the utopian systems that progressive thinkers have developed in the fields of medicine painting opera poetry and ultimately philosophy It is nothing less than an encyclopedic account of utopian thought from the Greeks to the present Volume 3 offers a prescription for ways in which humans can reach their proper homeland where social justice is coupled with an openness to change and to the future

**The Oxford Handbook of Hope** Matthew W. Gallagher,Shane J. Lopez,2018 Hope has long been a topic of interest for psychologists philosophers educators and physicians In the past few decades researchers from various disciplines and from around the world have studied how hope relates to superior academic performance improved outcomes in the workplace and improved psychological and physical health in individuals of all ages Edited by Matthew W Gallagher and the late Shane J Lopez The Oxford Handbook of Hope provides readers with a thorough and comprehensive update on the past 25 years of hope research while simultaneously providing an outline of what leading hope researchers believe the future of this line of research to be In this extraordinary volume Gallagher Lopez and their expert team of contributors discuss such topics as how best to define hope how hope is distinguished from related philosophical and psychological constructs what the current best practices are for measuring and quantifying hope interventions and strategies for promoting hope across a variety of settings the impact it has on physical and mental health and the ways in which hope promotes positive functioning Throughout its pages these experts review what is currently known about hope and identify the topics and questions that will help guide the next decade of research ahead      **Contingency in International Law** Ingo Venzke,Kevin Jon Heller,2021-04-22 This book poses a question that is deceptive in its simplicity could international law have been otherwise Today there is hardly a serious account left that would consider the path of international law to be necessary and that would refute the possibility of a different law altogether But behind every possibility of the past stands a reason why the law developed as it did Only with a keen sense of why things turned out the way they did is it possible to argue about how the law could plausibly have turned out differently The search for contingency in international law is often motivated as it is in this volume by a refusal to resign to the present state of affairs By recovering past possibilities this volume aims to inform projects of transformative legal change for the future The book situates that search for contingency theoretically and carries it into practice across many fields with chapters discussing human rights and armed conflict migrants and refugees the sea and natural resources foreign investments and trade In doing so it shows how politically charged questions about contingency have always been      *Politics of Fear, Practices of Hope* Stefan Skrimshire,2011-11-03 Politics of Fear Practices of Hope is about the relationship between two hugely influential ideas in political life fear and hope How are cultures of resistance nurtured within an environment of paranoia and social paralysis Stefan Skrimshire argues that grass roots responses to a politics of fear coincide with an

explosion of interest in the quasi religious themes of apocalypse eschatology and utopia in cultural life Where visions of a better future are replaced by the acceptance of a fearful present a state of war with no end this is an important examination of the beliefs that underpin our capacity to hope

**A Larger Hope?, Volume 1** Ilaria L. E. Ramelli, 2019-07-15 In the minds of some universal salvation is a heretical idea that was imported into Christianity from pagan philosophies by Origen c 185 253 4 Ilaria Ramelli argues that this picture is completely mistaken She maintains that Christian theologians were the first people to proclaim that all will be saved and that their reasons for doing so were rooted in their faith in Christ She demonstrates that in fact the idea of the final restoration of all creation apokatastasis was grounded upon the teachings of the Bible and the church s beliefs about Jesus total triumph over sin death and evil through his incarnation crucifixion resurrection and ascension Ramelli traces the Christian roots of Origen s teaching on apokatastasis She argues that he was drawing on texts from Scripture and from various Christians who preceded him theologians such as Bardaisan Irenaeus and Clement She outlines Origen s often misunderstood theology in some detail and then follows the legacy of his Christian universalism through the centuries that followed We are treated to explorations of Origenian universal salvation in a host of Christian disciples including Athanasius Didymus the Blind the Cappadocian fathers Evagrius Maximus the Confessor John Scotus Eriugena and Julian of Norwich

Thinking Revolution Through Film Hanno Berger, 2022-09-20 This book aims to redefine the relationship between film and revolution Starting with Hannah Arendt s thoughts on the American and French Revolution it argues that from a theoretical perspective revolutions can be understood as describing a relationship between time and movement and that ultimately the spectators and not the actors in a revolution decide its outcome Focusing on the concepts of time movement and spectators this study develops an understanding of film not as a medium of agitation but as a way of thinking that relates to the idea of historicity that opened up with the American and French Revolution a way of thinking that can expand our very notion of revolution The book explores this expansion through an analysis of three audiovisual stagings of revolution Abel Gance s epic on the French Revolution Napol on Warren Beatty s essay on the Russian Revolution Reds and the miniseries John Adams about the American Revolution The author thereby offers a fresh take on the questions of revolution and historicity from the perspective of film studies

**A Hopeful Political Imagination**

Oscar Guardiola-Rivera, 2025-09-18 Bringing political criticism a variety of theoretical approaches and the author's concrete experiences together this book offers a political definition of hope as a utopian signifier rooted in concrete processes of historical differentiation Oscar Guardiola Rivera addresses the problem of current limitations to the exercise of political imagination which severely contain encrypt and obscure our vision of social alternatives and normative possibilities While grounding ethical and political stances on liberation philosophy and the anthropology of visual systems A Hopeful Political Imagination Courage and Fantastic Critique in the Age of Meltdown engages in dialogue with theories of encryption a legality and the critique of anthropological absolutism coming from decolonial and ecological approaches It allows us to understand decryption as reversing encrypting linguistic and spatial processes in modernity and proposes a new approach called fantastic critique to reinvent the dynamics of power judgement time and the imagination based on historical literary and philosophical examples This book recovers and reimagines principles of hope and courage as republican ethical virtues of revelation of what is figured and made in movement together for practical action

**Bygone Utopias and Farm Protest**

**in the Rural Midwest** Daniel Jaster, 2021-04-09 This book explores those who long for bygone utopias times before rapid culturally destructive social change stripped individuals of their perceived agency The case of the wave of foreclosure protests that swept through the rural American Midwest during the 1930s illustrates these themes These actions embodied a utopian understanding of agrarian society that had largely disappeared by the late 19th century hundreds to thousands of people fixed public auctions of foreclosed farms returning owners property and giving them a second chance to save their farm Comparisons to later movements including the National Farmers Organization and the protests surrounding the 1980s Farm Crisis highlight the importance of culturally catastrophic social change occurring at a breakneck pace in fomenting these types of bygone utopian actions These activists and movements should cause scholars to re think what it means to be conservative and how we view conservatism helping us better understand why we're seeing a contemporary resurgence in nationalist and reactionary movements across the globe

**An Unpromising Hope**

Thomas R. Gaulke, 2021-09-21 Written in a theopoetic key this book challenges Christian reliance on the motif of promise especially where promise is regarded as a prerequisite for the experience of hope It pursues instead an unpromising hope available to the agnostic or belief fluid members and leaders of faith communities The book rejects any theological judgement about doubt and hopelessness being sinful It also rejects any hope which is grounded in a sense of Christian supremacy Chapter 1 focuses on Ernst Bloch's antifascist concept of utopian surplus putting Bloch in conversation with queer theorist José Esteban Muñoz and womanist theologian M Shawn Copeland Chapter 2 explores the saudadic and theopoetic hope of Rubem Alves Chapter 3 turns to the womanist theologies of Delores Williams Emilie Townes and Elaine Brown Crawford Finally chapter 4 engages the post

colonial eschatology of Vtor Westhelle framing hope as nearby in space rather than nearby in time Each chapter offers an unpromising hope that may be tapped into by those who wish to affirm belief fluidity in their own communities and by those who wish to speak of hope honestly whether or not at any given moment they believe in God or in the promises of a god

**The Revival of Political Imagination** Teppo Eskelinen, 2020-07-23 The Revival of Political Imagination offers a unique examination of the methodological aspects of utopia Discussing utopia as a tool for social criticism method and imaginative spaces rather than in terms of its content this volume analyses the function of utopias to develop utopias as methodology and to show how instrumental utopian modes of thought can be in such diverse fields such as education labour and housing Including discussions of traditional and contemporary utopias as well as various forms of expression of utopian hope from literature to social science and cultural practices The Revival of Political Imagination is both analytical and practical in its elucidation of how political theory can function to foster our imaginative skills

**Post-Growth Planning** Federico Savini, António Ferreira, Kim von Schönfeld, 2022-05-18 This book draws on a wide range of conceptual and empirical materials to identify and examine planning and policy approaches that move beyond the imperative of perpetual economic growth It sketches out a path towards planning theories and practices that can break the cyclical process of urban expansion crises and recovery that negatively affect ecosystems and human lives To reduce the dramatic social and environmental impact of urbanization this book offers both a critique of growth led urban development and a refiguration of ecologically regenerative and socially just ways of organizing cities and regions It uncovers emerging possibilities for post growth planning in the fields of collective housing mobility urban commoning ecological land use urban rural symbiosis and alternative planning worldviews It provides a toolkit of concepts and real life examples for urban scholars urbanists activists architects and designers seeking to make cities prosper within planetary boundaries This book speaks to both experts and beginners in post growth thinking It concludes with a manifesto and glossary of key terms for urban scholars students and practitioners

**Unmasking Apocalyptic Texts** Dorothy Jonaitis, 2005 In this original and insightful book Dorothy Jonaitis offers a refreshing alternative to the popular view of biblical apocalyptic writing as gloom and doom fire and brimstone literature Rather she presents it as literature of hope and its authors as people who knew how to use their creative imaginations to communicate their hope filled messages The reader will come to see the apocalyptic authors of both the Old and the New Testaments as dramatists and will learn to preach teach and imagine their writings as dramatic messages to be applied in contemporary times of crisis

debates of Holocaust memory that suggest ways forward for the future      **Nowhere in the Middle Ages** Karma Lochrie, 2016-05-26 In *Nowhere in the Middle Ages* Lochrie reveals how utopian thinking was in fact somewhere in the Middle Ages In the process she transforms conventional readings of More's Utopia and challenges the very practice of literary history today      *Avicenna and the Aristotelian Left* Ernst Bloch, 2018-12-11 Ernst Bloch was one of the most significant twentieth century German thinkers yet he remains overshadowed by his Frankfurt School contemporaries Known for his engagement with utopianism and religious thought Bloch also wrote incisively about ontological questions In his short masterpiece *Avicenna and the Aristotelian Left* Bloch gives a striking account of materialism that traces emancipatory elements of modern thought to medieval Islamic philosophers encounter with Aristotle Bloch argues that the great medieval Islamic philosopher Avicenna Ibn Sina planted the seeds of a radical materialism still relevant for critical theory today He contrasts Avicenna's and Aquinas's interpretations of Aristotle on form and matter to argue that Avicenna's reading democratizes power and undermines clerical and political authority Bloch explores Avicenna's world and metaphysics in detail showing how even his most recondite theoretical concerns prove capable of pointing toward radical social transformation He blazes an original path through the history of ideas including Averroes Ibn Rushd Spinoza and Marx as well as lesser known figures Here translated into English for the first time *Avicenna and the Aristotelian Left* is at once a succinct summation of Bloch's own idiosyncratic materialism a provocative reconstruction of the Western philosophical tradition in light of its exchanges with Islamic thought and a vital resource for contemporary debates about materialism in critical theory      **The New Yale Book of Quotations** Fred R.
