Manet remains one of the most influential artists in history. Rejecting the classical style of painting religious or mythological subjects, Manet was one of the first artists in the nineteenth century to paint modern people in modern situations. Many of his paintings depicted the everyday street life of Paris, especially the cafés. The realism of his art offended the mainstream art community, and as a result, Manet's work was criticized as being obscene and unskilled. Despite the critics, paintings such as *The Luncheon on the Grass* and *Olympia* inspired the Impressionist movement and marked the beginning of modern art.

**Manet: Still-Life Paintings** George L. Mauner, 2001-01-01. Of all the paintings by the Impressionist master Edouard Manet, nearly one fifth are still lifes, a genre the artist himself considered the touchstone of painting. This sumptuous volume, published to accompany a landmark exhibition at the Walters Art Gallery in Baltimore and at the Musée d'Orsay in Paris, is the first major book to focus on this crucial aspect of Manet's work. Throughout his career, and especially later in his life, Manet devoted considerable energy to still lifes, producing oils, watercolors, and prints that unite exuberant personal expression with a flawless mastery of light and detail. With informative text, including an enlightening essay by Henri Loyrette, director of the Musée d'Orsay, *Manet: The Still Life Paintings* features lush, full-page colorplates, as well as full-bleed details of what some critics consider the finest examples of still life painting ever executed. The exhibition, this book, and accompanying materials have been organized by the American Federation of Arts and the Réunion des Musées Nationaux, Musée d'Orsay, Paris.

**Watchful Listening** Campbell Lewis Ewing, Édouard Manet, 2011. This thesis examines a selection of the prints and paintings produced in 1862 by Edouard Manet. My point of departure is works associated with his first retrospective, a portfolio of prints entitled *Huit gravures à l'eau forte*. Like most of Manet's printed works from this era, these reproduce either his or other artists' paintings. I discuss their interaction with contemporaneous or earlier paintings and other creative work in a variety of media, both by Manet and by his precursors, which share similar subject matter. I demonstrate that in these works, Manet was participating in the well-established early nineteenth-century practice of re-mediation, that is, the belief that art created for one medium can be recreated in another. The artist was developing new values for visual media through his rigorous re-interpretation of traditional ideas about reproduction in the fine arts. Manet's work in adapting and broadening the re-mediation process was shared with his avant-garde contemporaries. They were not simply translating a work from its original context into a new medium; they combined in a single creation art originating from a variety of media. The outcome of their endeavours was a work designed to engage a range of senses, intensifying its impact. The same outcome was sought by Manet. His works are redolent with references to non-visual elements. The practice appears to have originated in his commitment to representing music. He adopted a variety of mechanisms for manifesting the invisible presence of sound, usually musical sound. The representation of aural phenomena was an interest shared by his contemporaries, reflecting the pre-eminent status of the medium. Music determined Manet's subject matter in a number of key works. Many other early works call attention to experiences which, although unseen, are nevertheless available to the senses. These steer the viewer's

attention away from ostensible subject matter toward things and actions that are hidden implicit or somehow not visually present The visual operates as the work s superficial surface What the spectator could be induced to extrapolate by going beyond the purely visual is what gave these superficially uncomplicated images their unique resonance Manet was simulating synaesthetic experiences analogous to those striven for in the works of his contemporaries Wagner and Baudelaire
