Family Law and Personal Life John Eekelaar, 2006-11-30 How should our most intimate personal relationships be governed in a liberal society Should the state encourage a particular model of family life or support individuals in their pursuit of personal happiness To what extent do people have the right to shape the lives of their offspring This book examines the questions at the heart of family law rethinking the ideas that shape our understanding of the family as a social unit its purpose and the obligations and rights that belong to family members The book explores how the governance of personal relationships has depended on the exercise of power from the traditional assumptions of patriarchy where the male head of the family enjoyed full control over his dependents and descendants to the ideology of welfarism where state institutions protect the interests of the vulnerable at the expense of their close relations Emerging from these conflicting ideologies comes today's rights based culture where traditional expectations for behaviour within a family sit within a new emphasis on the ability of minorities and traditional dependents to determine the shape of their own lives Against this background of shifting power relations the book explores the interrelationship between the legal regulation of people's personal lives and the values of friendship truth respect and responsibility In doing this a variety of controversial issues are examined in the light of those values including the legal regulation of gay and unmarried heterosexual relationships freedom of procreation state supervision over the exercise of parenthood the role of fault in divorce law the way parenthood is allocated the rights and responsibilities of parents to control their children the place of religion in the family the rights of separated partners regarding property and of separated parents regarding their children Throughout the book offers a new picture of the intimacy at the centre of personal relationships and argues that only by understanding this intimacy and its role in human happiness can we arrive at a true framework for respecting and governing the personal lives of other people
