## **The Problem Of Being Human:**

*Person to Person: the Problem of Being Human* Carl Ransom Rogers, 1975      **Heroes, Saints, and Ordinary Morality** Andrew Michael Flescher, 2003-11-25

Most of us are content to see ourselves as ordinary people unique in ways talented in others but still among the ranks of ordinary mortals Andrew Flescher probes our contented state by asking important questions How should ordinary people respond when others need our help whether the situation is a crisis or something less Do we have a responsibility an obligation to go that extra mile to act above and beyond the call of duty Or should we leave the braver responses to those who are somehow different than we are better somehow heroes or saints Traditional approaches to ethics have suggested there is a sharp distinction between ordinary people and those called heroes and saints between duties and acts of supererogation going beyond the expected Flescher seeks to undo these standard dichotomies by looking at the lives and actions of certain historical figures Holocaust rescuers Martin Luther King Jr Dorothy Day among others who appear to be extraordinary but were in fact ordinary people Heroes Saints and Ordinary Morality shifts the way we regard ourselves in relationship to those we admire from afar it asks us not only to admire but to emulate as well further it challenges us to actively seek the acquisition of virtue as seen in the lives of heroes and saints to learn from them a dynamic aspect of ethical behavior that goes beyond the mere avoidance of wrongdoing Andrew Flescher sets a stage where we need to think and act calling us to lead lives of self examination even if that should sometimes provoke discomfort He asks that we strive to emulate those we admire and therefore allow ourselves to grow morally and spiritually It is then that the individual develops a deeper altruistic sense of self a state that allows us to respond as the heroes of our own lives and therefore in the lives of others when times and circumstance demand that of us

**The Nature of Being Human** Harold Fromm, 2009-05-04

Essays exploring humanity's connection with the environment Although the physical relationship between the natural world and individuals is quantifiable the psychosocial effect of the former on the latter is often less tangible What for instance is the connection between the environment in which we live and our creativity How is our consciousness bounded and delimited by our materiality And from whence does our idea of self and our belief in free will derive and when do our surroundings challenge these basic assumptions Eco critic Harold Fromm's challenging exploration of these and related questions twines his own physical experiences and observations with insights gathered from both the humanities and the sciences Writing broadly and personally Fromm explores our views of nature and how we write about it He ties together ecology evolutionary psychology and consciousness studies to show that our perceived separation from our surroundings is an illusory construct He argues for a naturalistic vision of creativity free will and the literary arts unimpeded by common academic and professional restraints At each point of this intellectual journey Fromm is honest engaging and unsparing Philosophical critical often personal Fromm's sweeping interdisciplinary and sometimes combative essays will change the way you think about your place in the environment How rare it is that a work of philosophical inquiry is written with the

passion of a cri de coeur but Harold Fromm's brilliantly conceived *The Nature of Being Human* resonates with such uncanny depths Here is an utterly engrossing first person account of a harrowing pilgrimage into the 21st century and its disturbing revelations about humankind's truest nature in contrast to the comforting solitudes of a humanist past If the role of the philosopher is to force us to think Harold Fromm is a born philosopher Joyce Carol Oates Fromm an erudite prolific author of numerous works ranging from ecocritical commentary to self reflective discourses presents a compilation of essays that illuminate his views regarding why most Americans seem oblivious to the destruction of their environment Choice Fromm's journey from victim to campaigner to pioneer of eco criticism that is the study of literature from an ecological viewpoint is documented here alongside challenging analyses of man's place in nature free will our relationship with technology and more Scholarly but engaging Fromm is an environmentalist but also a realist Organic Gardener *Being Human* Karl

collection of essays is the inviolate marriage between philosophy and psychology Psychotherapist Mary Capocefalo has written Long before psychologists were asking questions about mind and behavior philosophers were expressing the same curiosity The Socratic method of teaching by asking questions is indispensable in psychotherapy Aristotle spoke about happiness as though he had read twentieth century psychological research on the subject Albert Camus reduced the study of philosophy to a single psychological issue suicide Conversely Sigmund Freud and Carl Jung addressed the question of the meaning of life Lawrence Kohlberg and John Robert Coles investigated moral behavior And Viktor Frankl integrated existentialism into the practice of psychotherapy East is east and west is west and never the twain shall meet does not apply to philosophy and psychology

**The Embarrassment of Being Human** Benjamin Boysen, 2024-12-24 With the message that everything in a sense is alive thus allowing us to join forces with new politico ethical communities stretching across human and nonhuman realms the new materialisms have captivated the minds of many academics artists and intellectuals by stressing that it is time to return to a premodern mindset and discard modernity and its concepts of secularization autonomy and finitude The Embarrassment of Being Human not only demonstrates how these magical materialisms are beset by grave theoretical and practical inconsistencies and self contradictions It also demonstrates how their demand for humans to step down and allow for an emancipation of things qualifies the new materialisms as a metaphysics of neoliberalism that reproduces and fortifies the self contradictions rampant in the current neoliberal hegemony While helping us to gain a comprehensive understanding of the tenets of the eerie ills of our epoch the critique of the new materialisms can furthermore inspire us to appreciate how the exact inversion of the new materialist complex amounts to a revitalization of the modern project A revitalization that is critical to think our epoch differently
