The Problem Of Crime A Critical Introduction To Criminology:

The Problem of Crime Richard Quinney, John Wildeman, 1977 *The Myth of the 'Crime Decline'* Justin Kotzé, 2019-03-20 The Myth of the Crime Decline seeks to critically interrogate the supposed statistical decline of crime rates thought to have occurred in a number of predominantly Western countries over the past two decades Whilst this trend of declining crime rates seems profound serious questions need to be asked Data sources need to be critically interrogated and context needs to be provided This book seeks to do just that This book examines the wider socio economic and politico cultural context within which this decline in crime is said to have occurred highlighting the changing nature and landscape of crime and its ever deepening resistance to precise measurement By drawing upon original qualitative research and cutting edge criminological theory this book offers an alternative view of the reality of crime and harm In doing so it seeks to reframe the crime decline discourse and provide a more accurate account of this puzzling contemporary phenomenon Additionally utilising a new theoretical framework developed by the author this book begins to explain why the crime decline discourse has been so readily accepted Written in an accessible yet theoretical and informed manner this book is a must read for academics and students in the fields of criminology sociology social policy and the philosophy of social sciences

Criminal Punishment and Restorative Justice David J. Cornwell, F. W. M. McElrea, John R. Blad, Robert B. Cormier, 2006 Criminal Punishment and Restorative Justice is an appraisal of the divide that exists between punitive and restorative methods The book looks at events that serve to restrict a greater and more emphatic adoption of restorative justice and its huge potential in contemporary criminal justice developments In an era of increasing and worldwide reliance on imprisonment and other punitive methods the author argues that justice and communities would be far better served by a more enthusiastic and early shift to restorative methods Criminal Punishment and Restorative Justice provides an international perspective on how restorative justice can bring about an altogether more enlightened approach to dealing with offenders and victims alike against a backdrop of often spurious traditional justifications for punishment While acknowledging the need for a constructive use of custody and other corrections in response to serious crime the author points out that the present over reliance on custody can be reduced by challenging offenders to take responsibility for their offenses and to make practical reparation for their wrong doing and repairing the harm that they have caused The book also assesses the potential of restorative justice to make corrections more effective civilized humane and pragmatic in terms of finding solutions to crime on the basis of sound principles and information not political expediency

Carceral Apartheid Brittany Friedman, 2024-12-04 It is impossible to deny the impact of lies and white supremacy on the institutional conditions in US prisons There is a particular power dynamic of racist intent in the prison system that culminates in what Brittany Friedman terms carceral apartheid Prisons are a microcosm of how carceral apartheid operates as a larger governing strategy to decimate political targets and foster deceit disinformation and division in society Among many shocking discoveries Friedman shows that beginning in the 1950s California prison officials declared war on imprisoned Black people and sought to identify Black militants as a key problem creating a strategy for the management segregation and elimination of these individuals from the prison population that continues into the present day

Carceral Apartheid delves into how the California Department of Corrections deployed various official clandestine and at times extralegal control techniques including officer alliances with imprisoned white supremacists to suppress Black political movements revealing the broader themes of deception empire corruption and white supremacy in American mass incarceration Drawing from original interviews with founders of Black political movements such as the Black Guerilla Family white supremacists and a swath of little known archival data Friedman uncovers how the US domestic war against imprisoned Black people models and perpetuates genocide imprisonment and torture abroad
