The woman, on the right, wears a dark, sleeveless, patterned dress. They are standing on a set of wide, light-colored stone steps. The background is a dark, textured wall, possibly brick or stone. Wilson-Buford, 2018-11-01 The American military's public international strategy of Communist containment systematic weapons build ups and military occupations across the globe depended heavily on its internal and often less visible strategy of controlling the lives and intimate relationships of its members From 1950 to 2000 the military justice system under the newly instituted Uniform Code of Military Justice waged a legal assault against all forms of sexual deviance that supposedly threatened the moral fiber of the military community and the nation Prosecution rates for crimes of sexual deviance more than quintupled in the last quarter of the twentieth century Drawing on hundreds of court martial transcripts published by the Judge Advocate General of the Armed Forces Policing Sex and Marriage in the American Military explores the untold story of how the American military justice system policed the marital and sexual relationships of the service community in an effort to normalize heterosexual monogamous marriage as the linchpin of the military's social order Almost wholly overlooked by military social and legal historians these court transcripts and the stories they tell illustrate how the courts construction and criminalization of sexual deviance during the second half of the twentieth century was part of the military's ongoing articulation of gender ideology Policing Sex and Marriage in the American Military provides an unparalleled window into the historic criminalization of what were considered sexually deviant and violent acts committed by U S military personnel around the world from 1950 to 2000 **The French Law of Marriage, Marriage Contracts, and Divorce, and**

 Eleanor Gordon,Jeff Meek,Katie Barclay,2025-10-25 This is the first book length study of the history of working class
 courtship and marriage in Scotland from the establishment of civil registration to the introduction in 1939 of legislation
 which abolished irregular marriage and introduced civil marriage Adopting a life course approach the book explores the
 social economic and cultural contexts of romantic partnerships from courtship through to marital or family dissolution
 Drawing from a wide range of sources that capture official accounts and discourses on the one hand and the testimony and
 experience of working class people on the other the book offers a uniquely broad and textured view of courtship and
 marriage in this period In so doing it advances recent historiographical debates surrounding marriage in the Anglophone
 world particularly the mutability of love and whether the late nineteenth and early twentieth centuries constituted a social
 and cultural turning point for the working classes in terms of choice of marriage partner the nature of the marital
 relationship and the parent child relationship The book also engages with debates about extra marital sexual activity in the
 nineteenth and early twentieth centuries whether the family was more or less stable than the contemporary family and the
 different ways that marriages broke down before the advent of divorce reform This has important implications for wider
 European and North American historiography and raises timely questions about the primacy of the traditional family in policy
 and public discourse **Decisions of the Department of the Interior in Appealed Pension and Retirement Claims**
