Chemical Lands David D. Vail, 2018 An exploration of the elaborate relationship between farmers aerial sprayers agriculturalists crop pests chemicals and the environment The controversies in the 1960s and 1970s that swirled around indiscriminate use of agricultural chemicals their long term ecological harm versus food production benefits were sparked and clarified by biologist Rachel Carson's *Silent Spring* 1962 This seminal publication challenged long held assumptions concerning the industrial might of American agriculture while sounding an alarm for the damaging persistence of pesticides especially chlorinated hydrocarbons such as DDT in the larger environment In *Chemical Lands Pesticides Aerial Spraying and Health in North America's Grasslands since 1945* David D Vail shows however that a distinctly regional view of agricultural health evolved His analysis reveals a particularly strong ethic in the North American grasslands where practitioners sought to understand and deploy insecticides and herbicides by designing local scientific experiments engineering more precise aircraft sprayers developing more narrowly specific chemicals and planting targeted test crops Their efforts to link the science of toxicology with environmental health reveal how the practitioners of pesticides evaluated potential hazards in the agricultural landscape while recognizing the production benefits of controlled spraying *Chemical Lands* adds to a growing list of books on toxins in the American landscape This study provides a unique Grasslands perspective of the Ag pilots weed scientists and farmers who struggled to navigate novel technologies for spray planes and in the development of new herbicides insecticides while striving to manage and mitigate threats to human health and the environment

The Apostate David J Knight, 2017-04-05 When John Galt published *The Apostate Or Atlantis Destroyed* in 1814 its portrayal of First Nations peoples was in many ways a real challenge to the colonial assumptions of the day His 1833 prose version of the story *The New Atlantis* even furthered these challenges and the two works were not well received by the public when they appeared Both are presented here in a new edition that also includes Susanna Moodie s contemporary 1814 poem *The Captive* which makes similarly challenging social commentary on the evils of slavery and the plight of refugees As early examples of Canadian activist writing these works are overdue for reevaluation in a world still struggling with many of the injustices that they address
