Power in the Pulpit Jerry Vines,James L. Shaddix,1999-06-10 The call to preach is just that a call to preach The call to preach however is more than just preaching The call to preach is a call to prepare Too many pastors have refrained from preparation while they await the Holy Spirit to do all of the work God expects preachers to prepare sermons as much as possible and allow Him to prepare the preachers Join Dr Jerry Vines and Dr Jim Shaddix as they achieve a balanced approach to teaching sermon preparation in Power in the Pulpit This book combines the essential perspectives of a pastor of forty

years with another pastor who also devotes daily time to training pastors in the context of theological education Thus Power in the Pulpit is a practical preaching help from a pastoral perspective in the tradition where expository preaching is a paramount and frequent event in the life of the local church Power in the Pulpit is the combined work of Dr Vines s two earlier publications on preaching A Practical Guide to Sermon Preparation Moody Press 1985 and A Guide to Effective Sermon Delivery Moody Press 1986 Dr Shaddix carefully organizes and supplements the material to offer this useful resource which closes the gap between classroom theory and what a pastor experiences in his weekly sermon preparation

Speechwriting in Perspective Thomas H. Neale, Jean M. Bowers, 2003 Writing for the spoken word is a special discipline it requires that speechwriters products be written primarily although not exclusively to be heard not read Speeches are better cast in simple direct and often short sentences that can be easily understood by listeners Rhetorical devices such as repetition variation cadence and balance are available to and should be used by the speechwriter It is important for speechwriters to analyse audiences according to factors such as age gender culture profession and income level size of audience political affiliation if any and on the occasion for or purpose of the speech Most effective speeches do not exceed 20 minutes in length After researching a topic speechwriters must prepare an outline from which the speech will be developed They should strive to maintain a clear theme throughout the speech Most speeches will have a three part structure consisting of an introduction a body and a conclusion The accepted style of contemporary American public address is natural direct low key casual and conversational This puts the listeners at ease and promotes a sense of community between the audience and speaker Punctuation should reflect the sound structure of the speech reinforcing the rhythm and pace of actual speech Clarity of expression is as important a consideration in speech grammar as rigid adherence to the rules for written law This book presents the essentials of speechwriting Preface Speechwriting in Perspective A Brief Guide to Effective and Persuasive Communication Thomas H Neale Public Speaking and Speechwriting Selected References Jean M Bowers Index
