Six French Poets:

Six French Poets of the Nineteenth Century E. H. Blackmore, A. M. Blackmore, 2000 Poetry will no longer keep in time with action it will be ahead of it Arthur Rimbaud The active and colourful lives of the poets of nineteenth century France are reflected in the diversity and vibrancy of their works At once sacred and profane passionate and satirical these remarkable and innovative poems explore the complexities of human emotion and ponder the great questions of religion and art They form as rich a body of work as any one age and language has ever produced This unique anthology includes generous selections from the six nineteenth century French poets most often read in the English speaking world today Lamartine Hugo Baudelaire Verlaine Rimbaud and Mallarm Modern translations are printed opposite the original French verse and the edition contains over a thousand lines of poetry never previously translated into English **Six French Poets** Amy

Lowell, 1916 **Six French Poets of Our Time** Robert W. Greene, 2015-03-08 During the last sixty to seventy years avant garde poetry in France has evolved in two directions one toward poetry conceived as a means to an end the other toward poetry as an end in itself Focusing on Pierre Reverdy Francis Ponge Ren Char Andr du Bouchet Jacques Dupin and Marcelin Pleyne as the modern French poets who most faithfully reflect these directions Robert Greene's chronological study allows us to follow the two pronged evolution of French poetry since 1910 Situating his argument in a detailed historical context and basing it on comparisons with artistic movements and the poets own writings on art and on extended analyses of selected representative poems the author is able to establish a new intellectual historical perspective on contemporary poetry Professor Greene finds that whereas Reverdy Char du Bouchet and Dupin all embrace a conception of poetry as quest as a search for the absolute as the Way of beauty or truth Ponge and Pleyne hold to a view of poetry as j te as a celebration of the relative as the play and display of language in action What knits them together he concludes is the way in which each poet sums up his era as a stage in the development of twentieth century French poetry Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Six French Poets** Amy Lowell, 1926 **SIX FRENCH POETS** AMY. ,1977 **Six Contemporary French Women Poets**, 1997 Although many practice the art contemporary French women poets generally have been vastly underrepresented in periodicals and anthologies In the only anthology to feature avant garde French women poets exclusively Gavronsky shows how Kaplan Grangaud Portugal Lapeyre Giraudon and Risset differ from their American counterparts Before presenting his translations of the poems Gavronsky gives each poet the opportunity to define herself in terms of major influences on her poetry distinctive traits in her writing major themes in her work and the influence of gender on her art The poets also speculate about the relative underrepresentation of women poets in French periodicals and anthologies as well as about the form poetry might take in the twenty first century The poems in this volume are simultaneously delightful informative and combative They typify according to Gavronsky some of the main currents of a poetics in the making a poetics little known in the United States In reaffirming women s involvement with poetry Gavronsky believes that he has reconnected today s work with an immemorial tradition that in France clearly goes back to the Middle Ages Current Literature, 1916 **Harper's Weekly** John Bonner, George William Curtis, Henry Mills Alden, Samuel Stillman Conant, Montgomery Schuyler, John Foord, Richard Harding Davis, Carl Schurz, Henry Loomis Nelson, John Kendrick Bangs, George Brinton McClellan Harvey, Norman Hapgood, 1916 *The Dial*, 1915 *Selected Works on China* Various Authors, Let me state at the outset that I know no Chinese My duty in Mrs Ayscough s and my joint collaboration has been to turn her literal translations into poems as near to the spirit of the originals as it was in my power to do It has been a long and arduous task but one which has amply repaid every hour spent upon it To be suddenly introduced to a new and magnificent literature not through the medium of the usual more or less accurate translation but directly as one might burrow it out for one s self with the aid of a dictionary is an exciting and inspiring thing The method we adopted made this possible as I shall attempt to show The study of Chinese is so difficult that it is a life work in itself so is the study of poetry A sinologue has no time to learn how to write poetry a poet has no time to learn how to read Chinese Since neither of us pretended to any knowledge of the other s craft our association has been a continually augmenting pleasure I was lucky indeed to approach Chinese poetry through such a medium The translations I had previously read had given me nothing Mrs

Ayscough has been to me the pathway to a new world No one could be a more sympathetic go between for a poet and his translator and Mrs Ayscough was well fitted for her task She was born in Shanghai Her father who was engaged in business there was a Canadian and her mother an American She lived in China until she was eleven when her parents returned to America in order that their children might finish their education in this country It was then that I met her so that our friendship is no new thing but has persisted in spite of distance for more than thirty years to ripen in the end into a partnership which is its culmination Returning to China in her early twenties she became engaged to an Englishman connected with a large British importing house in Shanghai and on her marriage which took place almost immediately went back to China where she has lived ever since A diligent student of Chinese life and manners she soon took up the difficult study of literary Chinese and also accepted the position of honorary librarian of the library of the North China Branch of the Royal Asiatic Society Of late years she has delivered a number of lectures on Chinese subjects in China Japan America and Canada and has also found time to write various pamphlets on Chinese literature and customs In the Autumn of 1917 Mrs Ayscough arrived in America on one of her periodic visits to this country She brought with her a large collection of Chinese paintings for exhibition and among these paintings were a number of examples of the Written Pictures Of these she had made some rough translations which she intended to use to illustrate her lectures She brought them to me with a request that I put them into poetic shape I was fascinated by the poems and as we talked them over we realized that here was a field in which we should like to work When she returned to China it was agreed that we should make a volume of translations from the classic Chinese writers Such translations were in the line of her usual work and I was anxious to read the Chinese poets as nearly in the original as it was possible for me to do At first we hardly considered publication Mrs Ayscough lives in Shanghai and I in Boston and the war time mails were anything but expeditious but an enthusiastic publisher kept constantly before us our ultimate if remote goal Four years have passed and after many unavoidable delays the book is finished We have not done it all by correspondence Mrs Ayscough has come back to America several times during its preparation but whether together or apart the plan on which we have worked has always been the same Very early in our studies we realized that the component parts of the Chinese written character counted for more in the composition of poetry than has generally been recognized that the poet chose one character rather than another which meant practically the same thing because of the descriptive allusion in the make up of that particular character that the poem was enriched precisely through this undercurrent of meaning in the structure of its characters But not always and here was the difficulty Usually the character must be taken merely as the word it had been created to mean It was a nice distinction when to allow one's self the use of these character undercurrents and when to leave them out of count entirely But I would not have my readers suppose that I have changed or exaggerated the Chinese text Such has not been the case The analysis of characters has been employed very rarely and only when the text seemed to lean on the allusion for an added vividness or zest In only one case in the book have

I permitted myself to use an adjective not inherent in the character with which I was dealing and in that case the connotation was in the word itself being descriptive of an architectural structure for which we have no equivalent except in the Written Pictures where as Mrs Ayscough has stated in her Introduction we allowed ourselves a somewhat freer treatment It has been necessary of course to acquire some knowledge of the laws of Chinese versification But equally of course these rules could only serve to bring me into closer relations with the poems and the technical limits of the various forms It was totally impossible to follow either the rhythms or the rhyme schemes of the originals All that could be done was to let the English words fall into their natural rhythm and not attempt to handicap the exact word by introducing rhyme at all This is the method I followed in my translations of French poems in my book Six French Poets I hold that it is more important to reproduce the perfume of a poem than its metrical form and no translation can possibly reproduce both
