

PALGRAVE HISTORY OF EUROPE

SIXTEENTH CENTURY EUROPE

EXPANSION AND CONFLICT

RICHARD MACKENNEY

Sixteenth Century Europe Expansion And Conflict

Chris Cook, Philip Broadhead

Sixteenth Century Europe Expansion And Conflict:

Sixteenth Century Europe , **Mighty Europe 1400-1700** Andrew Hiscock,2007 In a series of ten historical and literary studies this volume analyses the complex narrative of changing political identities in early modern Europe and maps out some of the dominant ways in which European ness was articulated in documents of the period As the collection unfolds its contributors explore these themes from a whole range of geographical perspectives including not only accounts of British culture but also those describing cultural relations and political identities with regard to Italy Spain France the Papacy the Netherlands Bohemia and the Americas for example Concentrating upon early modern nations at a time when they were just beginning to formulate recognizable collective identities the studies contained in this volume offer a clear picture of the ways in which current literary and historical scholarship may yield penetrating insights into the broader question of how the very idea of Europe evolved amongst its native inhabitants during the fifteenth sixteenth and seventeenth centuries *The Routledge Companion to Early Modern Europe, 1453-1763* Chris Cook,Philip Broadhead,2012-10-02 This compact and highly accessible work of reference covers the broad sweep of events as Europe transformed during the period from the Renaissance to the Enlightenment This Companion examines the centuries that saw the Reformation and Counter Reformation the expansion of Europe and the beginnings of imperialism and enormous changes in the way government and kingship were conducted With a wealth of chronologies tables family trees and maps this handy book is an indispensable resource for all students and teachers of early modern history *European War and Diplomacy, 1337-1815* William Young,2003-10 The history of international relations and warfare of early modern Europe has gained popularity in recent years This bibliography provides a valuable listing of books dissertations and journal articles in the English language for scholars and general readers interested in diplomatic relations and warfare from the Hundred Years War to the Napoleonic Wars **The Longman Companion to Renaissance Europe, 1390-1530** Stella Fletcher,2014-02-04 This new Companion is the ideal reference guide It fills a gap by providing an authoritative but accessible reference on political economic religious social as well as cultural developments in this crucial period It contains information on all major topics including the church war and diplomacy civic life learning and letters printing the economy science and technology the arts across Europe and the wider world *Machiavelli and the Modern State* Alissa M. Ardito,2021-02-11 This book offers a significant reinterpretation of the history of republican political thought and of Niccol Machiavelli s place within it It locates Machiavelli s political thought within enduring debates about the proper size of republics From the sixteenth century onward as states grew larger it was believed only monarchies could govern large territories effectively Republicanism was a form of government relegated to urban city states anachronisms in the new age of the territorial state For centuries history and theory were in agreement constructing an extended republic was as futile as trying to square the circle but then James Madison devised a compound representative republic that enabled popular government to take on renewed life in the modern era This work argues that

Machiavelli had his own Madisonian impulse and deserves to be recognized as the first modern political theorist to envision the possibility of a republic with a large population extending over a broad territory Globalism and the New Regionalism Osvaldo Sunkel, András Inotai, 2016-07-27 This is the first of five volumes reporting on the UNU WIDER study on New Regionalism It deals with the conceptions and meanings of two processes which probably will have a crucial influence on the shape of the new world order globalization and regionalization These studies relate to each other as challenge to response globalization being the challenge of economic and cultural homogenization of the world and regionalization being a social and political reaction The leading writers in the field contribute thought provoking and fascinating articles to this volume

The Parliaments of Early Modern Europe M.A.R. Graves, 2014-06-06 A comparative survey of the emergence and development of Parliaments in Catholic Christendom from the thirteenth century the chief focus of this work is the period between the fifteenth and seventeenth centuries when Europe was dramatically changed by the Renaissance the Reformation and the growth of composite monarchies which brought together diverse territories under their rule European Parliaments experienced a variety of challenges fortunes and fates some survived even flourished but others succumbed to powerful monarchies By investigating the powers and privileges and responsibilities of these institutions Graves illuminates the whole business of government the nature of executive power the relations of ruler and ruled the restraints of consent and the realities of the tension between central authority and local custom The Justice of Venice James E Shaw, 2006-04-27 Published for The British Academy **Venice as the Polity of Mercy** Richard MacKenney, 2018-12-21 This study re examines Venice s political economy from the viewpoint of its ordinary people or popolani who despite the commonly held view that they were excluded from political life by the nobility or nobili actually organized and ran for themselves hundreds of corporations within the city state Mercy was central to this popolani s Christian values and those who offered mercy to their fellow men and women in temporary hardship were investing in the expectation of reciprocity in their own time of need Beginning by tracing a formative linking of religion economy and polity from the thirteenth to the fifteenth centuries Venice as the Polity of Mercy then chronicles the collapse of this triad during the struggles between church and state in the mid sixteenth and seventeenth centuries followed by a revitalizing reconnection of economy and polity within a different religious climate after the plague of 1630 As such Richard Mackenney s book offers up a revitalized image of Renaissance Venetian society as dynamic rather than static as well as a new understanding of the city s significance through a reconfiguration of its history and artwork

Whispering the Strategies of Language: An Emotional Journey through **Sixteenth Century Europe Expansion And Conflict**

In a digitally-driven earth wherever displays reign great and immediate transmission drowns out the subtleties of language, the profound strategies and mental subtleties hidden within words frequently get unheard.
