Surrealism and the Art of Crime Jonathan Paul Eburne, 2008 Corpses mark surrealism's path through the twentieth century providing material evidence of the violence in modern life Though the shifting group of poets artists and critics who made up the surrealist movement were witness to total war revolutionary violence and mass killing it was the tawdry reality of everyday crime that fascinated them Jonathan P Eburne shows us how this focus reveals the relationship between aesthetics and politics in the thought and artwork of the surrealists and establishes their movement as a useful platform for addressing the contemporary problem of violence both individual and political In a book strikingly illustrated with surrealist artworks and their sometimes gruesome source material Eburne addresses key individual works by both better known surrealist writers and artists including André Breton Louis Aragon Aimé Césaire Jacques Lacan Georges Bataille Max Ernst and Salvador Dalí and lesser known figures such as René Crevel Simone Breton Leonora Carrington Benjamin Peret and Jules Monnerot For Eburne the art of crime denotes an array of cultural production including sensationalist journalism detective mysteries police blotters crime scene photos and documents of medical and legal opinion as well as the roman noir in particular the first crime novel of the American Chester Himes The surrealists collected and scrutinized such materials using them as the inspiration for the outpouring of political tracts pamphlets and artworks through which they sought to expose the forms of violence perpetrated in the name of the state its courts and respectable bourgeois values Concluding with the surrealists' quarrel with the existentialists and their bitter condemnation of France's anticolonial wars *Surrealism and the Art of Crime* establishes surrealism as a vital element in the intellectual political and artistic history of the twentieth century

[Gaming Utopia](#)

Claudia Costa Pederson, 2021-04-06 In *Gaming Utopia Ludic Worlds in Art Design and Media* Claudia Costa Pederson analyzes modernist avant garde and contemporary video games to challenge the idea that gaming is an exclusively white heterosexual male corporatized leisure activity and reenvision it as a catalyst for social change By looking at over fifty projects that together span a century and the world Pederson explores the capacity for sociopolitical commentary in virtual and digital realms and highlights contributions to the history of gaming by women queer and transnational artists The result is a critical tool for understanding video games as imaginative forms of living that offer alternatives to our current reality With an interdisciplinary approach *Gaming Utopia* emphasizes how game design creation and play can become political forms of social protest and examines the ways that games as art open doors to a more just and peaceful world **Utopia**

David Ayers, Benedikt Hjärtarson, Tomi Huttunen, Harri Veivo, 2015-12-14 Utopian hope and dystopian despair are characteristic features of modernism and the avant garde Readings of the avant garde have frequently sought to identify utopian moments coded in its works and activities as optimistic signs of a possible future social life or as the attempt to preserve hope against the closure of an emergent dystopian present The fourth volume of the EAM series *European Avant Garde and Modernism Studies* casts light on the history theory and actuality of the utopian and dystopian strands which run through European modernism and the avant garde from the late 19th to the 21st century The book's varied and carefully selected contributions written by experts from around 20 countries seek to answer such questions as how have modernism and the avant garde responded to historical circumstance in mapping the form of possible futures for humanity how have avant garde and modernist works presented ideals of living as alternatives to the present how have avant gardists acted with or against the state to remodel human life or to resist the instrumental reduction of life by administration and industrialisation **Lyotard and the 'figural' in Performance, Art and Writing**

Kiff Bamford, 2012-06-14 This original study offers a timely reconsideration of the work of French philosopher Jean Fran ois Lyotard in relation to art performance and writing How can we write about art whilst acknowledging the transformation that inevitably accompanies translations of both media and temporality That is the question that persistently dogs Lyotard's own writings on art and to which this book responds through reference to artists from the recently formed canon of performance art history including the myths of seminal figures Marina Abramovic and Vito Acconci and the controlled documentation of Gina Pane's actions Through the unstable untranslatable element that Lyotard calls the figural his thought is brought to bear on attempts to write a history of performance art and to question the paradoxically prescriptive demand for rules to govern re performance Kiff Bamford contextualises Lyotard's writings and approach with reference to both his contemporaries including Deleuze and Kristeva and the contemporary art about which they wrote whilst arguing for the pertinence of Lyotard's provocations today
