Survey Of The Vatican Archives And Of Its Medieval Holdings:

A Survey of the Vatican Archives and of Its Medieval Holdings Leonard E. Boyle, Pontifical Institute of Mediaeval Studies, 2001

The Foundations of Medieval English Ecclesiastical History Philippa M. Hoskin, Christopher Nugent Lawrence Brooke, Richard Barrie Dobson, 2005 Contributions on fundamental aspects of medieval ecclesiastical history demonstrating the importance of primary documents The work of historians in providing new editions of primary documents and other aids to research has tended to go largely unsung yet is crucial to scholarship as providing the very foundations on which further enquiry can be based The essays in this volume conversely celebrate the achievements in this field by a whole generation of medievalists of whom the honoree David Smith is one of the most distinguished They demonstrate the importance of such editions to a proper understanding and elucidation of a number of problems in medieval ecclesiastical history ranging from thirteenth century forgery to diocesan administration from the church courts to the cloisters and from the English parish clergy to the papacy Contributors CHRISTOPHER BROOKE C C WEBB JULIA BARROW NICHOLAS BENNETT JANET BURTON CHARLES FONGE CHRISTOPHER HARPER BILL R H HELMHOLZ PHILIPPA HOSKIN BRIAN KEMP F DONALD LOGAN ALISON MCHARDY

Music and Musicians in Renaissance Rome and Other Courts Richard Sherr, 2019-06-04 First published in 1999 the essays that follow have been selected from the author's writings to explore musical institutions in 15th and 16th century Italy with a detailed focus on the papal choir but with additional comments on Mantua Mantova Florence and France Much of the material which formed the basis of those essays was largely drawn from archives Richard Sherr explores diverse areas including the Medici coat of arms in a motet for Leo X performance practice in the papal chapel during the 16th century the publications of Guglielmo Gonzaga Lorenzo de Medici as a patron of music and homosexuality in late sixteenth century Italy

Medical Miracles Jacalyn Duffin, 2009 Modern culture tends to separate medicine and miracles but their histories are closely intertwined The Roman Catholic Church recognizes saints through canonization based on evidence that they worked miracles as signs of their proximity to God Physician-historian Jacalyn Duffin has examined Vatican sources on 1400 miracles from six continents and spanning four centuries Overwhelmingly the miracles cited in canonizations between 1588 and 1999 are healings and the majority entail medical care and physician testimony These remarkable records contain intimate stories of illness prayer and treatment as told by people who rarely leave traces peasants and illiterates men and women old and young A woman's breast tumor melts away a man's wounds knit a lame girl suddenly walks a dead baby revives Suspicious of wishful thinking or naive enthusiasm skeptical clergy shaped the inquiries to identify recoveries that remain unexplained by the best doctors of the era The tales of healing are supplemented with substantial testimony from these physicians Some elements of the miracles change through time Duffin shows that doctors increase in number new technologies are embraced quickly diagnoses shift with altered capabilities But other aspects of the miracles are stable The narratives follow a dramatic structure shaped by the formal questions asked of each witness and by perennial reactions to illness and healing In this history medicine and religion

emerge as parallel endeavors aimed at deriving meaningful signs from particular instances of human distress signs to explain alleviate and console in confrontation with suffering and mortality A lively sweeping analysis of a fascinating set of records this book also poses an exciting methodological challenge to historians miracle stories are a vital source not only on the thoughts and feelings of ordinary people but also on medical science and its practitioners **The Making of Christian**

Malta Anthony Luttrell, 2017-09-29 This title was first published in 2002 Dr Luttrell's work has helped change our understanding of the history of the small islands of Malta and Gozo providing a more coherent story of the ways in which during the Middle Ages a small isolated Muslim community was converted into a more prosperous outpost of Roman Christianity with a unique cultural mixture of Arabic speech and European institutions This selection of studies places the process within the context of developments in the medieval Mediterranean world and combines archaeological and architectural investigations with work in Maltese Sicilian and other archives with a particular focus on ecclesiastical matters a new introduction brings the subject up to date This work is of relevance to scholars of Islam and Christianity while providing insights into the nature of an unusual island community whose significance far exceeds its size **Josquin's**

Rome Jesse Rodin, 2012-11-07 In the late fifteenth century the newly built Sistine Chapel was home to a vigorous culture of musical composition and performance Josquin des Prez stood at its center singing and composing for the pope's private choir Josquin's Rome offers a new reading of the composer's work in light of the repertory he and his fellow papal singers performed from the chapel's singers' box Comprising the single largest surviving corpus of late fifteenth century sacred music these pieces served as a backdrop for elaborately choreographed liturgical ceremonies a sonic analogue to the frescoes by Botticelli Perugino and their contemporaries that adorn the chapel's walls Jesse Rodin uses a comparative approach to uncover this aesthetically and intellectually rich musical tradition He confronts longstanding problems concerning the authenticity and chronology of Josquin's music while offering nuanced readings of scandalously understudied works by the composer's contemporaries The book further contextualizes Josquin by locating intersections between his music and the wider soundscape of the Cappella Sistina Central to Rodin's argument is the idea that these pieces lived in performance The author puts his interpretations into practice through a series of exquisite recordings by his ensemble Cut Circle available both on the companion website and as a CD from Musique en Wallonie Josquin's Rome is an essential resource for musicologists scholars of the Italian Renaissance and enthusiasts of early music *The Implications of Literacy* Brian

Stock, 2021-05-11 This book explores the influence of literacy on eleventh and twelfth century life and thought on social organization on the criticism of ritual and symbol on the rise of empirical attitudes on the relationship between language and reality and on the broad interaction between ideas and society Medieval and early modern literacy Brian Stock argues did not simply supersede oral discourse but created a new type of interdependence between the oral and the written If on the surface medieval culture was largely oral texts nonetheless emerged as a reference system both for everyday activities and

for giving shape to larger vehicles of interpretation Even when texts were not actually present people often acted and behaved as if they were The book uses methods derived from anthropology from literary theory and from historical research and is divided into five chapters The first treats the growth and shape of medieval literacy itself The other four look afresh at some of the period's major issues heresy reform the Eucharistic controversy the thought of Anselm Abelard and St Bernard together with the interpretation of contemporary experience in the light of literacy's development The study concludes that written language was the chief integrating instrument for diverse cultural achievements
