Survival And Resistance:

Survival and Resistance in Evangelical America Crawford Gribben, 2021-02-23 Over the last thirty years conservative evangelicals have been moving to the Northwest of the United States where they hope to resist the impact of secular modernity and to survive the breakdown of society they anticipate This book examines the origins evolution and cultural reach of the migration and considers what it might tell us about the future of American evangelicalism **Survival and Resistance in the City** William J. Hanson, 1969 France's Memorial Landscape Sophie Fuggle, 2023-09-15 During August 1942 several women jumped to their deaths from a second story window at the tile factory in the small town of Milles near Aix en Provence Between 1939 and 1942 the factory assumed various roles as internment camp transit camp and ultimately deportation camp This book is about the view from the suicide window as it is presented within the Camp des Milles memorial museum which opened in 2012 It explores how this view might help us to understand and imagine the world of internment and deportation camps operating in France during the Second World War and their memorial today The book uses the views framed by the window to think critically about the museography of the memorial within the wider context of France s relatively late acknowledgment of its role in the persecution of the Jews during the Second World War **Tactical Emergency Medicine** Richard B. Schwartz, John G. McManus, Raymond E. Swienton, 2008 This brief practical text covers all aspects of tactical emergency medicine the practice of emergency medicine in the field rather than at the hospital during disasters police or military conflicts mass events and community incidents Key topics covered include hostage survival insertion and extraction techniques continuum of force medical support planning and triage medical evaluation in the incident zone care in custody medical control of incident site decontamination community communication and more Boxed definitions case scenarios and treatment algorithms are included The concluding chapter presents real world scenarios to run tactical teams through and lists recommended training programs and continuing education **Tribals and Dalits in Orissa** Biswamoy Pati, 2018-10-18 Historians have generally focused on the extraordinary forms of protest while speaking of the lives of oppressed social groups but the basic survival strategies of these groups are often overlooked in research The fact that excluded groups have managed to survive has hidden right beneath the surface a whole range of complexities while also demonstrating their ability to resist dominant social orders Biswamoy Pati s posthumous volume on the lives of the tribals and dalits outcastes in Orissa from c 1800 to 1950 shows how such communities were further impoverished by both colonial government policies and the chiefs of the despotic princely states Colonial knowledge systems constructions of the criminal tribe and agrarian settlements affected tribals and dalits crucially These marginalized groups were connected with the national movement However their inherited problems remained unresolved even after Independence Examining these and several other issues such as adivasi strategies of resistance indigenous systems of health and medicine the colonial medical gaze conversion to Hinduism the fluidities of caste formation as well as the development of colonial capitalism and

urbanization the author presents a broader view of their struggle and endurance
