Survivors Speak Out:

From Victim To Survivor Juliann Whetsell Mitchell, Jill Morse, 2015-12-22 First published in 1998 A research based resource for helping professionals dealing with women who were sexually abused by female perpetrators mainly mothers and grandmothers this text focuses on the female perpetrator defining what treatments have been found workable and providing an overview of the available literature Secondly the authors share the results from interviews with 85 women adult women survivors Their journals poems and artwork have been collated with what the women themselves have found to be both helpful and counterproductive methods of healing The authors outline intentions and procedures for nonverbal methods of treatment that have proved effective in practice *Unsilenced* Rosemary Lucy Hill, Bianca Fileborn, Catherine Strong, 2025-01-09 This book explores gender based violence within the music industry and how women who have experienced violence represent it in their music Using the key case studies of music by Kesha Lingua Ignota and Alice Glass as well as many other examples from across the musical landscape the book examines how the artists represent their experiences of gender based violence in their music lyrics and music videos how they narrate and describe their experiences how they incorporate these experiences into their public personas and how the music industry itself might be facilitating or perpetuating the violence The analysis sheds light on how survivors construct their experiences and how the songs and videos inscribe new understandings of gender based violence The book argues that men s control of women s creativity can be considered a form of musical abuse and that through its structures and systems the music industry itself can be classed as inherently abusive And yet women musicians can sing back to the violence they ve experienced and create powerful new representations that have the potential to change the way we listen to music if we are prepared to develop our feminist ears

Rape and Resistance Linda Martín Alcoff, 2018-05-04 Sexual violence has become a topic of intense media scrutiny thanks to the bravery of survivors coming forward to tell their stories But unfortunately mainstream public spheres too often echo reports in a way that inhibits proper understanding of its causes placing too much emphasis on individual responsibility or blaming minority cultures In this powerful and original book Linda Martín Alcoff aims to correct the misleading language of public debate about rape and sexual violence by showing how complex our experiences of sexual violation can be Although it is survivors who have galvanized movements like MeToo when their words enter the public arena they can be manipulated or interpreted in a way that damages their effectiveness Rather than assuming that all experiences of sexual violence are universal we need to be more sensitive to the local and personal contexts who is speaking and in what circumstances that affect how activists and survivors protests will be received and understood Alcoff has written a book that will revolutionize the way we think about rape finally putting the survivor center stage
