Survivors Revenge:

Survivors Donald E. Miller, Lorna Touryan Miller, 1999-02-02 A superb work of scholarship and a deeply moving human document A unique work one that will serve truth understanding and decency Roger W Smith College of William and Mary

Survivors Rebecca Clifford, 2020-09-29 Shortlisted for the 2021 Wolfson History Prize and a finalist for the 2021 Cundill History Prize Told for the first time from their perspective the story of children who survived the chaos and trauma of the Holocaust named a best history book of 2020 by the Daily Telegraph Impressive beautifully written judicious and thoughtful Will be a major milestone in the history of the Holocaust and its legacy Mark Roseman author of *The Villa the Lake the Meeting* How can we make sense of our lives when we do not know where we come from This was a pressing question for the youngest survivors of the Holocaust whose prewar memories were vague or nonexistent In this beautifully written account Rebecca Clifford follows the lives of one hundred Jewish children out of the ruins of conflict through their adulthood and into old age Drawing on archives and interviews Clifford charts the experiences of these child survivors and those who cared for them as well as those who studied them such as Anna Freud *Survivors* explores the aftermath of the Holocaust in the long term and reveals how these children often branded the lucky ones had to struggle to be able to call themselves survivors at all Challenging our assumptions about trauma Clifford s powerful and surprising narrative helps us understand what it was like living after and living with childhoods marked by rupture and loss Children in the Holocaust and its Aftermath

Sharon Kangisser Cohen, Eva Fogelman, Dalia Ofer, 2017-04-01 The testimonies of individuals who survived the Holocaust as children pose distinct emotional and intellectual challenges for researchers as now adult interviewees recall profound childhood experiences of suffering and persecution they also invoke their own historical awareness and memories of their postwar lives requiring readers to follow simultaneous disparate narratives This interdisciplinary volume brings together historians psychologists and other scholars to explore child survivors accounts With a central focus on the Kestenberg Holocaust Child Survivor Archive s over 1 500 testimonies it not only enlarges our understanding of the Holocaust empirically but illuminates the methodological theoretical and institutional dimensions of this unique form of historical record *Virtues from Hell: Survivors of Conflicts and the Reconstruction-Reconciliation Processes* Fidèle

Ingiyimbere, 2022-01-01 This book offers a critical examination of certain ideas and values such as remembering forgiveness story telling through Truth and Reconciliation Commissions etc that under gird the transitional practices and mechanisms of societies emerging from conflicts It does so by making the survivors experience the supreme and ultimate judge of the legitimacy of such practices While many scholars have dealt with these topics this book provides a unique perspective on them by using personal stories narratives and memoirs of the survivors as a checking point of the theoretical elaboration of these ideas and values By means of an existential phenomenological analysis of the situation of survivors of gross human rights violations the book assesses how many resources are still available to them so that they can contribute to the

processes of reconstruction and reconciliation of their societies This analysis constitutes the background for reading the rest of the book which challenges some assumptions and presumptions of transitional practices such as healing through truth telling or providing justice through reparations It does so by presenting nuanced suggestions on the ways survivors can participate in the reconstruction reconciliation processes without jeopardizing their own well being **Becoming Human Again** Donald E. Miller,2020-03-31 Genocide involves significant death and trauma Yet the enormous scope of genocide comes into view when one looks at the factors that lead to mass killing the struggle for survival during genocide and the ways survivors reconstruct their lives after the violence ends Over a one hundred day period in 1994 the country of Rwanda saw the genocidal slaughter of at least 800 000 Tutsi at the hands of members of the Hutu majority government This book is a powerful oral history of the tragedy and its aftermath from the perspective of its survivors Based on in depth interviews conducted over the course of fifteen years the authors take a holistic approach by tracing how victims experienced the horrific events as well as how they have coped with the aftermath as they struggled to resume their lives The Rwanda genocide deserves study and documentation not only because of the failure of the Western world to intervene but also because it raises profound questions about the ways survivors create a new life out of the ashes of all that was destroyed How do they deal with the all encompassing traumas of genocide Is forgiveness possible And what does the process of rebuilding teach us about genocide trauma and human life Endkampf Stephen G. Fritz,2004-10-08 This thoroughly researched and superbly written study examines the final days of WWII combat within Germany during the occupation of Franconia WWII History At the end of World War II Gen Dwight D Eisenhower turned US forces toward the Franconian region of Germany ordering them to cut off and destroy German units before they could escape into the Alps Opposing this advance were German forces headed by SS Gruppenführer Max Simon a committed National Socialist who advocated merciless resistance Caught in the middle were the people of Franconia Historians have largely overlooked this period of violence and terror but it provides insight into the chaotic nature of life while the Nazi regime was crumbling Neither German civilians nor foreign refugees acted simply as passive victims caught between two fronts Throughout the region people pressured local authorities to end the senseless resistance Others sought revenge for their tribulations in the liberation that followed Stephen G Fritz examines the predicament and perspective of American GI s German soldiers and officials and the civilian population Endkampf is a gripping portrait of the collapse of a society and how it affected those involved whether they were soldiers or civilians victors or vanquished perpetrators or victims **The Palgrave Handbook of Holocaust Literature and Culture** Victoria Aarons,Phyllis Lassner,2020-01-24 The Palgrave Handbook of Holocaust Literature and Culture reflects current approaches to Holocaust literature that open up future thinking on Holocaust representation The chapters consider diverse generational perspectives survivor writing second and third generation and genres memoirs poetry novels graphic narratives films video testimonies and other forms of literary and cultural expression

In turn these perspectives create interactions among generations genres temporalities and cultural contexts The volume also participates in the ongoing project of responding to and talking through moments of rupture and incompleteness that represent an opportunity to contribute to the making of meaning through the continuation of narratives of the past As such the chapters in this volume pose options for reading Holocaust texts offering openings for further discussion and exploration The inquiring body of interpretive scholarship responding to the Shoah becomes itself a story a narrative that materially extends our inquiry into that history

The Peace In Between Astri Suhrke, Mats Berdal, 2013-03 This volume examines the causes and purposes of post conflict violence The end of a war is generally expected to be followed by an end to collective violence as the term post conflict that came into general usage in the 1990s signifies In reality however various forms of deadly violence continue and sometimes even increase after the big guns have been silenced and a peace agreement signed Explanations for this and other kinds of violence fall roughly into two broad categories those that stress the legacies of the war and those that focus on the conditions of the peace There are significant gaps in the literature most importantly arising from the common premise that there is one predominant type of post war situation This post war state is often endowed with certain generic features that predispose it towards violence such as a weak state criminal elements generated by the war time economy demobilized but not demilitarized or reintegrated ex combatants impunity and rapid liberalization The premise of this volume differs It argues that features which constrain or encourage violence stack up in ways to create distinct and different types of post war environments Critical factors that shape the post war environment in this respect lie in the war to peace transition itself above all the outcome of the war in terms of military and political power and its relationship to social hierarchies of power normative understandings of the post war order and the international context This book will of much interest to students of war and conflict studies peacebuilding and IR Security Studies in general

Death in Life Robert Jay Lifton, 2012-01-01 In Japan hibakusha means the people affected by the explosion specifically the explosion of the atomic bomb in Hiroshima in 1945 In this classic study winner of the 1969 National Book Award in Science Lifton studies the psychological effects of the bomb on 90 000 survivors He sees this analysis as providing a last chance to understand and be motivated to avoid nuclear war This compassionate treatment is a significant contribution to the atomic age

Israel at a Crossroads Aba Gefen, 2001 From the founding of the State of Israel its many challenges Israeli politics to the rocky foundations of the peace process and the outburst of violence by the Palestinian Authority This book is updated to include the Elections of 2001 the Intifada of Al Aksa and the United States Presidential Elections 2001
