Histories of Tourism John K. Walton, 2005-01-01 This collection of essays presents develops the historical dimension to tourism studies through thematic case studies The editor's introduction argues for the importance of a closer relationship between history and tourism studies and an international team of contributors explores the relationships between tourism representations environments and identities in settings ranging from the global to the local from the Roman Empire to the twentieth century and from Frinton to the Far East *William Wordsworth and the Invention of Tourism, 1820-1900* Saeko Yoshikawa, 2016-02-17 In her study of the opening of the English Lake District to mass tourism Saeko Yoshikawa examines William Wordsworth's role in the rise and development of the region as a popular destination For the middle classes on holiday guidebooks not only offered practical information but they also provided a fresh motive and a new model of appreciation by associating writers with places The nineteenth century saw the invention of Robert Burns's and Walter Scott's Borders Shakespeare's Stratford and the Bront Country as holiday locales for the middle classes Investigating the international cult of Wordsworthian tourism Yoshikawa shows both how Wordsworth's public celebrity was constructed through the tourist industry and how the cultural identity of the Lake District was influenced by the poet's presence and works Informed by extensive archival work her book provides an original case study of the contributions of Romantic writers to the invention of middle class tourism and the part guidebooks played in promoting the popular reputations of authors

Sustainable Tourism Rebecca Hawkins, Victor T.C. Middleton, 2009-11-03 Looking ahead to the 21st century Sustainable Tourism explains the current thinking process that underlies the emerging international principles of more sustainable development in travel and tourism Using international illustrations it draws on experience and good practice as they are being increasingly applied around the world in the late 1990s In sharp contrast to the problem analysis approach

adopted by so many authors to this subject this book is focused on the pro active role the private sector industry can play in partnership with the public sector to achieve solutions through its day to day operations and marketing especially in product enhancement and quality controls Case material contributed by senior professionals in the industry include Kruger National Park South Africa Quicksilver Connections Barrier Reef Australia Edinburgh s Old Town UK Ironbridge Gorge Museum UK Rutland Water UK Industry illustrations are drawn from British Airways Grecotel Inter Continental Hotels and Resorts the International Federation of Tour Operators P O and TUI Professor Victor Middleton has had some thirty years international experience of marketing practice covering most of the private and public sectors of travel and tourism He holds appointments as Visiting Professor at Oxford Brookes University and University of Central Lancashire Dr Rebecca Hawkins runs her own business specialising in environmental aspects of tourism projects and has undertaken a number of pioneering programmes in this role She was Deputy Director of the World Travel and Tourism Environment Research Centre at Oxford Brookes University where she worked with Victor Middleton

Constructing Cultural Tourism Keith Hanley, John K. Walton, 2010 This book is an interdisciplinary collaboration between a literary critic and cultural historian which examines and recovers a radical and still urgent challenge to the industrialisation of cultural tourism from the work of John Ruskin Ruskin exerted a formative influence on the definition and development of cultural tourism which was probably as significant as that for example of his contemporary Thomas Cook The book assesses Ruskin s overall influence on the development of national and international tourism in the context of pre existing expectations about tourism flows and cultural capital and alongside parallel and intersecting trends of the time examines Ruskin s contribution to the tourist agenda at all social levels and discusses Ruskin s significance for current debates in tourism studies especially questions of the place of the canon of traditional European cultural tourism in a post modern tourist setting and the various incarnations of heritage tourism As to be expected from Professors Hanley and Walton this book offers a challenging examination of Ruskin s place in the history of British cultural tourism However it delivers far more than this it brings a rich tapestry of historical experience to the understanding of contemporary European tourism This rigorous and incisive critique of the role of Ruskin the renowned 19th century polymath is beautifully illustrated with pictorial and textual references it is a must for scholars of tourism It will also greatly benefit those whose studies include interpretation leisure and outdoor education It is written in a style which invites the reader to immerse themselves in a fascinating journey where new knowledge is unfolded in every chapter Les Lumsdon University of Central Lancashire UK Best known as a writer and art critic this study makes a compelling case for the importance of Ruskin as a key figure in inspiring and shaping cultural tourism whether in Europe or in England for the serious minded of all social classes Alastair Durie University of Stirling UK

Rural Tourism Bernard Lane, Elisabeth Kastenholz, 2018-10-19 This book describes analyses celebrates and interrogates the rise of rural tourism in the developed world over the last thirty years while explaining its need to enter a new second generation of development if it is to remain

sustainable in all senses of that word Contributors include 29 leading researchers practitioners and commentators from ten countries around the world Subjects covered include the ongoing evolution of rural tourism as a genre its numerous niche markets and market trends community involvement and its impacts on rural landscape conservation and society Special attention is paid to product development in rural tourism including food and beverage tourism avitourism and landscape appreciation Management Issues are also dealt with as is the impact of internet booking systems on both commercial performance and regional and national rural tourism governance There is a review of trends in academic research in rural tourism with an analysis of 1848 refereed and published research papers since 2000 This book is a worthy successor to Bramwell Lane s pioneering 1994 publication *Rural Tourism and Sustainable Rural Development* This book was originally published as a special issue of the *Journal of Sustainable Tourism* *The Making of a Cultural Landscape* Jason Wood, John K. Walton, 2016-03-09 For centuries the English Lake District has been renowned as an important cultural sacred and literary landscape It is therefore surprising that there has so far been no in depth critical examination of the Lake District from a tourism and heritage perspective Bringing together leading writers from a wide range of disciplines this book explores the tourism history and heritage of the Lake District and its construction as a cultural landscape from the mid eighteenth century to the present day It critically analyses the relationships between history heritage landscape culture and policy that underlie the activities of the National Park Cumbria Tourism and the proposals to recognise the Lake District as a UNESCO World Heritage Site It examines all aspects of the Lake District s history and identity brings the story up to date and looks at current issues in conservation policy and tourism marketing In doing so it not only provides a unique and valuable analysis of this region but offers insights into the history of cultural and heritage tourism in Britain and beyond *Rethinking Tourism and Development* Richard Sharpley, David J. Telfer, 2023-09-06 *Rethinking Tourism and Development* provides a critical analysis of the tourism industry s impact on development and the environment While tourism contributes significantly to the global economy it also generates environmental costs that can no longer be ignored This book challenges the conventional paradigm of sustainable tourism development and proposes a radical new approach to address the negative impacts of tourism centred on degrowth William Wordsworth and the Ecology of Authorship Scott Hess, 2012-04-12 In *William Wordsworth and the Ecology of Authorship* Scott Hess explores Wordsworth s defining role in establishing what he designates as the ecology of authorship a primarily middle class nineteenth century conception of nature associated with aesthetics high culture individualism and nation Instead of viewing Wordsworth as an early ecologist Hess places him within a context that is largely cultural and aesthetic The supposedly universal Wordsworthian vision of nature Hess argues was in this sense specifically male middle class professional and culturally elite factors that continue to shape the environmental movement today
