Suzannes Personalised Poetry As If It:

The Routledge Handbook of Arabic Poetry Huda Fakhreddine, Suzanne Pinckney Stetkevych, 2023-12-22 Comprised of contributions from leading international scholars The Routledge Handbook of Arabic Poetry incorporates political cultural and theoretical paradigms that help place poetic projects in their socio political contexts as well as illuminate connections across the continuum of the Arabic tradition This volume grounds itself in the present moment and from it examines the transformations of the fifteen century Arabic poetic tradition through readings re readings translations reformulations and co optations Furthermore this collection aims to deconstruct the artificial modern pre modern divide and to present the Arabic poetic practice as live and urgent shaped by the experiences and challenges of the twenty first century and at the same time in constant conversation with its long tradition The Routledge Handbook of Arabic Poetry actively seeks to destabilize binaries such as that of East West in contributions that shed light on the interactions of the Arabic tradition with other Middle Eastern traditions such as Persian Turkish and Hebrew and on South South ideological and poetic networks of solidarity that have informed poetic currents across the modern Middle East This volume will be ideal for scholars and students of Arabic Middle Eastern and comparative literature as well as non specialists interested in poetry and in the present moment of the study of Arabic poetry

Early Islamic Poetry and Poetics Suzanne Pinckney Stetkevych, 2017-05-15 This volume brings together a set of key studies on classical Arabic poetry ca 500 1000 C E published over the last thirty five years the individual articles each deal with a different approach period genre or theme The major focus is on new interpretations of the form and function of the pre eminent classical poetic genre the polythematic qasida or Arabic ode particularly explorations of its ritual ceremonial and performance dimensions Other articles present the typology and genre characteristics of the short monothematic forms especially the lyrical ghazal and the wine poem After thus setting out the full poetic genres and their structures the volume turns in the remaining studies to the philological rhetorical stylistic and motival elements of classical Arabic poetry in their etymological symbolic historical and comparatist dimensions Suzanne Pinckney Stetkevych s Introduction places the articles within the context of the major critical and methodological trajectories of the field and in doing so demonstrates the increasing integration of Arabic literary studies into contemporary humanistic scholarship The Selected Bibliography complements the Introduction and the Articles to offer the reader a full overview of the past generation of Western literary and critical scholarship on classical Arabic poetry

An Anthology of Modern Arabic Poetry Mounah A. Khouri, Hamid Algar, 2022-04-29 This bilingual anthology is the first attempt to present a substantial collection of contemporary Arabic poetry in the English language It acquaints the English speaking reader with the modern development of one of the world s major poetic traditions and affords insight into the contemporary cultural situation of the Arab peoples English translations of Arabic poetry have suffered from aspirations to geographic completeness of representation and excessive concern with the Neo Classicist school The present anthology regards poetic quality as the

primary criterion of selection and displays an emphatic interest in the poets of free verse. It presents three successive generations: the Syro-Americans, the Egyptian modernist, and the poets of the free verse movement linked together by a progressive shift from emphasis on form to emphasis on content and form. A relatively detached portrayal of the outside world to a concern with the expression of individual experience. Numerous contemporary poets make their first appearance in English, some of them having written pieces specially for this anthology. It is hoped that the bilingual character of the anthology will suit it for use by students of Arabic literature. At the same time, the book is intended for a wider readership with general poetic and literary interests. An important criterion in composing the anthology was the viability of a poem in its English translation as a piece of literature as well as the excellence of its Arabic original if the translators have been successful in applying this criterion, the anthology should afford much aesthetic pleasure. The work should be of considerable interest also to students of comparative literature as it demonstrates the influence on modern Arab letters of several Western poets, notably Eliot, Yeats, and Pound. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high quality peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1974.

The Japan Review, 1920 Reorientations / Arabic

and Persian Poetry Suzanne Pinckney Stetkevych, 1994-03-22 Employing contemporary literary theory, eight members of the Chicago school of Arabic and Persian literature reorient the critical approach to classical Middle Eastern literature. The authors analyze a broad spectrum of poetry ranging from the pre-Islamic ode of the sixth century to seventeenth-century Persian Safavid Moghul verse. Among issues considered are the ritual and sacrificial aspects of literature, the transition from orality to literacy, the iconographical and mythic dimensions of philology and imitation as a form of creation. The inclusion of contemporary translations of all the poems discussed is an important feature for students of Middle Eastern literature and comparative poetics.

The Little Magazine Others and the Renovation of Modern American Poetry Suzanne W. Churchill, 2017-03-02 Suzanne Churchill's well-researched and superbly crafted study is the first book-length treatment of *Others*, an important and neglected little magazine that served as a laboratory for modernist poetic experimentation. In discussions of influential poets such as Mina Loy, Marianne Moore, and William Carlos Williams, whose careers *Others* helped launch, Churchill counters the notion of Modernism as aesthetically self-isolating and socially disengaged. Rather, she traces a correspondence between formal innovation and social change in American modernist poetry and argues that this dimension of modernist formalism is lost when poems are studied in isolation. *Others* provides a framework for reassessing the scope and significance of modernist formalism. The little magazine not only anchors modernist poetry in a social context but also leads to new insight into major modernist texts. Churchill's commitment to her subject's broad cultural contexts makes her book important for students and teachers of Modernism as well as for those working in the fields of American poetry and
