Surrealism Of Everyday Life:

Everyday Life Michael Sheringham, 2006-03-09 In the last twenty years the concept of the quotidien or the everyday has been prominent in contemporary French culture and in British and American cultural studies This book provides the first comprehensive analytical survey of the whole field of approaches to the everyday It offers firstly a historical perspective demonstrating the importance of mainstream and dissident Surrealism the indispensable contribution over a 20 year period 1960 80 of four major figures Henri Lefebvre Roland Barthes Michel de Certeau and Georges Perec and the recent proliferation of works that investigate everyday experience Secondly it establishes the framework of philosophical ideas on which discourses on the everyday depend but which they characteristically subvert Thirdly it comprises searching analyses of works in a variety of genres including fiction the essay poetry theatre film photography and the visual arts consistently stressing how explorations of the everyday tend to question and combine genres in richly creative ways By demonstrating the enduring contribution of Perec and others and exploring the Surrealist inheritance the book proposes a genealogy for the remarkable upsurge of interest in the everyday since the 1980s A second main objective is to raise questions about the dimension of experience addressed by artists and thinkers when they invoke the quotidien or related concepts Does the everyday refer to an objective content defined by particular activities or is it best thought of in terms of rhythm repetition festivity ordinariness the generic the obvious the given Are there events or acts that are uniquely everyday or is the quotidien a way of thinking about events and acts in the here and now as opposed to the longer term What techniques or genres are best suited to conveying the nature of everyday life The book explores these questions in a comparative spirit drawing new parallels between the work of numerous writers and artists including Andr Breton Raymond Queneau Walter Benjamin Michel Leiris Maurice Blanchot Michel Foucault Stanley Cavell Annie Ernaux Jacques R da and Sophie Calle **Robert Desnos, Surrealism, and the Marvelous in Everyday Life** Katharine Conley, 2003-01-01 He stayed with the official surrealist movement in Paris for only six years but was pivotal during that time in shaping the surrealist notion of transforming the world through radical experiments with language and art After leaving the group Desnos continued his career of radio broadcasting and writing for commercials Everyday Life and Cultural Theory Ben Highmore, 2002 Ben Highmore traces the development of conceptions of everyday life from Georg Simmel s cultural sociology through the Mass Observation project of the thirties to theorists such as Michel Curteau **Modernism and Theory** Stephen Ross, 2009-05-07 Modernism and Theory boldly asks what role theory has to play in the new modernist studies The three sections comprise expositions and debates on modernist topics by leading contributors and the book concludes with an afterword from Fredric Jameson **The Art of Interruption** John Roberts, 1998 This is the first monograph length study that charts the coercive diplomacy of the administrations of Richard Nixon and Gerald Ford as practised against their British ally in order to persuade Edward Heath s government to follow a more amenable course throughout the Year of Europe and

to convince Harold Wilson's governments to lessen the severity of proposed defence cuts. Such diplomacy proved effective against Heath but rather less so against Wilson. It is argued that relations between the two sides were often strained indeed to the extent that the most special elements of the relationship that of intelligence and nuclear co-operation were suspended. Yet the relationship also witnessed considerable co-operation. This book offers new perspectives on US and UK policy towards British membership of the European Economic Community demonstrates how US détente policies created strain in the special relationship reveals the temporary shutdown of US UK intelligence and nuclear co-operation provides new insights in US UK defence co-operation and re-evaluates the US UK relationship throughout the IMF Crisis

History, Memory, and the Literary Left

John Lowney, 2006-10 In this nuanced revisionist history of modern American poetry John Lowney investigates the Depression era's impact on late modernist American poetry from the socioeconomic crisis of the 1930s through the emergence of the new social movements of the 1960s. Informed by an ongoing scholarly reconsideration of 1930s American culture and concentrating on Left writers whose historical consciousness was profoundly shaped by the Depression, World War II and the Cold War, Lowney articulates the Left's challenges to national collective memory and redefines the importance of late modernism in American literary history. The late modernist writers Lowney studies most closely Muriel Rukeyser, Elizabeth Bishop, Langston Hughes, Gwendolyn Brooks, Thomas McGrath and George Oppen are not all customarily associated with the 1930s nor are they commonly seen as literary peers. By examining these late modernist writers comparatively, Lowney foregrounds differences of gender and sexuality, race and ethnicity and social class and region while emphasizing how each writer developed poetic forms that responded to the cultural politics and socioaesthetic debates of the 1930s. In so doing he calls into question the boundaries that have limited the scholarly dialogue about modern poetry. No other study of American poetry has considered the particular gathering of careers that Lowney considers. As poets whose collective historical consciousness was profoundly shaped by the turmoil of the Depression and war years and the Cold War's repression or rewriting of history, their diverse talents represent a distinct generational impact on US and international literary history
