Rapti, 2016-05-13 Taking as its point of departure the complex question about whether Surrealist theatre exists this book re-examines the much misunderstood artistic medium of theatre within Surrealism especially when compared to poetry and painting This study reconsiders Surrealist theatre specifically from the perspective of ludics a poetics of play and games an ideal approach to the Surrealists whose games blur the boundaries between the playful and the serious Vassiliki Rapti's aims are threefold first to demystify Andr Breton's controversial attitude toward theatre second to do justice to Surrealist theatre by highlighting the unique character that derives from its inherent element of play and finally to trace the impact of Surrealist theatre in areas far beyond its generally acknowledged influence on the Theatre of the Absurd an impact being felt even on the contemporary world stage Beginning with the Surrealists one into another game and its illustration of Breton's ludic dramatic theory Rapti then examines the traces of this kind of game in the works of a wide variety of Surrealist and Post Surrealist playwrights and stage directors from several different countries and from the 1920s to the present Roger Vitrac Antonin Artaud G nter Berghaus Nanos Valaoritis Robert Wilson and Megan Terry

*Surrealism and Photography in 1930s Japan* Jelena Stojkovic, 2020-05-31 Despite the censorship of dissident material during the decade between the Manchurian Incident of 1931 and the outbreak of the Pacific War in 1941 a number of photographers across Japan produced a versatile body of Surrealist work In a pioneering study of their practice Jelena Stojkovic draws on primary sources and extensive archival research and maps out art historical and critical contexts relevant to the apprehension of this rich photographic output most of which is previously unseen outside of its country of origin The volume is an essential resource in the fields of Surrealism and Japanese history of art for researchers and students of historical avant gardes and photography as well as for readers interested in visual culture

**Surrealism and the Gothic** Neil Matheson, 2017-08-07 Surrealism and the Gothic is the first book length analysis of the role played by the gothic in both the initial emergence of surrealism and at key moments in its subsequent development as an art and literary movement The book argues the strong and sustained influence not only of the classic gothic novel itself Ann Radcliffe Charles Maturin Matthew Lewis etc but also the determinative impact of closely related phenomena as with the influence of mediumism alchemy and magic The book also traces the later development of the gothic novel as with Bram Stoker's Dracula and its mutation into such works of popular fiction as the Fant mas series of Marcel Allain and Pierre Souvestre enthusiastically taken up by writers such as Apollinaire and subsequently feeding into the development of surrealism More broadly the book considers a range of motifs strongly associated with gothic writing as with insanity incarceration and the accursed outsider explored in relation to the personal experience and electroshock treatment of Antonin Artaud A recurring motif of the analysis is that of the gothic castle developed in the writings of Andr Breton Artaud Sade Julien Gracq and other writers as well as in the work of visual artists

such as Magritte *Surrealism, Politics and Culture* Raymond Spiteri, Donald Lacoss, 2020-03-18 This title was first published in 2003 Drawing on literary art historical and historical studies this essay collection explores the complex encounter between culture and politics within Surrealism The Surrealist movement was one of the first cultural movements to question explicitly the relation between culture and politics and its attempt to fuse social and cultural revolution has been a critical factor in shaping our sense of modernity This anthology addresses not only the contested ground between culture and politics within Surrealism itself and within the subsequent historical accounts of the movement but also the broader implications of this encounter on our own sense of modernity Its goal is to delineate the role of radical politics in shaping the historical trajectory of Surrealism *The Surrealist Connection* David Zinder, 1976 **Paul Celan's Encounters with Surrealism** Charlotte Ryland, 2017-12-02 Paul Celan 1920 1970 one of the most important and challenging poets in post war Europe was also a prolific and highly idiosyncratic translator His post Holocaust writing is inextricably linked to the specific experiences that have shaped contemporary European and American identity and at the same time has its roots in literary philosophical and scientific traditions that range across continents and centuries surrealism being a key example Celan s early works emerge from a fruitful period for surrealism and they bear the marks of that style not least because of the deep affinity he felt with the need to extend the boundaries of expression In this comparative and intertextual study Charlotte Ryland shows that this interaction continued throughout Celan s lifetime largely through translation of French surrealist poems and that Celan s great oeuvre can thus be understood fully only in the light of its interaction with surrealist texts and artworks which finally gives rise to a wholly new poetics of translation Charlotte Ryland is Lecturer in German at St Hughs College and The Queens College Oxford Robert Motherwell, Abstraction, and Philosophy Robert Hobbs, 2020-06-07 Employing an interdisciplinary approach this book breaks new ground by considering how Robert Motherwell s abstract expressionist art is indebted to Alfred North Whitehead s highly original process metaphysics Motherwell first encountered Whitehead and his work as a philosophy graduate student at Harvard University and he continued to espouse Whitehead s processist theories as germane to his art throughout his life This book examines how Whitehead s process philosophy inspired by quantum theory and focusing on the ongoing ingenuity of dynamic forces of energy rather than traditional views of inert substances set the stage for Motherwell s future art This book will be of interest to scholars in twentieth century modern art philosophy of art and aesthetics and art history The Screen in Surrealist Art and Thought Haim Finkelstein, 2017-07-05 An interrogation of the notion of space in Surrealist theory and philosophy this study analyzes the manifestations of space in the paintings and writings done in the framework of the Surrealist Movement Haim Finkelstein introduces the screen as an important spatial paradigm that clarifies and extends the understanding of Surrealism as it unfolds in the 1920s exploring the screen and layered depth as fundamental structuring principles associated with the representation of the mental space and of the internal processes that eventually came to be linked with the Surrealist

concept of psychic automatism Extending the discussion of the concepts at stake for Surrealist visual art into the context of film literature and criticism this study sheds new light on the way film thinking permeates Surrealist thought and aesthetics In early chapters Finkelstein looks at the concept of the screen as emblematic of a strand of spatial apprehension that informs the work of young writers in the 1920s such as Robert Desnos and Louis Aragon He goes on to explore the way the spatial character of the serial films of Louis Feuillade intimated to the Surrealists a related mode of vision associated with perception of the mystery and the Marvelous lurking behind the surfaces of quotidian reality The dialectics informing Surrealist thought with regard to the surfaces of the real with walls doors and windows as controlling images are shown to be at the basis of Andr   Breton's notion of the picture as a window Contrary to the traditional sense of this metaphor Breton's window is informed by the screen paradigm with its surface serving as a locus of a dialectics of transparency and opacity permeability and reflectivity The main aesthetic and conceptual issues that come up in the consideration of Breton's window metaphor lay the groundwork for an analysis of the work of Giorgio de Chirico Ren   Magritte Max Ernst Andr   Breton and Joan Mir   The concluding chapter considers

**The Routledge Companion to Surrealism** Kirsten Strom, 2022-11-08 This book provides a conceptual and global overview of the field of Surrealist studies Methodologically the companion considers Surrealism's many achievements but also its historical shortcomings to illuminate its connections to the historical and cultural moments from which it originated and to assess both the ways in which it still shapes our world in inspiring ways and the ways in which it might appear problematic as we look back at it from a twenty-first century vantage point Contributions from experienced scholars will enable professors to teach the subject more broadly by opening their eyes to aspects of the field that are on the margins of their expertise and it will enable scholars to identify new areas of study in their own work by indicating lines of research at a tangent to their own The companion will reflect the interdisciplinarity of Surrealism by incorporating discussions pertaining to the visual arts as well as literature film and political and intellectual history
