Mental Disorders in the Classical World William V. Harris, 2013-03-15 The historians classicists and psychiatrists who

have come together to produce *Mental Disorders in the Classical World* aim to explain how the Greeks and their Roman successors conceptualized diagnosed and treated mental disorders The Greeks initiated the secular understanding of mental illness and have left us a large body of penetrating and thought provoking writing on the subject ranging in time from Homer to the sixth century AD With the conceptual basis of modern psychiatry once again under intense debate we need to learn from other rational approaches even when they lack modern scientific underpinnings Meanwhile this volume adds a rich chapter to the cultural and medical history of antiquity The contributors include a high proportion of the best regarded scholars in this field together with papers by some of its rising stars **Shakespeare: The Evidence** Ian Wilson,1999-01-15

Aronson,2016-09-06

After September 11 with New Yorkers reeling from the World Trade Center attack Chief Medical Examiner Charles Hirsch proclaimed that his staff would do more than confirm the identity of the individuals who were killed They would attempt to identify and return to families every human body part recovered from the site that was larger than a thumbnail As Jay D Aronson shows delivering on that promise proved to be a monumentally difficult task Only 293 bodies were found intact The rest would be painstakingly collected in 21 900 bits and pieces scattered throughout the skyscrapers debris This massive effort the most costly forensic investigation in U S history was intended to provide families conclusive knowledge about the deaths of loved ones But it was also undertaken to demonstrate that Americans were dramatically different from the terrorists who so callously disregarded the value of human life Bringing a new perspective to the worst terrorist attack in U S history *Who Owns the Dead* tells the story of the recovery identification and memorialization of the 2 753 people killed in Manhattan on 9 11 For a host of cultural and political reasons that Aronson unpacks this process has generated endless debate from contestation of the commercial redevelopment of the site to lingering controversies over the storage of unclaimed remains at the National 9 11 Memorial and Museum The memory of the victims has also been used to justify military activities in the Middle East that have led to the deaths of an untold number of innocent civilians *Necropolitics* Francisco Ferrándiz,Antonius C. G. M. Robben,2015-06-19

The unmarked mass graves left by war and acts of terror are lasting traces of violence in communities traumatized by fear conflict and unfinished mourning Like silent testimonies to the wounds of history these graves continue to inflict harm on communities and families that wish to bury or memorialize their lost kin Changing political circumstances can reveal the location of mass graves or facilitate their exhumation but the challenge of identifying and recovering the dead is only the beginning of a complex process that brings the rights and wishes of a bereaved society onto a transnational stage

Necropolitics Mass Graves and Exhumations in the Age of Human Rights examines the political and social implications of this sensitive undertaking in specific local and national contexts International forensic methods local level claims national political developments and transnational human rights discourse converge in detailed case studies from the United States Argentina Chile Peru Spain Bosnia Herzegovina Greece Rwanda Cambodia and Korea Contributors analyze the role of exhumations in transitional justice from the steps of interviewing eyewitnesses and survivors to the painstaking forensic recovery and comparison of DNA profiles This innovative volume demonstrates that contemporary exhumations are as much a source of personal historical and criminal evidence as instruments of redress for victims through legal accountability and memory politics Contributors Zo Crossland Francisco Ferr ndiz Luis Fondebrider Iosif Kovras Heonik Kwon Isaias Rojas Perez Antonius C G M Robben Elena Lesley Katerina Stefatos Francesc Torres Sarah Wagner Richard Ashby Wilson
