Dissatisfactions Joshua Javier Guzmán, 2024-11-19 How the queer Chicano punks of post 1960s Los Angeles developed a unique politics of style In this groundbreaking work Joshua Javier Guzmán explores the queer punk and Chicano Latino avant garde art scenes in post 1968 Los Angeles from the rise of Ronald Reagan to the height of the AIDS epidemic He demonstrates how style as a cultural form and sensibility becomes essential to Latino politics at the moment the utopian impulses of the 1960s begin to fade Guzmán uncovers how queer Latinos in Los Angeles used performance underground

media experimental art and literature to interrogate the limits of Chicano nationalism and the burgeoning politics of gay liberation These subcultural forms give rise to a theory of what he calls stylized discontent expressed as nausea lo fi ambivalence and malaise Each chapter of the book is framed by a specific stylized discontent demonstrating how they were repurposed by queer punk Latinos as responses to the AIDS crisis and the rise of neoliberalisms Dissatisfactions highlights the middle ranges of political agency strategically utilized by queer racialized historical actors to underscore how negative feelings become instrumental to social change Revealing new forms of activism and art that continue to structure the way we understand systemic violence and survival Dissatisfactions insists on the significance of both the politics of style and the different styles politics may take

AIDS Nancy Krieger, Glen Margo, 2020-11-27 In one short decade the politics of AIDS has become the politics of survival In a world whose social order is changing before our eyes AIDS insistently brings new meaning to the age old question of what it is we must do to survive as individuals as families as communities as nations as members of an interdependent world This book brings together a collection of articles that frankly discuss what it will take to stop the AIDS epidemic and deal with the devastation it has already wrought

Love Don't Need a Reason Matthew J. Jones, 2020 From a stage erected in front of the US Capitol on April 25 1993 Michael Callen surveyed the throng an estimated one million people stretched across the National Mall in the largest public

demonstration of queer political solidarity in history What a sight he told the crowd his earnest Midwestern twang reverberating through loudspeakers You re a sight for sore eyes Being gay is the greatest gift I have ever been given and I don t care who knows about it He then launched into a gorgeous rendition of Love Don t Need a Reason the AIDS anthem he composed with Marsha Malamet and the late Peter Allen As Callen finished singing people stood cheering and flashing the familiar American Sign Language symbol for I Love You For they knew the song s sentiment rang true for Callen who had recently announced his retirement from music and activism after a living for more than a decade with what was then called full blown AIDS After the March on Washington Callen returned to his recently adopted West Coast home Los Angeles In the ensuing months his health rapidly declined and on 27 December 1993 Callen died of AIDS related pulmonary Kaposi s sarcoma Love Don t Need a Reason focuses on Callen s most important and lasting legacy his music A witness to the overlooked last years of Gay Liberation and a major figure in the early years of the AIDS crisis Michael Callen chronicled these experiences in song A community organizer activist author and architect of the AIDS self empowerment movement he literally changed the way we have sex in an epidemic when he co authored one of the first safe sex guides in 1983 A gifted singer songwriter and performer he also made gay music for gay people and used music to educate and empower people with AIDS Listening again to his music allows us to hear the shifting dynamics of American families changing notions of masculinity gay migration to urban areas the sexual politics of Gay Liberation and HIV AIDS activism Using extensive archival materials and newly conducted oral history interviews with Callen s friends family and fellow musicians Matthew J Jones reintroduces Callen to the history of LGBTQIA music and places Callen s music at the center of his important activist work

Hold Tight Gently Martin Duberman, 2014-03-18 In December 1995 the FDA approved the release of protease inhibitors the first effective treatment for AIDS For countless people the drug offered a reprieve from what had been a death sentence for others it was too late In the United States alone over 318 000 people had already died from AIDS related complications among them the singer Michael Callen and the poet Essex Hemphill Meticulously researched and evocatively told *Hold Tight Gently* is the celebrated historian Martin Duberman s poignant memorial to those lost to AIDS and to two of the great unsung heroes of the early years of the epidemic Callen a white gay Midwesterner who had moved to New York became a leading figure in the movement to increase awareness of AIDS in the face of willful and homophobic denial under the Reagan administration Hemphill an African American gay man contributed to the black gay and lesbian scene in Washington D C with poetry of searing intensity and introspection A profound exploration of the intersection of race sexuality class identity and the politics of AIDS activism beyond ACT UP *Hold Tight Gently* captures both a generation struggling to cope with the deadly disease and the extraordinary refusal of two men to give in to despair

The Genome Generation Elizabeth Finkel, 2012 The year 2001 marked more than just the beginning of Stanley Kubrick s *Space Odyssey* it marked the beginning of the genome era That was the year scientists first read the 3 billion letters of DNA that make up the human

genome This was followed by a veritable Noah's Ark of genomes—sponges and worms, dogs and cows, rice and wheat, chimps and elephants—180 creatures aboard so far. So what have we learned from all this? How has it changed the way we practise medicine, grow crops and breed livestock? What have we learned about evolution? These are the questions science writer and molecular biologist Elizabeth Finkel asked herself four years ago. To find the answers, she travelled the science frontier from Botswana to Boston, from Warracknabeal to Mexico and tracked down scientists working in the field. Their stories told here paint the picture of what it means to be part of the genome generation. The Genome Generation is absolutely riveting. These tales from the frontier are a must read for everyone who wishes to understand our past—the logic of evolution—or take a peep into our exciting future at the creation of super plants through digital agriculture. — R. A. Mashelkar, CSIR Bhatnagar Fellow and India President, Global Research Alliance
