Brown, 2013-11-26 Staying the Course is about a college that many describe as being the way colleges used to be beautiful well maintained buildings and grounds caring capable faculty administrators who manage frugally and compassionately a bright energetic president willing to dedicate his life to assuring a solid future for the institution and students who study hard and work hard to serve those in need Still the college struggles to maintain what it has built and to increase its endowment small by comparison to many private institutions at the same time it continues to hold tuition low and provide funding to students who even with Pell grants need extra help to go to and stay in college How the college is managing to build a sustainable financial base is described in chapters focusing on the kinds of students who attend the faculty who teach the administrators who oversee the multiple programs that support the students as well as design new courses and new ways of teaching the trustees who guide the college and the president who has stayed long enough to see many of his dreams for the college realized to shape new dreams and to raise the funding that makes those dreams realities The college still struggles in many ways but its struggles are far less than they would be without the lessons the institution has learned and is offering to other small private colleges facing similar difficult circumstances With the many stories about the sad state of higher education today this book contradicts those stories with its description of how merging the values of the past with the information and strategies available today can enable a small college in a region of poverty and with a population of students with limited financial resources to rise above those threats and limitations to become a model for the future of such institutions **Library of Congress Catalogs** Library of Congress, 1980 **Reshaping Universities for Survival in the 21st Century** Christina Chow, Clement Leung, 2016-01-21 Universities are viewed by many as institutions that should impart quality education to enrolled students and foster a learning environment which in turn would benefit the accumulation of knowledge worldwide Enhancing university education is at the top of most governmental agendas In this knowledge driven economy every nation wants to have the world's top ranked universities Every parent wants to send their child to a top university And most people want to have a good university degree that gives them good prospects for landing a respectable job But universities are currently in turmoil mass redundancies and department closures have become routine Once revered as ivory towers of learning today's universities are forced to regard their students as consumers and customers Many universities are now torn between labor market forces and increasing public expectations and accountability University administration departments struggle with declining funding and increased cost scrutiny Challenged on multiple fronts universities are faced with conflicting agendas They are expected to develop world class reputations in research an academic agenda while teaching increasing numbers of students a

commercial agenda They are required to be engines of economic development while maintaining comprehensive scholarly profiles Numerous reports and headlines predict the demise of universities emphasizing that the current educational and business model is not viable Reshaping Universities for Survival in the 21st Century New Opportunities and Paradigms suggests possible paths which universities might take to survive in the future by providing a compelling account of the landscape of today s universities and the challenges they face Readers will learn about the current crises which universities face followed by an explanation of the ideologies and paradigms that have shaped the current academic landscape New trends and concepts in university education are also explained such as academic capitalism and MOOCs Written in clear easy to understand language it is a must read for anyone who studies works or is interested in the higher education sector including university and government leaders and educational policy makers **Affirmative Action** Ron Simmons,1982
